Rules for Coding Non-Standard Patentees

Rules for Coding Non-Standard Patentees

How to apply the code

- Take the name and apply the recommended Derwent abbreviations listed in **Appendix 3**;
- Select the first significant word(s) of the resulting name, ignoring words referred to under **Rule A**;
- Take the first four letters of the word(s) as the code, using any abbreviations referred to under **Rule B**;
- Complete the code with a hyphen (-) or, for 'Soviet' names, an equal sign (=) to indicate that it is non-standard.

RULE A - Words to be Ignored in Coding

- Company Descriptors**

Listed in Appendix 1, these words are to be ignored in coding.

- Articles, Prepositions, Conjunctions**

The definite and indefinite articles, prepositions and conjunctions listed below are also ignored in coding.

and	delle	ditta	of	und
dans	der	ditte	per	zur
das	des	et	pour	
degli	die	for	the	
della	dite	fu(e)r	voor	

For example:

DES MACHINES DUBUIT SA
THE BAIRD CORP

MACH-
BAIR-

- Initials and Forenames**

Where a person's name is included as part of the company name, initials and forenames are ignored for coding. For clarity they are also placed at the end of the company name. The rules for coding individuals, described below, would also apply in these cases.

For example:

VON HAUSERMANN AG RUDOLF
LANGEN & SONS LTD H J

VHAU-
LANG-

*Note: Where all words in the patentee name come under **Rule A**, then the first word is not ignored, but coded.*

For example:

APPL PROD LTD

APPL-

RULE B - Words to be Code Abbreviated

- ***General Descriptors***

Listed in Appendix 2, these general descriptors are given the two-letter code abbreviations shown.

- ***Continents and Countries***

Continent and country names, including their adjectival forms, are abbreviated as follows:

- (i) Single word names are abbreviated to their first two letters;
- (ii) Multiple word names are abbreviated by taking the first letter of each word.

The abbreviation used is based on the form and language in which the name appears, except for Japan which is coded NI, the same code as Nippon/ Nihon.

The most common continents and countries are given overleaf:

AFRICA(N)	AF	INDIA(N)	IN
AMERICA(N)	AM	IRELAND, IRISH	IR
ARGENTINA, ARGENTINIAN	AR	ISRAEL(I)	IS
ANGLO	AN	ITALI(A), ITALIAN(A, E, O),	
ASIA(N), ASIATIC	AS	ITALIEN(NE), ITAL(O, Y)	IT
AUSTRALIA(N)	AU	JAPAN(ESE)	NI
AUSTRALASIA(N)	AU	KOREA(N)	KO
AUSTRIA(N), AUTRICHE	AU	LUXEMBOURG(EOISE)	LU
BELGE, BELGIA(N),		MAGYAR	MA
BELGIQUE, BELGIUM	BE	MALAYSIA(N)	MA
BRASIL(IAN), BRAZIL(IAN),		NEDERLAND(AISE, EN, SCHE)	
BRASILEIRA	BR	NEDERLANDSE,	
BRITAIN, BRITISH	BR	NETHERLANDS	NE
CANADA, CANADIAN,		NEW ZEALAND	NZ
CANADIEN(NE)	CA	NIHON, NIPPON	NI
CESKOSLOVENSKA	CE	NORTH AMERICA(N)	NA
CHINA, CHINE(SE)	CH	NORWAY, NORWEGIAN	NO
CYPRIOT, CYPRUS	CY	ÖSTERREICH(ISCHE, ISCHE)	OE
CZECH(OSLOVAKIA)	CZ	POLAND, POLISH	PO
DANMARK	DA	PORTUGAL, PORTUGUESE	PO
DANSK	DA	SCANDINAVIA(N)	SC
DEUTSCHE DEMOKRATISCHE		SCHWEIZ(ER),	
REPUBLIK (DDR)	DD	SCHWEIZERISCH(E, ES)	SC
DENMARK	DE	SCOTLAND, SCOTTISH	SC
DEUTSCH(E, EN, ER, ES),		SINGAPORE	SI
DEUTSCHLAND	DE	SKANDINIVISK(A)	SK
DUTCH	DU	SOUTH AFRICA(N)	SA
EIRE(ANN)	EI	SOUTH AMERICA(N)	SA
ENGLAND, ENGLISH	EN	SPAIN, SPANISH	SP
ESPAÑA, ESPAÑOL(A)	ES	SUISSE	SU
EUROPE(A, AN),		SUOMI	SU
EUROPEEN(NE),		SVEITS, SVIZZERA	SV
EUROPÄISCHE(S)	EU	SVENSK(A)	SV
FINLAND, FINNISH	FI	SWEDEN, SWEDISH	SW
FRANÇAISE, FRANCE,		SWISS, SWITZERLAND	SW
FRENCH	FR	TAIWAN(ESE)	TA
GERMAN(Y)	GE	TURKEY, TURKISH	TU
GREAT BRITAIN	GB	UNITED KINGDOM	UK
GREECE, GREEK	GR	UNITED STATES	US
HOLLAND	HO	WALES	WA
HONG KONG	HK	WELSH	WE
HUNGARIAN, HUNGARY	HU		

