

Cortellis Clinical Trials Intelligence-Site Selection Module

Gain confidence in your **clinical development and operations** decisions by selecting sites based on their **clinical experience** with your trials of interest, including specific patient segments, biomarkers, endpoints, and more.

The Site Selection module allows you to view the **geographic distribution** of those sites as well as filter and rank them based on country/location, trial attributes and other key site characteristics.

Searching

On the Cortellis home page, expand the Clinical Trials Intelligence area, click on **Clinical Trial Sites** and search for your condition of interest.
