

Clarivate EBook Central App: MacOS Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5)

Name of Product/Version:

EBook Central App [MacOS] June 2025

Report Date:

June 16, 2025

Product Description:

End-to-end Ebook experience that offers a modern, user-centered design and spans the breadth of patrons' research needs, from discovery to retrieval and sharing.

Notes:

The EBook Central Application is a native MacOS Application built using the Flutter UI Framework. The default ePub reader has a known issue due to integration with Flutter that is outside of our control and significantly impacts the accessibility of the reading experience. As a result, content in the default ePub reader view is not

programmatically accessible or navigable. A text-only mode is available and must be manually enabled through a user’s profile settings. The ePub-viewer integration issue occurs on Windows and MacOS, so users are encouraged to use Android, iOS, and the web experience as a workaround. The integration issue with Flutter is being worked on.

The native application is designed to respect and respond to user customizations and operating system-level accessibility settings. This includes support for high contrast themes, increased text size, magnification, language, and other features when configured through the device or operating system settings.

A known issue exists throughout the application when a user presses Tab while VoiceOver is running moves keyboard focus, but VoiceOver does not announce the newly focused element. Only items that receive direct screen-reader focus are spoken. Work-around: Use Object Navigation mode (VO + Arrow keys) as your main way to interact with the macOS app when VoiceOver is active, especially for focusable controls such as buttons, text fields, menu items, and list items.

Evaluation Methods Used:

- Accessibility Insights for Windows
- NVDA (NonVisual Desktop Access) screen-reader
- Keyboard checks, observation, product use
- Applicable Standards/Guidelines

Scope of Evaluation:

The pages in the following table are included in the scope of this report.

Page Title
Device Registration
Error Screen
Bookshelf
EPub Reader Experience

PDF Reader Experience
Login Screen

This report covers the degree of conformance for the following accessibility standard/guidelines:

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.

- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation.
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).
