

Customizations in Cortellis Clinical Trials Intelligence

This guide explains how to quick search clinical trials, apply hierarchical filters and customize the display according to your preferences.

Example: Find recent SKYSCRAPER clinical trials on non-small-cell lung cancer to identify phases and patient stratification.

1. Quick search SKYSCRAPER and click 'Index'. Names and codes entered in quick search will be highlighted in orange in the results table for convenience.

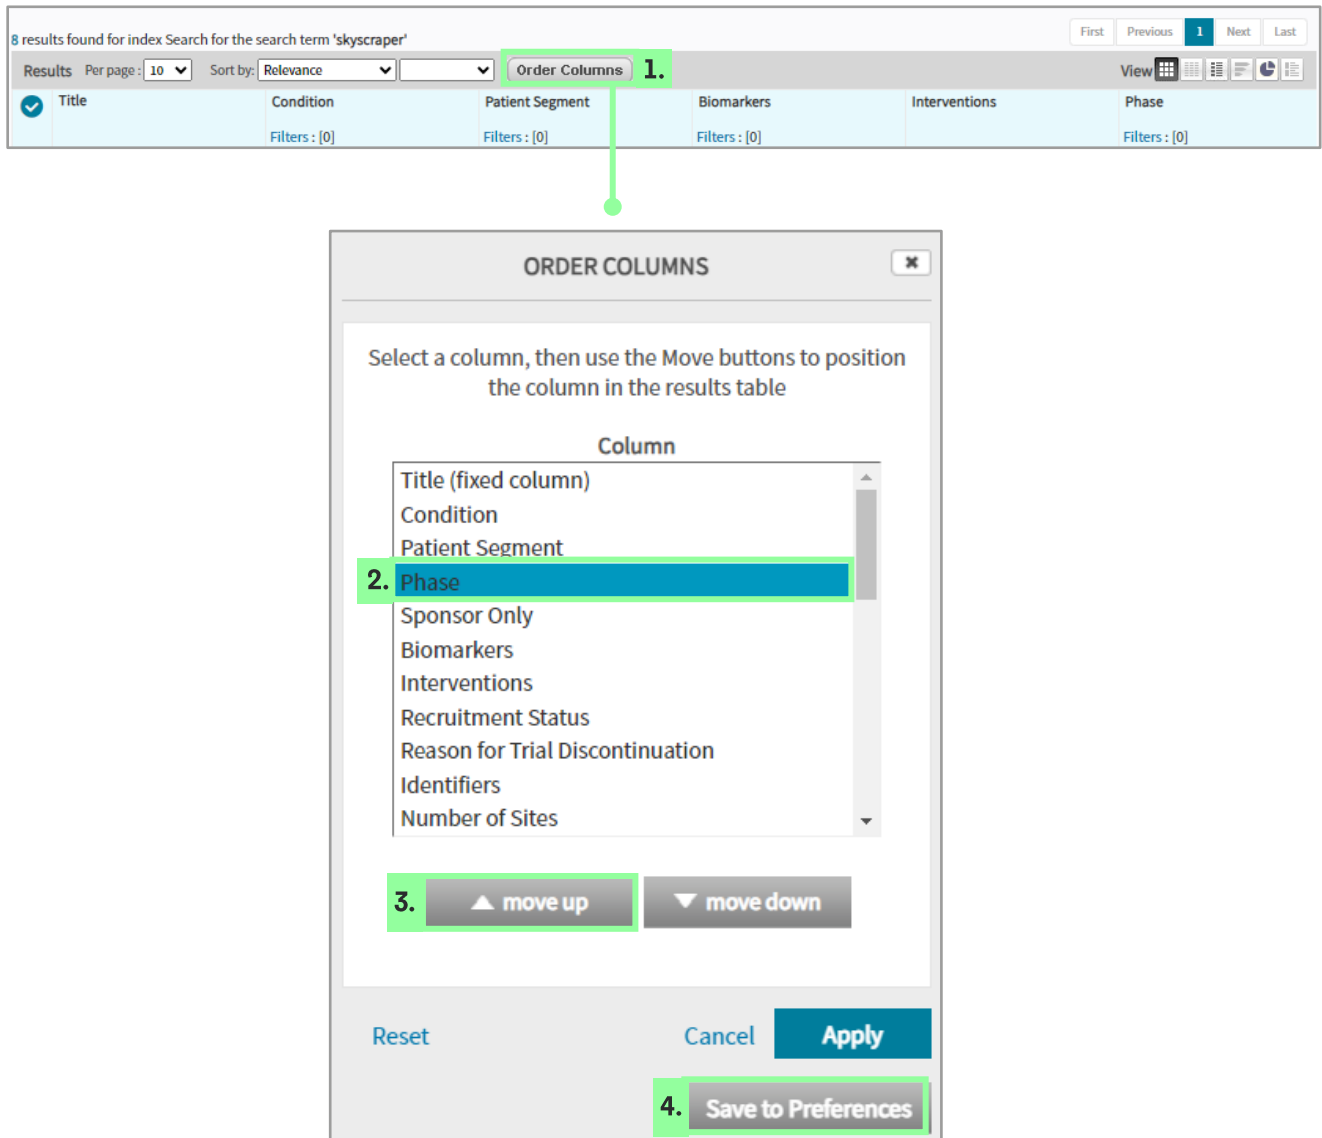

The screenshot shows the Cortellis Clinical Trials Intelligence interface. The search bar at the top contains 'skyscraper' and the 'Index' button is highlighted. The search results table displays 8 results for the search term 'skyscraper'. The table has columns for Report Type, Title, Condition, Patient Segment, Sponsor Only, Biomarkers, and Interventions. The 'Clinical Trials (8)' report type is selected. The first three results are highlighted with a green box at the bottom of the table.

Report Type	Title	Condition	Patient Segment	Sponsor Only	Biomarkers	Interventions
Broker Research (25)	SKYSCRAPER-05: A Study Evaluating the Safety and Efficacy of Neoadjuvant and Adjuvant Tiragolumab Plus Atezolizumab, With or Without Platinum-Based Chemotherapy, in Participants With Previously Untreated	Non-small-cell lung cancer	Lung tumor - Subjects with Advanced/Metastatic Cancer - Subjects with locally advanced/stage III lung cancer; Lung tumor - Subjects with Non Small Cell Lung Cancer (NSCLC) - Subjects with non-squamous cell lung	Roche Holding AG Sponsor Field of Activity: Biologics; Diagnostics & Testing; Medical Equipment & Technology; Pharmaceuticals		surgical resection alone; Variable regimens including atezolizumab , carboplatin , gemcitabine , paclitaxel , pemetrexed disodium , tiragolumab
Companies (0)	SKYSCRAPER-09: A Study of Atezolizumab Plus Tiragolumab and Atezolizumab Plus Placebo as First-Line Treatment in Participants With Recurrent/Metastatic PD-L1 Positive Squamous Cell	Larynx tumor; Metastasis; Metastatic head and neck cancer; Mouth tumor; Pharynx tumor; Squamous cell carcinoma	Head and neck tumor - Subjects with Advanced/Metastatic Cancer; Head and neck tumor - Subjects with Laryngeal Cancer; Head and neck tumor - Subjects with Oral Cancer; Head and neck tumor -	Roche Holding AG Sponsor Field of Activity: Biologics; Diagnostics & Testing; Medical Equipment & Technology; Pharmaceuticals	Programmed cell death 1 ligand 1	atezolizumab plus tiragolumab
