FDA Warning and Untitled Letter Analytics in Cortellis

Save time preparing for FDA inspections with analytics that make it easy to pinpoint Warning and Untitled Letters by inspector, citation, date, recipient, type location and more.

1. Access FDA Analytics at the bottom of the Regulatory Home Page and **select FDA warning and untitled letters.**

2. The Analytic opens in a new tab. The **Overview** section provides information about the analytic's scope, terminologies and rules.

3. Click the **heading of intere**st (e.g. Letters by year).

Click pies or bars in the charts to view corresponding citations & letters in Details section

Click buttons to change view by category

Select headings to open each report

Hide or reset filters

Dynamic filters allow you to pinpoint bulletins by date, Advisory Committee, and more

Details section breaks down the specifics of each bulletin that matches your filtering

Example: *FDA inspector Christopher M. Jenner is visiting your site. You need to find Warning and Untitled Letters he issued in the last 5 years and understand the issues he found so you can prepare.*

1. Select Inspectors

3. Select bar in table for corresponding inspector: Christopher M. Jenner

2. Limit issue Date filter to last 5 years

4. Click the three dots to display all table details or export data to Excel

5. Search the IDRAC numbers in Cortellis to find the letters.
