

# Searching for Guidelines in Cortellis

Guidelines are critical documents that need to be monitored regularly. With Cortellis, you can find and monitor guidelines on over 80 countries and regions for Drugs and Biologics, and over 70 countries and regions for Medical Devices and IVDs, all from one source.

*Example: Find Chinese guidelines on Clinical Research that mention informed consent*

1. Using Regulatory Home Page Search, select the Country/Region filter and click 'China'. Pictured below.
2. Open the Topic filter and select 'Clinical Research'. All documents found will have a focus for the Topic filter selected.
3. Open the Document Type filter and select 'Guideline'.
4. You may add a keyword or phrase in the Search bar for more targeted results, for example, "informed consent". Keywords or phrases are not necessary to run the search. Put phrases in quotes to search as a phrase.
5. Click 'Search'

The screenshot shows the Cortellis Regulatory search interface. The search bar contains the text "informed consent". The filters section includes Country/Region, Topic, Document Type, Document Category, Date Filter, Last Updated, and All other filters. The Country/Region filter is expanded, showing a list of countries and regions with their respective document counts. The 'China (31)' option is highlighted with a red box. The 'Apply' button is also highlighted with a red box. A callout box points to the 'Drugs & Biologics' and 'Medical Devices & IVDs' checkboxes, with the text "Select desired content\*".

Country/Region	Count
USA	391
