

Fingertip Restrictions

Quick Start Guide

June 2022

What is Fingertip Restrictions ?

Leverage the only data set that shows exactly who can access your therapies, and how, with granular data on payers, local markets, and specific indications.

- ✓ Understand the barriers to access for any drug and adjust your sales approach as needed at both national and local levels.
- ✓ Analyze indication specific data on utilization management practices of payers, particularly around specialty drugs, to optimize payer contracting, enhance physician engagement and more.
- ✓ Sort and filter by treatment area, product, location, insurance type and employer-Pharmacy benefit manager (PBM) affiliation.

Get started Using Fingertip Restrictions

The screenshot shows the Clarivate DRG website interface. At the top, there's a navigation bar with the Clarivate logo and 'DRG' text. Below the header, a welcome message reads 'Welcome [redacted] from Clarivate'. A note states: 'Hover over any link to learn more about each product platform. Green check marks indicate partial or full content is available to you as part of your current subscription.' A link 'Have a question? Please contact us' is highlighted with a blue box and a '2' in a blue circle. The main content area is divided into three columns: 'Understand the Market', 'Optimize Access', and 'Engage Customers'. In the 'Optimize Access' column, under 'US Formulary Data & Analytics', the 'Fingertip Restrictions' link is highlighted with a blue box and a '3' in a blue circle. Other links in this column include 'Account Management Dashboard', 'Fingertip Accounts', 'Fingertip Alerts', 'Fingertip Analytics', 'Fingertip Home Page (Legacy Platforms)', 'Fingertip Validation Tool', and 'Fingertip PolicyTrack'. The 'Engage Customers' column includes 'Sales Enablement' (Fingertip Publisher), 'Commercial Targeting' (Healthbase, Medtech Insights Platform, Field Force Navigator), and 'Digital/Multichannel Stakeholder Engagement' (Digital Insights Platform).

1. Go to: <https://authentication.decisionresourcesgroup.com/login>

2. Upon login screen, use your work e-mail address and password to login. If you experience any issue, please contact DRG.support@clarivate.com

3. Click on the “Fingertip Restrictions” link.

Building a Report – Selecting a Therapeutic Area

First select the therapeutic area you'd like to view.

Using this example on the right, TNF has been selected.

Click through each Criteria box (geography, plan types and drugs) to make your selections. Clicking the Criteria title will expand to display selection options. The “My Criteria” on the right-hand side will show you a timeline of where you are in the process.

Building a Report – Selecting Geography

Next, choose a specific geography which can be National, States, MSAs or Counties.

In this example, we have selected two states to aggregate together: California and Arizona.

First click “States” then select the states to analyze.

Set your geography here and feel free to change it here at anytime.

Building a Report – Choosing your brands

Next, choose the brands you'd like to view.

In this example, we have selected Enbrel, Remicade and Xeljanz.

You may select up to 11 brands to view at one time in the platform.

☒ Choose your drugs

☐ Select All

☐ Actemra

☐ Actemra SC

☐ Cimzia (Iyo)

☐ Cimzia (prefilled syringe)

☐ Cosentyx

☒ Enbrel

☐ Entyvio

☐ Humira

☐ Orencia ClickJect

☐ Orencia IV

☐ Orencia SC

☐ Otezla

☒ Remicade

☐ Simponi

☐ Stelara

☐ Taltz

☒ Xeljanz

☐ Xeljanz XR

Building a Report – Choosing Your Restrictions

Lastly, we will choose the Restrictions we would like to view. You will have the ability to select more granular restriction details by expanding the restrictions criteria. This will cascade with more granular restrictions details available for selection.

Once you've selected the restrictions you'd like to view, you click the green check box "View Results".

You will only be able to choose "View Results" once you've made all of your selections.

Building a Report – Reviewing the Restrictions Report

1. **Drug** – This view allows users to see a summarized view of how the restrictions are affecting each brand.
2. **Plan Type** – across the various plan types. Allows users to see how the brand is affected.
3. **Geography** – Allows users to see a heat map representing the number of lives by each restriction.
4. **Payer Details** – Allows users to see the underlying restrictions by Payer and brands, access to the Pharmacy and Medical documents and the ability to access the Prior Authorization form.
5. **Plan Details** – Allows the user to view coverage information based on the plans included in the report. The most granular of views.
6. **Save View** – Allows users to save a view to return at a later date.
7. **Edit Criteria** – Change your selections at any time utilizing the edit criteria button.

Building a Report – Reviewing the Restrictions Report

8. **Changing Drug View** – This view allows users to change the view of which drug is being viewed.
9. **Display by** – Changes the way the drugs are being displayed, by number of lives, percent of lives or percentage of plans.
10. **Coverage View** – Choose coverage view either Pharmacy, Medical or Both.
11. **Download Chart** – Allows users to download graphics into an image to use outside of the platform.
12. **Summary Table** – Provides a summary view of the Restrictions affecting each brand in your core criteria, by both Medical and Pharmacy coverage.
