

Setting up email notifications

Cortellis HTA Intelligence

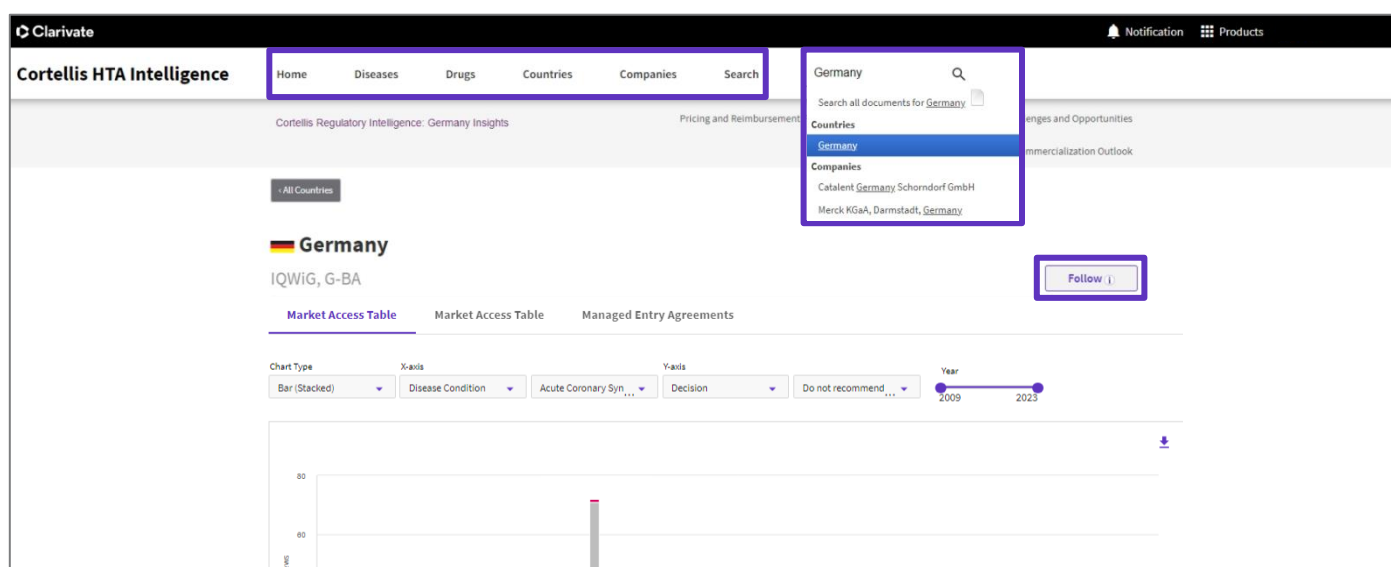

Set up notifications to ensure you do not miss any reviews from 21 markets and 5 Regulatory Authorities.

Email notifications arrive in two formats:

1. **Customized Daily Notifications** delivering new content on the drugs, disease conditions, countries, agencies and/or companies that you set up and are tailored to you and your needs.
2. **The Weekly Notifications Digest** including all reviews for agencies tracked by Cortellis HTA Intelligence
3. **The Weekly Notification** arrives automatically to all Cortellis HTA Intelligence users and includes a section with all the new content from your customized Daily Notifications for the week prior.

Example: How do I set up a Daily Notification to track new reviews from a Disease Condition, Drug, Country, Agency, or Company? For this example, let us track Germany.

1. **Navigate to the page for Germany.** You can click the Countries tab at the top and select Germany from the list or type “Germany” into the Quick Search bar
2. After the page loads, **select the Follow Germany button** in the upper right-hand corner
3. All your customized Daily Notifications arrive in **one daily email** from Cortellis HTA Intelligence

The **Notifications tab** at the top of the page allows you to instantly **link to lists of all new reviews added to Cortellis HTA Intelligence daily**.

Select **Preferences** to view your **customized Daily Notifications** and Your Notifications appears. You can also **add or remove terms from your list** of tracked terms.

The screenshot shows the 'Notification' tab selected at the top. Below it, the 'Preferences' tab is highlighted with a callout box. The 'Your Notifications' section is also shown, with callouts explaining the 'Selected Reviews' list and the 'Save Preferences' button.

Notification

Preferences

- 132 new reviews for AEMPS, AWMSG, CADTH, CONITEC, G-BA, HAS, ICER, NICE, SMC, TLV, and ZIN

The Weekly Notifications Digest includes all reviews for agencies that Context Matters tracks, with a separate section for reviews you've chosen to get daily Notifications for. Daily Notifications are composed of the reviews selected below, and include reviews published by agencies as well as reviews newly available in the Context Matters platform.

Selected Reviews

- alglucosidase alfa [Myozyme, Lumizyme]
- metformin [Fortamet, Glumetza, Riomet, Glucophage, Glucophage SR, Metformin, Metformin Extended-Release, Glucophage XR, Metformin Ranbaxy, Metformin XR, Diabex]
- ticagrelor [Brilinta, Brilique, Possia]

Remove terms by clicking the corresponding "x".

Use the box below to add terms to your alerts.

Start typing to enter the disease conditions, agencies, drugs, or companies for which you would like daily Notifications.
