

PRODUCT / SERVICE TERMS

These Product/Service Terms apply to certain products that you access through our platform(s), website(s) or are otherwise identified in your order form, statement of work or other ordering document (collectively “**order form**”) and supplement the Clarivate Terms which apply to all of our products. If you have ordered or are accessing a product that is not listed below, then these Product/Service Terms not apply to your order. “**We**”, “**our**” and “**Clarivate**” means the Clarivate entity identified in the order form; “**you**” and “**your**” means the Client entity identified in the order form. Any other terms not defined in these Product/Service terms have the meaning given to them in the Clarivate Terms.

IncoPat-Professional Version (incoPat-Pro)

1. License.

(a) Subject to the license level of your subscription, if you are an attorney or law firm, internal business purposes includes your use of the incoPat products for the benefit of your clients.

(b) The limited license granted to you will last until the end of the Term set forth on your order form. After the Term expires, the account information and data stored on the server will be retained for two years. If you renew your order form within the forementioned period, you will be continuously granted with access to your original account.

2. Data Volume.

(a) Unless otherwise set forth on your order form, the functionalities and export limits applicable to incoPat-Professional Version (incoPat-Pro) are set out in the Functionality and Usage Rights table below, which may be updated from time to time, with appropriate notice to you through the incoPat product platforms.

(b) For any of your unauthorized circumvention of the relevant limits or excessive downloading, Clarivate will request you to stop such unauthorized use or suspend your license and request you to provide Clarivate with a written commitment of no further breach (by fax and/or e-mail) within 24 hours. If you fail to do so, Clarivate reserves the right to charge you additional fees for your excess use or terminate your order immediately without refunding the corresponding fees.

IncoPat-Professional Version (incoPat-Pro)

Functionality and Usage Rights

Functionality		Description	Usage Rights
Search and Analysis	Batch Search	Supports uploading a batch of application numbers, publication numbers and priority numbers; support mixed searching with different types of numbers.	Search results will be capped at: Exact match 5,000 patents/search; Fuzzy match 2,000 patents/search
	Semantic Search	Input a passage of technology description and get the most similar target patents/technologies; extract topic words from search results for users to optimize search strategies.	Search results will be capped at: 2,000 patents/search

	AI Search	AI Search uses the technology of Patent DNA Map Matching, Natural Language Processing and identifying the core components and the relations of inventions with means of Artificial Intelligence to do large-scale accurate calculation to support novelty search, invalidation search and clearance search.	Search results will be capped at: 2,000 patents/search
	Patent Family Merger	Support to merger the patents by simple families, extended families and inpadoc families.	Search results will be capped at: 1,000,000 patents/search
	Application Number Merger	Support to merger patents by the same application number and chose to save filling or grant document.	Search results will be capped at: 1,000,000 patent/search
	Statistical Analysis	Support customized two-dimensional statistical analysis	Search results will be capped at: 5,000,000 patents/search
	Cluster Analysis	Support clustering analysis from the semantic level, and generating patent map, molecular map, matrix map and pie chart; And support customized cluster analysis. The patent map supports local statistics of data and display of data points.	Search results will be capped at: 10,000 patents/search
	3D Patent Sand Table	3D patent sand table is an advanced tool for patent strategy analysis.	Search results will be capped at: 10,000 patents/search
Saving and downloading	Bibliographic data download	Supporting download bibliographic data in format of EXCEL, WORD, PDF	Download will be capped at: 10,000 patents/download; and 100,000 patents/day
	PDF Download	Download patents PDF in batches	Download will be capped at: 1,000 patents/download; 3,000 patents/day
	incoFolder	Users could save patents to private folders for patents checking, analyzing, making comments and index; incoFolder support users saving patents as multilevel tree structures. Users could click the knots of the tree structure to check the updated patents condition.	Download will be capped at: 50 Folders with no more than 300,000 patents
	incoNavigation	Administrators and authorized users could create databases online saving patent search queries with multilevel tree structures.	Download will be capped at: 10 Databases
	Monitor	To monitor the least hit of specified search strategy or the status updates (legal status, family patents, citation and patentee) of patents from folder; send emails according to the fields, formats, monitor cycles selected by users.	Download will be capped at: No more than 100 monitor strategies and 500 patents per download
