Turn opportunities into outcomes

Get the right funding opportunities to the right researchers.

Increase funding success rates with Pivot-RP™, an expert-curated global source of funding opportunities with powerful workflow, intelligence and discovery tools.

Competition for research funding continues to rise while research offices and research administrators are being pressed to do more for their researchers with fewer resources. Researchers and research administrators need a platform that helps organizations win a larger share of available funding.
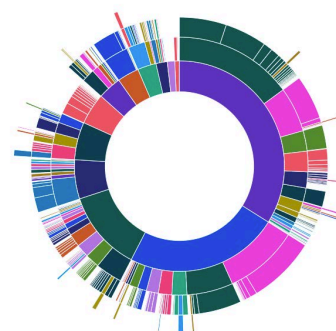

Pivot-RP uses expert editors to curate scholarly profiles and funding opportunities for accuracy and timeliness so it can leverage AI to reliably match researchers to relevant financial support. Communicate efficiently to researchers and partners using customizable administration tools and leverage trusted funding and policy intelligence to guide strategic planning.

Advance your research with the most trusted funding solution.

Clarivate™

Curated data

Optimize discovery by relying on timely and accurate funding opportunity data.

- Discover tens of thousands of funding opportunities worth billions of dollars from around the world and across the widest variety of funding types.

- Achieve timely discoverability of funding opportunities from a dedicated team who curate the content and provide expert scrutiny of eligibility criteria and extensive indexing.

- Search thousands of conferences requesting "call for papers" to present and publish with the built-in Conferences and Papers Invited database.

- Include internal funding opportunities to promote additional funding available from your institution.

$130B+

of funding is available across multiple research areas.

Strategic intelligence

Strengthen proposals by matching researchers to opportunities with AI and staying abreast of policy news.

- Enable the AI-driven Pivot-RP Funding Advisor that automatically recommends funding opportunities based on a researcher's specific profile.

- Discover potential collaborators among millions of scholarly profiles that include past publications, times cited, and citation impact derived from Web of Science Core Collection™ data.

- Inform your strategies with our searchable database of millions of previously awarded grants, across dozens of international global funders and growing.

- As an additional resource, Research Professional News™ provides timely and trusted information focused on research policy, research funding and higher education around the world.

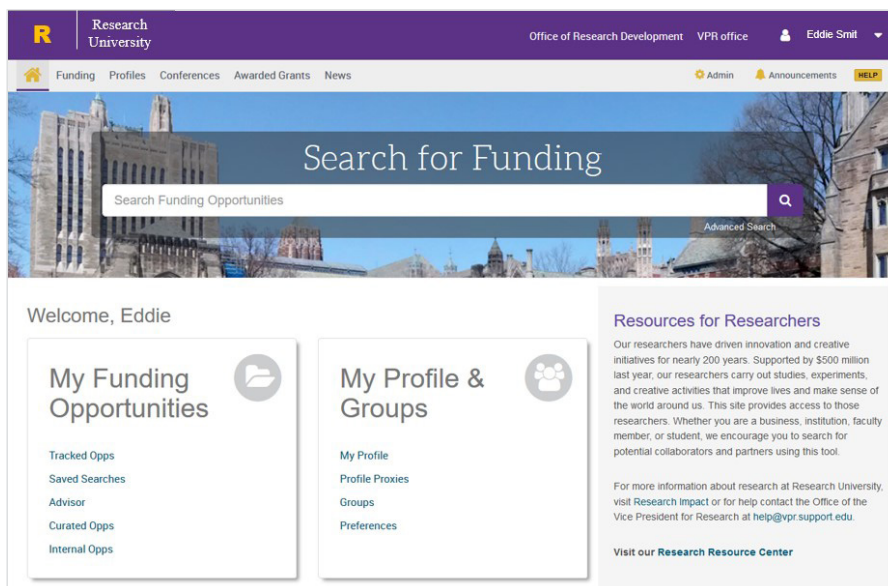

Research Professional News portal.

Time-saving tools

Lift the administrative burden with effective workflow, communication and reporting tools.

- Communicate effectively and efficiently across your organization with custom groups, automated newsletters, and many built-in features and alerts for sharing funding information.

- Use the advanced reporting features in Pivot-RP to share funding information, generate a variety of reports, track individual usage activity, and demonstrate the value of the service.

- Promote the research office's value by customizing the Pivot-RP interface with institutional branding. Use the platform to promote other research office services, and guide users to additional resources.

- Integrate seamlessly with tools like ORCID, InfoReady, and more to streamline researchers' workflows.

Integrate Pivot-RP in your workflows and promote the value of your research office.

Customized platform with applied institutional branding.
