

Cortellis Generics Intelligence

Identify Finished Dose companies with Company Selector Tool

Discover how to use the Company Selector Tool: a flexible way to find Finished Dose Manufacturers by capabilities, location and more.

Example: Identify Finished Dose manufacturers with Head Quarters based in the US with the capability to produce injections.

1. Once you log into Cortellis Generics Intelligence, go to **Company Selector Tool** by clicking the 'Company Selector' icon.
2. Ensure 'Finished Dose Manufacturer' is selected from **Company type**.

The screenshot shows the 'Company Type' section of the tool. It features a header with a globe icon and the text 'Find and connect with partners using Cortellis Supply Chain Network'. Below this, there are three radio button options: 'API Manufacturer', 'Finished Dose Manufacturer' (which is selected), and 'Marketer'.

3. Open the **Capabilities** menu, begin typing in your term (injection) and choose it from the list.

The screenshot shows the 'Capabilities' search interface. A search box contains the text 'injec'. Below the search box, a list of suggestions is shown, with 'Injection' highlighted. To the right of the search box, there is a 'Selection' area with a '+ Injection' button.

4. Click 'Apply'.
5. Open **Corporate Group Location** menu and select 'US', a green check mark will appear next to it.
6. To exclude Big pharma or other type of companies from your results, open **Group type** and click 'Big Pharma' twice, a red X will appear next to it.

The screenshot shows the 'Corporate Group Location' selection interface. It features a list of countries with checkboxes: 'United Arab Emirates', 'United Kingdom', 'Uruguay', and 'USA'. The 'USA' option is selected, indicated by a green checkmark.

The screenshot shows the 'Group type' selection interface. It features a search box with the text 'Search...'. Below the search box, there are two options: 'API' and 'Big Pharma'. The 'Big Pharma' option is selected, indicated by a red X.

7. Click 'Search'.

- The results table displays Finished Dose companies with Head Quarters based in the US (Column 4). Subsidiaries data presented includes location, capabilities, and other details.
- If you wish to limit your results to Finished Dose subsidiaries based in the US, click **Modify Criteria** and select 'US' from **Subsidiary Location**, as shown next.

- Like other tables in Cortellis Generics Intelligence, you can personalize your results by hiding or showing columns using 'Customize column' button.

You can also download these results to MS Excel with just one click in 'Export' button.
