

# Derwent Patent Monitor

## AI-powered patent monitoring

Patent review is becoming more complex, more collaborative and more essential to strategic business decisions. As patent laws evolve and innovation accelerates, organizations face mounting pressure to make fast, defensible decisions across IP, R&D and Legal. But most teams are still working in silos, relying on manual processes, disconnected tools, and fragmented communication.

**The challenge? Missed risks, delayed decisions, and costly litigation.**

- ~\$4.2Bn in infringement damages in 2024<sup>1</sup>
- **Siloed working!** Critical IP-related issues fall through the cracks
- \$1.2Bn wasted on patent applications that are never granted<sup>2</sup>

**Why now?**

- **Cross-functional collaboration is no longer optional.** Patent decisions now require input from IP, R&D and Legal - often across geographies and time zones.
- **AI is transforming review workflows.** Teams need tools that help them prioritize threats rather than just search for them.
- **Review velocity is a competitive advantage.** The faster you can assess risk, the faster you can innovate, file, or pivot.

**Derwent Patent Monitor is a dedicated collaborative review and decision-making platform designed for IP professionals, R&D teams & attorneys.**

**Patent decisions faster,  
easier and more defensible.**

## Introducing Derwent Patent Monitor

### FTO decisions

Identify any potential patent barriers or infringements early, solicit expert opinions and receive feedback.

### Opposition monitoring

Monitor new competitor filings and decide whether to file an opposition on their patent before it is granted.

### Technology monitoring

Route patents from competitors or specific technology domains, share with stakeholders and capture feedback.

# Key benefits

## 01. Accelerated review cycles

AI-powered Threat Analysis helps teams focus on what matters - reducing time spent on irrelevant documents and surfacing high-risk patents first.

---

## 02. Seamless collaboration

A shared workspace with role-based feeds, annotations, and document history ensures every stakeholder is aligned and informed.

---

## 03. Enterprise-wide access

One license, unlimited users. No seat-based restrictions - just open, scalable collaboration across your organization.

---

## 04. Integrated ecosystem

Native connection to the Derwent product suite ensures alerts, data and decisions flow without friction.

---

## 05. Defensible decisions

Built on DWPI-the gold standard in patent data-and developed with input from patent professionals, Derwent Patent Monitor supports high-integrity review processes, with speed and confidence.

# What makes Derwent Patent Monitor unique?

## **Purpose built for review teams**

Flexible in supporting multi-stage FTO and ongoing monitoring workflows to enable organizations to define the review models that work best. Optimal results are applied consistently for higher quality and uniformity across jurisdictions.

## **Gold-standard data from DWPI**

With data from Derwent World Patents Index, you get accurate, trustworthy results. DWPI is the world's most comprehensive database of enhanced patent documents that includes descriptive titles and abstracts for 70M+ inventions written by 900+ subject matter experts.

## **Expert-tuned AI Threat Analysis**

Our reliable AI is robust, transparent and explainable. The only patent review that can offer AI-powered Threat Analysis, substantially reducing the time spent reviewing stacks of documents and confidently discard non-relevant ones.

## **Connected Derwent ecosystem**

The only patent review and collaboration tool that offers native access to a whole suite of other Clarivate products. For customers of Derwent, configuration is simple and enables access to reliable search results powered by enriched data and industry leading AI.

## About Clarivate

Clarivate is a leading global provider of transformative intelligence. We offer enriched data, insights & analytics, workflow solutions and expert services in the areas of Academia & Government, Intellectual Property and Life Sciences & Healthcare. For more information, please visit [clarivate.com](https://clarivate.com).