• **Points of the Compass**

These are abbreviated to the first letter of the English version of the name:

NORTH	N	SOUTH	S	EAST	E
NORTHERN	N	SOUTHERN	S	EASTERN	E
NORD	N	SUD	S	EST	E
NORTHEAST	NE	SOUTHEAST	SE	OST	E
NORTHEASTERN	NE	SOUTHEASTERN	SE	WEST	W
NORDEST	NE	SUDEST	SE	WESTERN	W
NORTHWEST	NW	SOUTHWEST	SW	OUEST	W
NORTHWESTERN	NW	SOUTHWESTERN	SW		
NORDOUEST	NW	SUDOUEST	SW		

For example:

NORTH WEST ENG BV
SUD OUEST PAPETERIES SA

NWEN-
SWPA-

- **Towns and Regions**

The names of certain non-'Soviet' towns and regions, including their adjectival forms, are abbreviated as follows:

BUCHAREST	BUC	OSAKA	OSA
BUCUREST	BUC	PARIS	PAR
BUCURESTI	BUC	PARISIEN	PAR
BUDAPEST	BUD	PARISIENNE	PAR
CALIFORNIA	CAL	PRAGUE	PRA
CALIFORNIAN	CAL	PRAHA	PRA
LONDON	LON	TOKYO	TOK
NEW YORK	NY		

For example:

CALIFORNIA MICROWAVE INC CALM-

All other towns and regions are coded using the first four letters. For example:

SHANGHAI INST MEDICINE SHAN-

Note: Where the only codable words in a name are words to be code abbreviated, the abbreviation, or part, is repeated as required.

Special Points

- **Word Order**

When standardising company names Derwent aims to preserve, as far as possible, the word order of the meaningful words in the name. The exceptions to this are:

(a) Legal Status

The abbreviated descriptions of the legal status of a company, listed below, are output at the end of the name.

AB	GK	NV	SNC
KG	HB	OP	SPA
OY	KB	PLC	SPRL
SP	KGAA	PVBA	SRL
AG	KI	SA	YG
AS	KK	SARL	
BV	KP	SAS	
FA	NP	SH	

When a company name contains two or more of these descriptions they are output at the end of the name in the order in which they were found. For example:

is output as: OY DYKERI AB FLYNKEN
DYKERI FLYNKEN OY AB

is output as: NV BEKAERT SA
BEKAERT NV SA

(b) Universities

The abbreviation **UNIV** is output at the **start** of the name. For example:

is output as: CARLETON UNIVERSITY
UNIV CARLETON UYCA-

OREGON HEALTH SCIENCES UNIVERSITY
is output as: UNIV OREGON HEALTH SCI UYOR-

When coding non-standard Universities, UNIV generates the code **UY**. The remainder of the code is built up from the town, city, or region of the University, if present in the name. If it is not present then the next codable word is taken to complete the code.

