Looking to clear your trademark in key markets around the world? Our Multi-Country/Region Screening Search is a cost-effective first step. It’s the fast, easy way to screen proposed trademarks for use across multiple countries/regions, identifying identical, phonetically identical and closely similar trademarks in 105 international jurisdictions. And with no class limits, you’ll get the most complete results.

Our Multi-Country/Region Screening Search helps you eliminate unavailable names early in the clearing process – saving you time, money and headaches. Now you can access and analyze MCSS reports online using the Analysis Tool on SERION®. Streamline your workflow and create custom reports in seconds.

Our Multi-Country/Region Screening Search goes beneath the surface, delivering more in-depth information to help you make more informed trademark decisions. Citations include:

- Detailed record content – Including trademark, owner, country/region, class, and goods.
- Trademark status information – Full history, including current status and all updates and status changes. Includes pre-1976 information.

Valuable benefits
Cost-effective – by focusing on the most important registers, you receive the most relevant results at an attractive cost.

Detailed – In-depth trademark and status information helps you make more informed decisions.

Fast – Receive results electronically next day or 3-day.
