

# Related content in Clinical Trials Sites

This guide will help you easily navigate from a list of clinical trial reports to their associated sites and vice versa.

The 'Related Content' button in Cortellis Clinical Trials Intelligence allows you to easily retrieve relevant sites where clinical trials with specific inclusion/exclusion criteria, endpoints or keywords are taking place. Similarly, you can search for potential sites according to their experience and location and then retrieve a list of their trials with only a couple of clicks.

**Example 1:** Find clinical trials sites in China with experience in breast cancer assessing disease progression and disease-free survival.

1. Go to **Clinical Trials** tab in Advanced Search.
2. Enter your strategy and click **'Search'**.

Drugs	Patents	Literature	Clinical Trials	Regulatory	Deals
<div> <div>Condition</div> <div>Breast tumor</div> <div>X</div> </div>
