Cortellis Generics Intelligence

The Global Litigation tab in Cortellis Generics Intelligence provides a holistic view of patent litigation worldwide. It offers deeper and more comprehensive insights into the generics landscape to help users optimize their patent strategy.

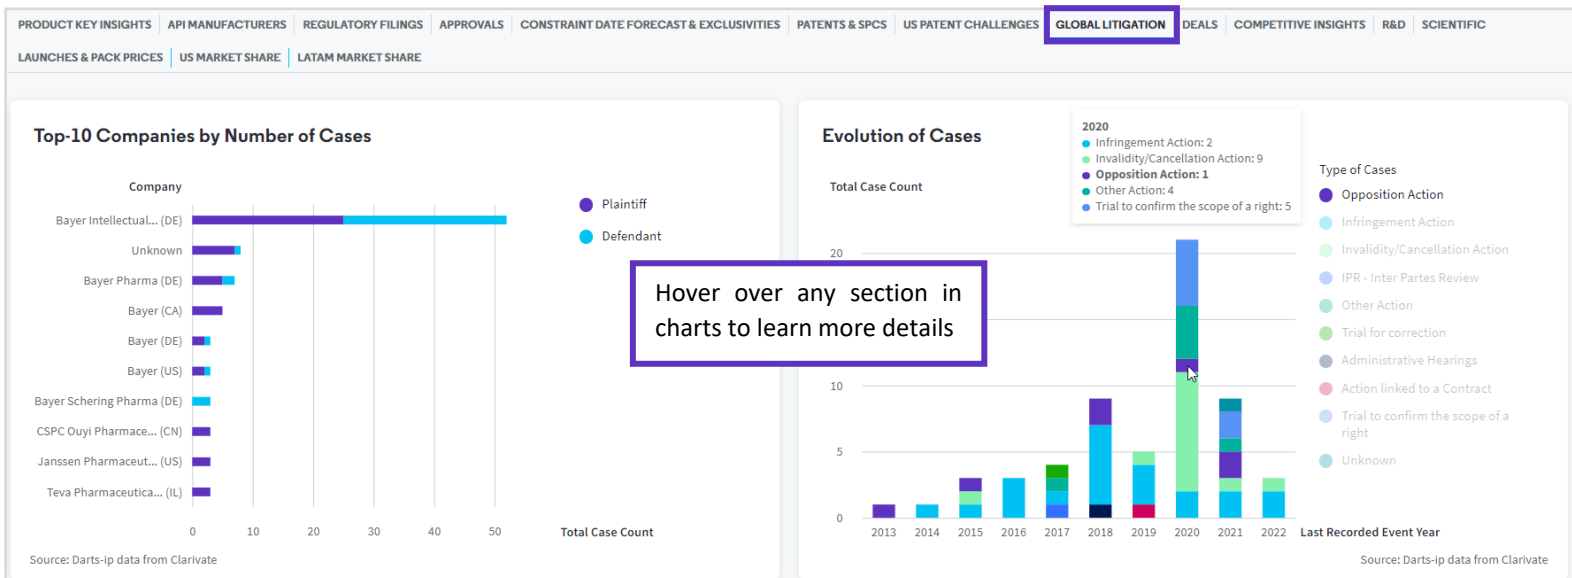

The data is sourced from Darts-ip - a Clarivate solution – providing global coverage of over 8.5 million cases from 3,800+ courts across 141 countries worldwide. This new content will help life science professionals explore patent litigations worldwide, identify prior art and uncover new ways to grow product pipeline.

Example: Identify recent litigation activities in Brazil and India on Rivaroxaban.

1. Type the name of the product in the Quick Search bar and select from the list.

2. Navigate to Global Litigation tab to find 2 charts. One to help you identify companies with the highest number of cases related to the product and one showing progress of cases worldwide in a timeline.

3. Scroll down to find a summary table displaying details of each case including the court's name, country, plaintiff, defendant, last recorded event and more.
4. Use filters at the top to narrow down results to countries of interest. Other filters are also available.
