

Find patents for your area of interest

Cortellis

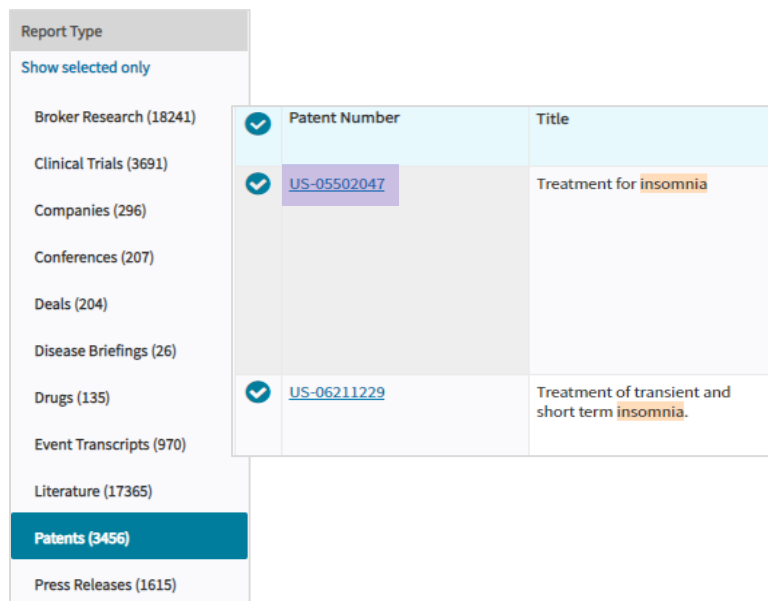

Quickly find patent information around indications, drugs, target, companies and more.

1. Enter a keyword of interest (i.e. a drug, indication or target name) in the Quick Search box and click the **Index** search button.

The search interface shows a dropdown menu set to 'All' and the search term 'insomnia' entered in the search box. To the right of the search box are two buttons: 'Index' and 'Full Text', both with magnifying glass icons.

2. Switch to **Patents** and click the **Patent Number** to open the patent report. Patents in Cortellis are organized by patent family.

The screenshot shows a 'Report Type' sidebar on the left with 'Patents (3456)' selected. The main area displays a table of search results:

Patent Number	Title
<input checked="" type="checkbox"/> US-05502047	Treatment for insomnia
<input checked="" type="checkbox"/> US-06211229	Treatment of transient and short term insomnia .

3. You can also enter a patent number (with or without hyphen) in Quick Search to find a specific patent report directly:

The search interface shows the dropdown menu set to 'All' and the search term 'US-05502047' entered in the search box. To the right of the search box are two buttons: 'Index' and 'Full Text', both with magnifying glass icons.