Deals (0)	SKYSCRAPER-01: A Study of Tiragolumab in Combination	Metastatic non small cell lung cancer	Lung tumor - Subjects with Advanced/Metastatic Cancer -	Chugai Pharmaceutical Co Ltd Sponsor Field of Activity:	Programmed cell death 1 ligand 1	atezolizumab plus tiragolumab

Additional information is available to the right. Use **Scroll** at the bottom to check additional columns.

Note: Clinical trials are indexed by condition, mechanism of action, intervention, identifiers and many other fields. Any of these can be entered in quick search.

2. **'Order columns'** button allows you to customize your view by selecting the column name and moving them up or down (to the front or the end of the table). This will help you prioritize the information most relevant to you by displaying it in the first page. For example, select and move **'Phase'** to the top of the list to have it displayed in the front page.

The screenshot shows the Cortellis Clinical Trials Intelligence interface. At the top, a search bar indicates "8 results found for index Search for the search term 'skyscraper'". Below the search bar, there are navigation buttons: "First", "Previous", "1", "Next", and "Last". The main table has columns: "Title", "Condition", "Patient Segment", "Biomarkers", "Interventions", and "Phase". Each column has a "Filters : [0]" link below it. A green box labeled "1." highlights the "Order Columns" button in the top right corner of the table.

The "ORDER COLUMNS" dialog box is open, showing a list of columns to be ordered. The columns are: "Title (fixed column)", "Condition", "Patient Segment", "2. Phase", "Sponsor Only", "Biomarkers", "Interventions", "Recruitment Status", "Reason for Trial Discontinuation", "Identifiers", and "Number of Sites". A green box labeled "2." highlights the "Phase" column in the list. Below the list, there are two buttons: "3. ▲ move up" and "▼ move down". At the bottom of the dialog, there are three buttons: "Reset", "Cancel", and "Apply". A green box labeled "4." highlights the "Save to Preferences" button at the bottom right of the dialog.

3. Results table can be sorted using different types of criteria at the top. Sort by **'Start date'**.
