

# Quickly analyze your results with Apply Filters

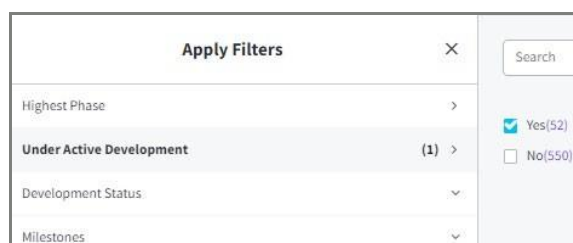

## Cortellis Drug Discovery Intelligence

Use **Apply Filters** as a powerful and easy-to-use analytical tool.

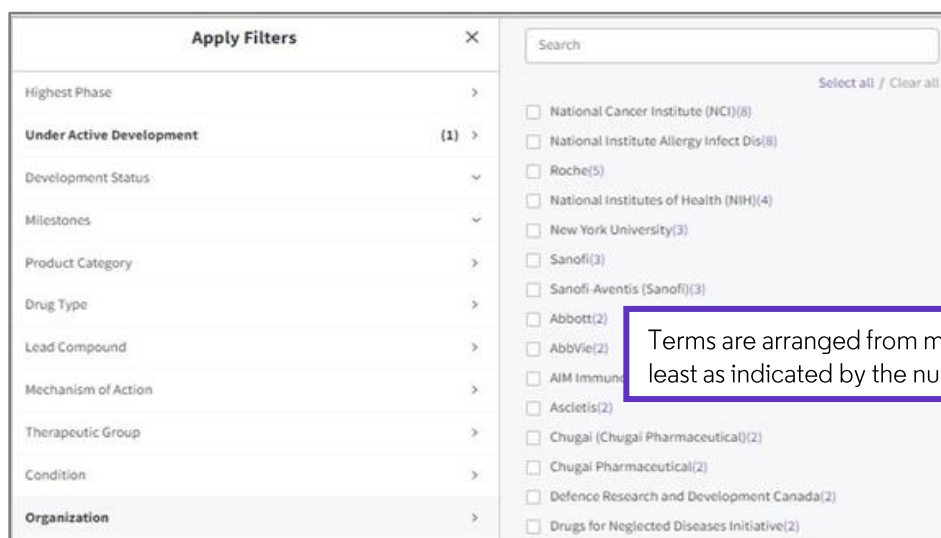

1. Click on **Apply Filters** at the top-left of any results page. For this example, we ran a quick search in the Drugs and Biologicals knowledge area for *Coronavirus*.

2. Go into any filter category to see how your results are distributed within it and to select those of interest. In this example, we clicked on **Under Active development** and selected **Yes**.

3. The selected filter/s will cascade down into the other filter categories behaving as a real-time analytic. For example, click on **Organizations** to quickly understand who is currently working on Coronavirus.

Terms are arranged from most frequent to least as indicated by the numbers in
