

# Constraint Date Forecast (When are generics expected)

## Cortellis Generics Intelligence

The **Constraint Date Forecast (formerly the Newport Constraint Date)** predicts when a product is expected to lose exclusivity in over 35 global markets. This date considers patents, market exclusivities and data exclusivities for a specific product in a specific country. **Please note** that the CDF should be used as a guideline and not be taken as a definitive date.

### Example

Find the Constraint Date Forecast (CDF) for a specific product and understand when that product will “go generic” in over 35 global markets.

1. Type the name of the product in the **Quick Search bar** and select from the list.

2. In the **Unexpired Constraint Date Forecast and Exclusivities** table on the **Product Key Insights** page you will find Constraint Dates Forecast and rationale behind them.
