

ESPICOM Pharmaceutical & Medical News

Date revised: 1 January 2021

ESPICOM Pharmaceutical & Medical Device News provides current news and developments on companies and markets in the pharmaceutical and medical device industries worldwide. It covers emerging and novel companies, strategic alliances within the industry and the latest market trends. Company financial results, R&D funding and product developments are all included. Information for the newsletters is gathered directly from companies and governments by the information providers' editorial staff; the text is provided in full with images where available and indexing of subjects, companies and geographic locations.

The following subjects are included:

- Medical imaging news
- Orthopedics news
- Drug delivery news
- Cardiovascular device news
- Diagnostics news
- Wound care news
- Pharmaceutical news
- Biosimilars
- Cancer drug news
- CNS drug news
- Anti-infective drug news
- Neuro drug news
- Pharmaceutical agreement news
- Cardiovascular drug news
- Auto-immune drug news
- Diabetes

Use Espicom to answer such questions as:

- What are the results of Supernus' Phase III ADHD trial?
- How are the global supply chain disruptions affecting China's medical device exports?
- Which companies are working on treatments for multi-drug resistant bacterial lung infections?
- When did the FDA grant clearance to Medtronic's' Midas Rex high speed drills?

First Approval For Lupus Drug Paves Way For New Treatments

Business Monitor Online (Dec 23, 2020)

Highlighting: [Off](#) | [Single](#) | [Multi](#)

AB

Abstract (summary) [Translate](#)

GSK has received an approval for Benlysta (belimumab) for the treatment of Lupus nephritis, the first drug to be approved for this. An important step in bringing drugs to the unmet clinical needs of lupus sufferers an important autoimmune market that is set to grow over coming years.

TX

Full text [Translate](#)

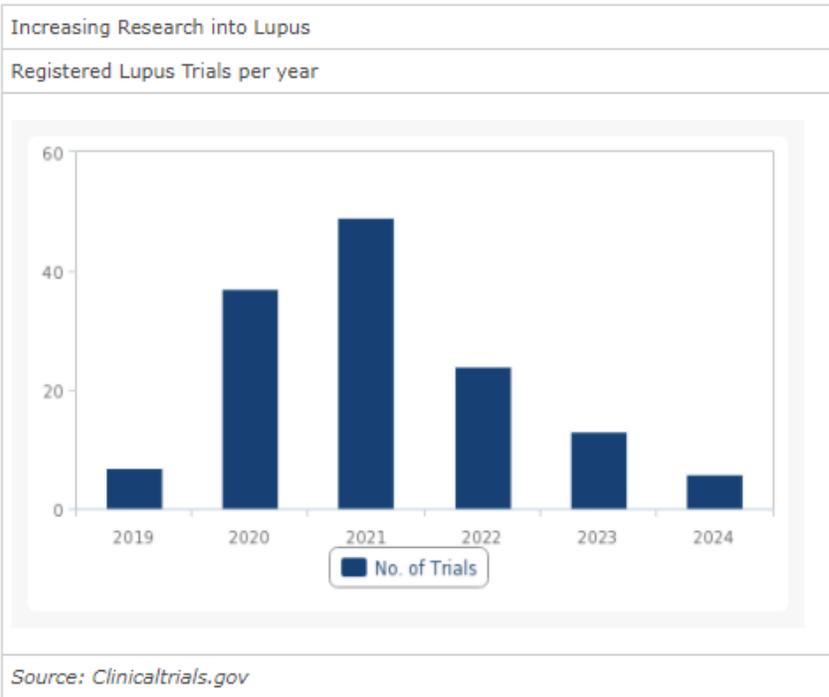

Key View:

The approval of *Benlysta* (belimumab) for the treatment of Lupus, and prevention of longer term kidney damage is the first approval of a specific drug to target lupus related complications.

Lupus currently affects around five million people globally and has historically been difficult to diagnose which could mean, as understanding increases, more cases are identified.

Lupus will be a growth market as new drugs come online which can improve quality of life for patients and reduce lupus associated mortality. Lupus is subject to intense research and we expect more approvals to be forthcoming over the next three years as trials reach their completion dates.

