

Cortellis Competitive Intelligence

How do I find a drug?

Find a single, comprehensive, daily updated report on a specific drug or biologic created from hundreds of sources. Drug reports are your one stop shop on where a product has launched and where it's still in development, it's indications and targets, regulatory designations, milestones, sales and forecast data, a SWOT analysis and so much more.

1. Type any name for your product into the search bar and select either Index for a more targeted search or Full Text for a broader search result.
2. Ensure you have the Drug reports selected on the left and click the name of the product in the search result list

The screenshot shows the Cortellis search interface. At the top, there is a search bar with the text 'adalimumab' and buttons for 'Index' and 'Full Text'. Below the search bar, there are tabs for 'Advanced search' and 'Structure search'. The main content area displays '87 results found for index Search for the search term 'adalimumab''. On the left, there is a sidebar with 'Report Type' filters, including 'Broker Research (21962)', 'Clinical Trials (1131)', 'Companies (0)', 'Conferences (857)', 'Deals (74)', 'Disease Briefings (8)', and 'Drugs (87)'. The 'Drugs (87)' filter is selected. The search results table has columns: 'Drug Name', 'Other Drug Names', 'Originator Company', and 'Active Companies'. The first result is 'adalimumab' by Cambridge Antibody Technology Group plc. The second result is 'adalimumab follow-on biologic, AXXO' by AXXO Im und Export GmbH.
