

# Cortellis

## How to visualize top players in my results?

Visualization charts are available in Cortellis to facilitate analysis of your results. Drugs, clinical trials, deals and patents results can be displayed as a bar chart helping you identify top players, for example.

Follow these steps to create a chart from your results:

1. Once you have searched and filtered your results, select 'Rank by View' at the top right of the results page.

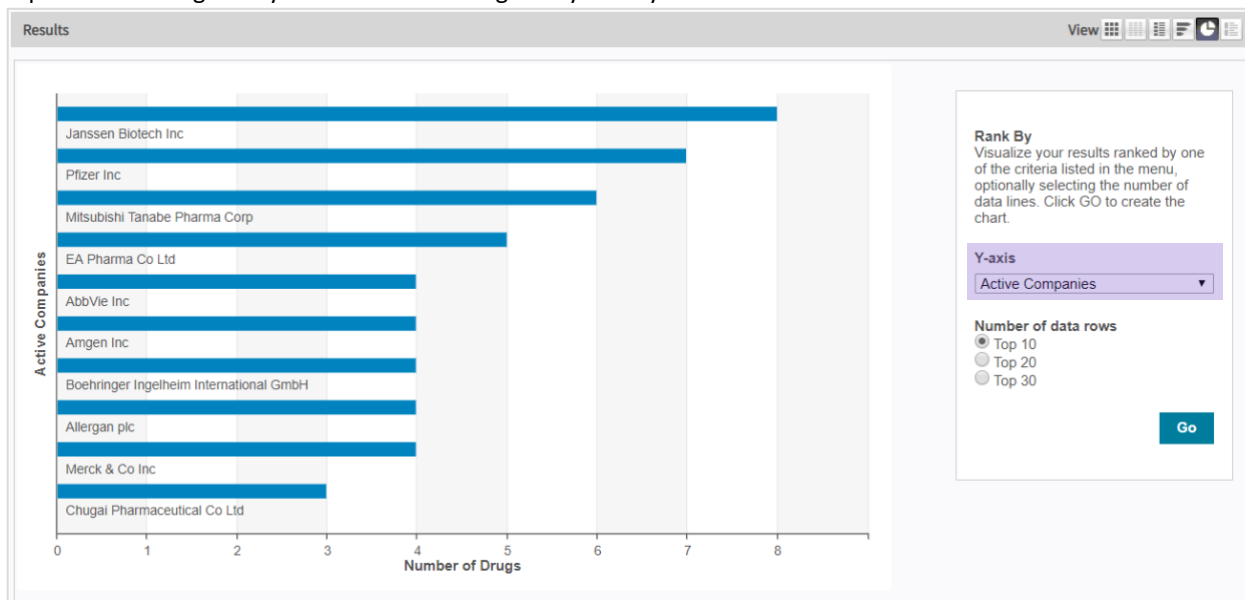

340 results found for index Search for the search term "crohns disease"

First Previous 1 2 3 4 5 6 7 8 9 10 Next Last

Results Per page: 25 Sort by: Relevance Order Columns View

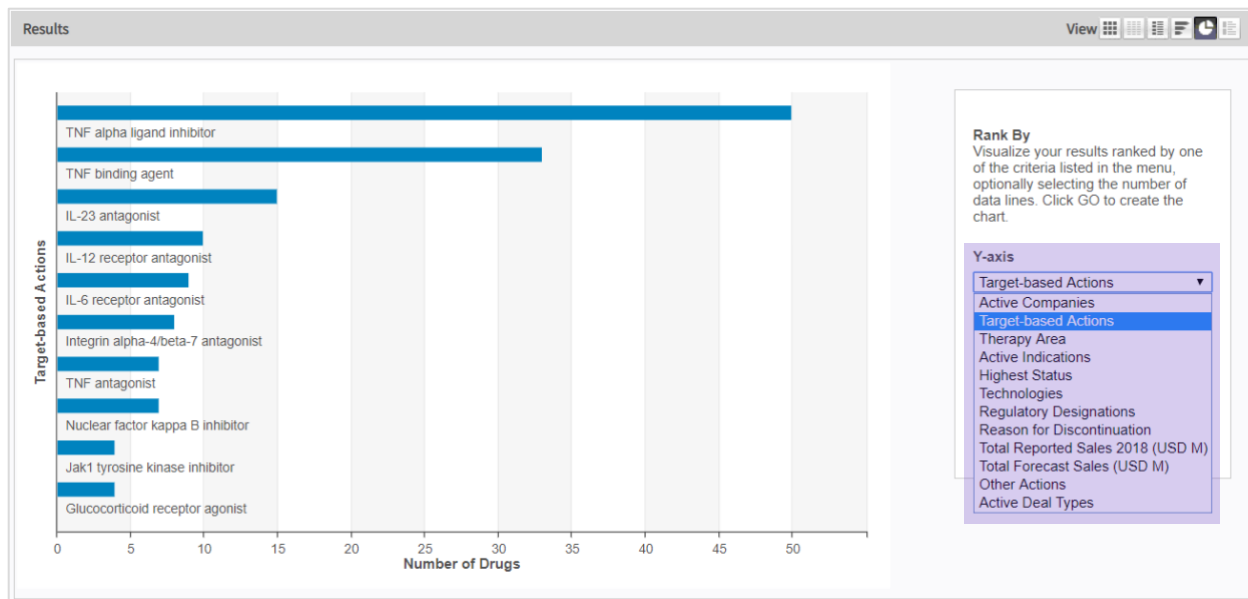

Drug Name	Active Companies	Active Indications	Target-based Actions	Highest Status	Technologies
ciclosporin (oral controlled release, Crohns disease), Sublimity Therapeutics	Sublimity Therapeutics Ltd	Crohns disease	Calcineurin inhibitor	Phase 1 Clinical	Biological therapeutic; Capsule formulation; Oral controlled release formulation; Oral formulation; Peptide

2. Options on the right let you select other categories you may wish to visualize.

### Example

The following chart displays the most important mechanisms of action associated to drugs developed for Crohn's disease.
