

Cortellis Regulatory Intelligence

Be alerted of new COVID-19 documents released by global health authorities

Search for documents from the regulatory authorities and governing bodies where COVID-19 is the main focus. Then set up an alert so new COVID-19 documents are automatically emailed to you and you don't miss any updates.

1. On the Cortellis regulatory homepage click **Advanced Search** which is located next to the blue Search button.

The screenshot shows the Cortellis Search interface. At the top left is the word "Search". Below it is a search input field with the placeholder text "Document title, topic, country, reference number...". To the right of the input field is a blue "Search" button and a grey "Advanced search" button. A purple arrow points to the "Advanced search" button. Below the search bar is a "Filter" section with a dropdown menu icon. The filters include "Country/Region" (highlighted in black), "Topic", "Document Type", "Document Category", "Date Filter", "Last Updated", "All other filters", and "Reset Filters".

2. Select the **Regulatory tab** (if you have access to other content sets in Cortellis).
3. Next to the "Title, Abstract, Reason for Update" field type **Covid-19** into the search text box.
4. On the next line select "Document Category" from the drop down and select **Reference Document**.
5. Select any other desired search criteria using the drop-down menus, pick lists and search text boxes. In this use case we have limited our search to the countries/regions: **US, EU, Italy, UK and China**.