Lupus nephritis (LN) is a serious inflammation of the kidneys which affects almost 40% of patients with systemic

Search fields

Field Name	Field Code	Example	Description and Notes
Abstract	AB	ab(belumumab and lupus)	Use adjacency and/or Boolean operators to narrow or broaden your search and double quotes to search for a precise phrase.
Abstract present	ABANY	"lupus nephritis" and abany(yes)	Add AND ABANY(YES) to a query to limit retrieval to records with abstracts. Use double quotes to search for a precise phrase.
Accession number	AN	an(1607288)	A unique document identification number assigned by the information provider.
All fields (no full text)	ALL	all(lupus n/5 mortality)	Searches all fields except the Text (TX). Use proximity and/or Boolean operators to narrow search results and double quotes for a precise phrase
All fields (plus full text)	--	lupus n/5 mortality	Searches all fields including the Text (TX).
Company ¹	ORG, CO	org(teva)	
Document text			See Text
Document title			See Title
Document type	DTYPE	dtype(industry trend analysis)	There are three document types in Espicom: article, industry trend analysis and industry brief.
First available	FAV	fav(20201223)	Indicates the first time a document was loaded on Dialog. It will not change if the record is subsequently reloaded as long as the accession number remains the same.
From database ²	FDB	"respiratory assist*" AND (device or system) AND fdb(espicomnews) "respiratory assist*" AND (device or system) AND fdb(1008270)	Useful in multifile searches to isolate records from a single file. FDB cannot be searched on its own; specify at least one search term then AND it with FDB.
Full text			See Text
Language	LA	la(english)	All items in Espicom are in English
Location	LOC	loc(north america)	This is the location of the subject matter of the article
Publication date	PD	pd(20201223)	The date on which the article was published

¹ A Lookup/Browse feature is available for this field in the Advanced Search dropdown.

² Click the "Field codes" hyperlink at the top right of the Advanced Search page. Click "Search syntax and field codes", then click on "FDB command" to get a list of database names and codes that can be searched with FDB.

Publication title	PUB	pub.exact(business monitor online)	All items in Espicom published since 2018 show the publication title 'Business Monitor Online'. Items published before 2019 show other newsletter titles such as 'Drug Delivery Insight', 'CNS Drug News', 'Diagnostics Force'.
Publication type	PSTYPE	pstype(newsletter)	Same for all documents
Publication year	YR	yr(2021) yr(2018-2021)	Date range searching is supported.
Subject	SU	su(pharmaceuticals and autoimmune)	SU searches Subject and Company
Text	TX	tx(inflammation n/5 kidneys) tx("lupus nephritis")	Use adjacency and/or Boolean operators to narrow or broaden your search and double quotes to search for a precise phrase.
Title	TI	ti(regulation AND "pay-for-delay")	Includes the Title, Foreign Language Title, Alternate Title and Subtitle, when available.
Updated	UD	ud(20201223)	The date(s) the record was loaded as a result of an update provided by the supplier.

Limit options

Limit options are quick and easy ways of searching certain common concepts. Check boxes are available for:

Pharmaceuticals, Medical devices

Date limiters are available in which you can select single dates or date ranges for the date of **publication** and **updated**.

Browse fields

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are available in the fields drop-down for:

Company

"Narrow Results By" limiters

When results of a search are presented, the results display is accompanied by a list of "Narrow results by" options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to ("narrow") your search results. "Narrow results by" limiters in ESPICOM Pharmaceutical & Medical Device News include:

Company, Publication date

Document formats

Document Format	Fields	Online	Export / Download
Brief view	Title and Publication date	✓	
Detailed view	Same as Brief view plus a 3-line KWIC window	✓	
KWIC (Keyword in Context)	Detailed view plus all occurrences of your search terms, highlighted within the fields where the terms occur	✓	✓
Preview (subscribers only)	Title, Publication title, Publication date, Abstract, Subject	✓	
Preview (transactional)	Title, Publication date, abbreviated Abstract	✓	
Brief citation	Complete record minus Abstract and Indexing	✓	✓
Citation / Abstract	Complete record	✓ ¹	✓
Custom	Choose the fields you want		✓ ²

¹ In Online-view mode, Dialog gives access to two document formats only: brief citation, and the 'most complete' format available. Depending on the database, or the amount of data available for a record, the most complete format may be any one of Citation, Citation/Abstract, Full text, or Full text + graphics (depending on availability of full text).

² Custom export/download format is available in the following mediums only: HTML, PDF, RefWorks, RTF, Text only, XLS.
