

How do I apply filters to refine my search?

Cortellis Clinical Trials Intelligence

Some searches can yield thousands of results. Filters remove reports that are not of interest to you, so you can focus on what is relevant. Some filter options appear across all report types and some are unique.

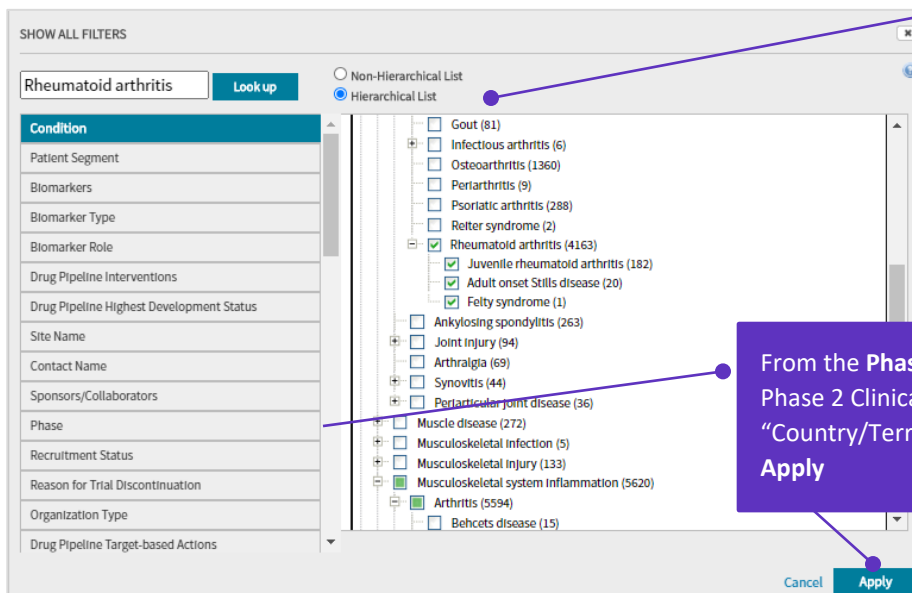

Example: Find all rheumatoid arthritis trials in phase 1, 2 and 3 in the US.

1. Enter your indication of interest in the Quick Search box and click the **Full Text** search button.
*Examines the words in every stored document in Cortellis to match your search criteria.
2. Click any of the **Filters** link to open the filters. Or, scroll down the page and click **Show all filters** on the left-hand side of the page.
