

# Understand and monitor your space of interest

## Cortellis Drug Discovery Intelligence

See how to explore research and development activity in your area and stay up to date with the latest developments using alerts.

**Scenario:** you would like to find drug development programs for drugs in preclinical development for asthma, understand which organizations are involved, and keep an eye on further development activity in that area.

1. Use **Advanced Search** to define your space. In the example below, we are looking for **Drugs & Biologics** in **Preclinical** development for **Asthma**.

Quick Search **Advanced Search**

Drugs & Biologics

Drugs & Biologics

Development Status

Phase: Preclinical X

Under Active Development:  Yes  No

Condition: Asthma X

Use the **index buttons** when available to find your terms of interest within our ontologies

Search for your term using the text box. Select it from the list and click **Apply** to populate the field.

Select Condition

asthma x Q AZ

Selection: Asthma X

Respiratory Disorders

Respiratory hypersensitivity

Asthma

Cancel Apply

- In the resulting page, click on **Apply Filters** to see **trends** among the filter categories. For example, under **Organizations** you'll see the main players in your area and the number of drugs they are involved with. You can refine your results further by applying filters.

The screenshot shows the 'Product List' interface. A purple box highlights the 'Apply Filters' button. A dialog box titled 'Apply Filters' is open, showing a search bar and a list of filter categories with checkboxes. The categories include Highest Phase, Development Status, Milestones, Product Category, Drug Type, Lead Compound, Mechanism of Action, Therapeutic Group, Condition, and Organization. The background table displays drug records with columns for Entry Number, Highest Phase, Code Name, Generic Name, Brand Name, Product Category, Therapeutic Group, Mechanism of Action, and Organization.

- Under the **Options (...)** menu on the top right of the page you can **Save and Alert** this query to be notified when new drugs reach preclinical stages for asthma.

The screenshot shows the 'Save & Alert' dialog box. The dialog has a 'Query Name' field with the value 'Development Status Phase: Preclinical AND Devel.' and an 'Add description' link. Below this is a 'Details' section with 'Query' (Development Status Phase: [Preclinical] AND Development Status Under Active Development: Yes AND Development Status Condition: [Asthma]), 'Knowledge Area' (Drugs & Biologics (25 Results)), and 'Filters'. The 'Set up an Alert' section is checked, with 'Frequency' set to 'Weekly' and an email address 'nuria.forns@clarivate.c...'. There are 'Cancel' and 'Save' buttons at the bottom. A callout box points to the 'Save & Alert' button in the top right corner of the main interface. A purple callout box points to the 'Frequency' dropdown in the 'Set up an Alert' section, with the text 'Select the Frequency of your alert and share it with your colleagues'.
