

Setting up countries or regions in Cortellis

In Cortellis Regulatory Intelligence you can limit your results to your countries or regions of interest. This guide highlights how to set up the “My Regions” filter, as well as how to switch it on and off as needed when searching and browsing so you can focus on just the content important to you.

1. Once you have logged in, you can access **My Regions** via the **Settings** menu at the top of the screen. Simply hover over your name to begin.

2. Using the check boxes, select the **regions and countries** you want to include. Regions you do not subscribe to appear dimmed. Once finished click **Save**.

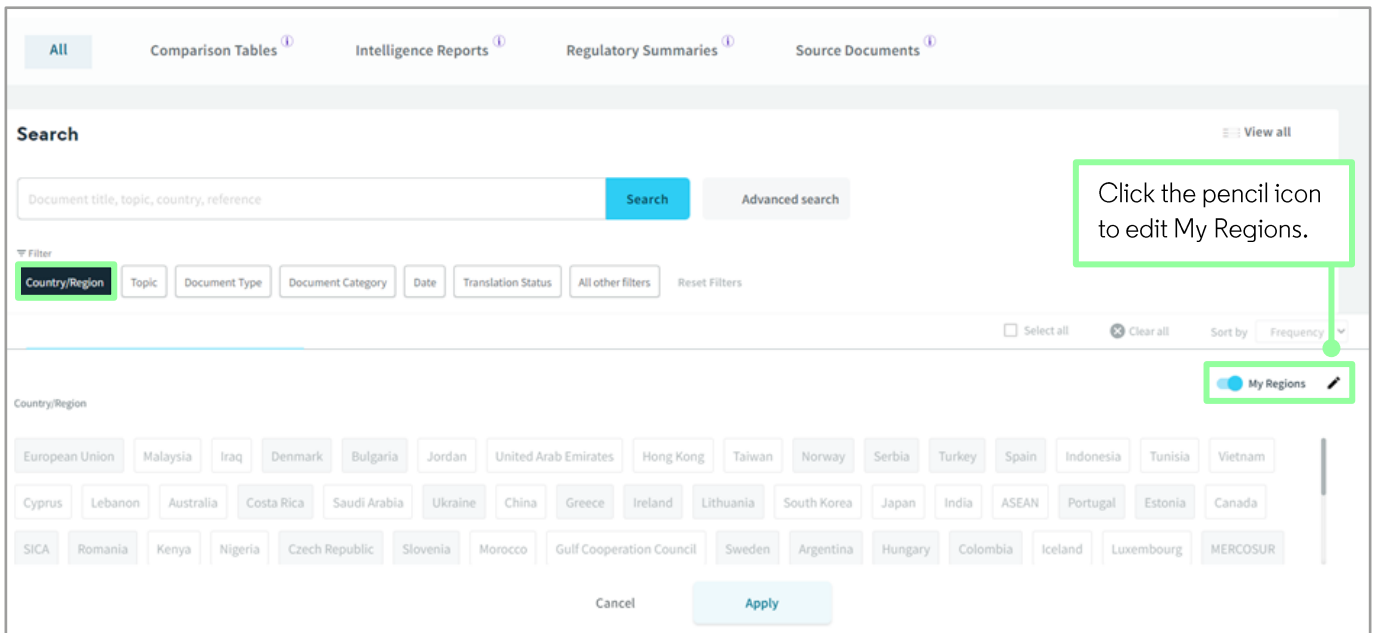

The screenshot shows the 'My Regions' configuration page. It has two tabs: 'Drugs and Biologics' (selected) and 'Medical Devices and IVDs'. Under 'Drugs and Biologics', the 'Asia Pacific' region is selected, and all its sub-regions (ASEAN, Australia, China, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, Philippines, Singapore, South Korea, Taiwan, Thailand, Vietnam) are checked. Other regions like North America, Europe, Latin America, and Middle East, Africa are dimmed. A 'Save' button is at the bottom right.

If you subscribe to both the **Drugs & Biologics** and the **Medical Devices and IVDs** modules, you will need to click on each tab to set your regions and countries for each module separately.

In this example, all of Asia Pacific has been selected for Drugs and Biologics and all of Latin America for Medical Devices and IVDs.

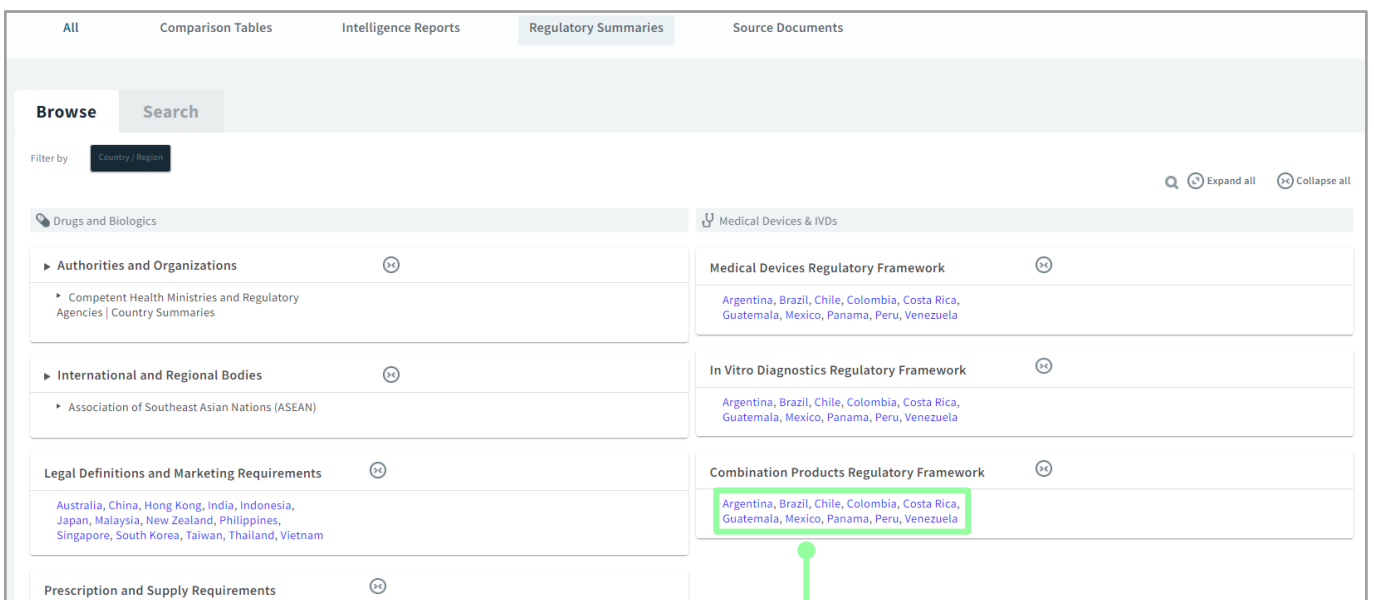

- To apply **My Regions** when searching or browsing, select the **Country/Region filter** and toggle **My Regions** to the on position, then click **Apply**.