For example:

KATHOLIEKE UNIVERSITEIT LEUVEN
is output as: UNIV KATHOLIEKE LEUVEN UYLE-

UNIVERSITE PIERRE ET MARIE CURIE PARIS VI
is output as: UNIV CURIE PARIS VI P & M UYPA-

(c) **Company Acronyms**

Where a company has a stated abbreviated name, usually based on an acronym, this is placed first and used as the first codable word. This applies particularly to French and Italian companies. For example:

SOCIETE DES PRODUITS CHIMIQUES DE PARIS
S.P.C.P. SA
is output as: SPCP SOC PROD CHIM PARIS SA SPCP-

• **Umlauts**

To represent the use of an umlaut an E is added to the word, after the appropriate letter. If the word is used to generate a non-standard code, the E is also used in the code.

This applies particularly to German, Austrian and Scandinavian companies. For example:

ORION YHTYMÄ OY
is output as: ORION YHTYMAE OY

MÜLLER UND WEIGERT GMBH
is output as: MUELLER & WEIGERT GMBH MUEL-

ÖSTERREICHISCHE CHEMISCHE WERKE GMBH
is output as: OESTERR CHEM WERKE GMBH OECH-

If the first codable word in the name has been abbreviated, according to the list in **Appendix 3**, then the abbreviated form is taken when applying the code. For example:

ENGINEERING FACTORS CORP
becomes: ENG FACTORS CORP ENGF-

• **Coding Numerics in Company Names**

Where a company name contains a numeric in the codable word(s), the code is derived from the English version of the numeric as follows: 0 zero, 1 one, 2 two, 3 three, 4 four, 5 five, 6 six, 7 seven, 8 eight, 9 nine. For example:

3D SYSTEMS INC	THRE-(Three)
13 INVESTMENTS CO	ONET-(One three)
100 RES LTD	ONEZ-(One zero)
2000 INC	TWOZ-(Two zero)

• **Coding Short Company Names**

Where a company name is short there may not be enough letters in the codable word to complete a four letter code. This is overcome by repeating the first letter(s) of the word. For example:

CLT	CLTC-
TTC SPA	TTCT-
AE INC	AEAE-

Individuals

How to apply the code

- a) From the individual’s name select the surname. Ignore academic and other titles (e.g. Dr. Ing., Sir), but not surname prefixes (e.g. Di, Von);
 - b) Take the first four letters of the surname and, if there are less than four letters, use the initials to complete the four letter code;
 - c) Complete the code with an oblique sign (/) to indicate that the code applies to an individual.
- For example:

MEYER S F
ITO K

MEYE/
ITOK/

Special Points

- Multiple-word Surnames**

If the two names in the surname are connected by a hyphen, code the first name; otherwise code the second.

For example:

SCHMIDT-THUEMMES J
MARTINEZ GOMEZ M C

SCHM/
GOME/

Where the first name in a hyphenated surname is short the second name is taken to complete the code.

For example:

YI-TUNG K

YITU/

Note that where multiple-word forenames are hyphenated this is taken by Derwent as a single name generating a single initial. For example, Jean-Paul Antoine would be output by Derwent as ANTOINE J.

- Surname Prefixes**

The following surname prefixes are abbreviated to the first letter only, when creating the code:

Prefix	Code	Prefix	Code	Prefix	Code
d'	d	l'	l	van den	
da	d	la	l	van der	v
de	d	le	l	vander	v
di	d	los	l	van't	v
do	d	saint(e)	s	vom	v
du	d	st	s	von	v
dal	d	van	v	von dem	v
del	d	van de	v	von der	v
dos	d	van dem	v		

For example:

DOS SANTOS J R
VON FISCHER K H

DSAN/
VFIS/

Multiple-word surnames containing prefixes are coded as follows:

- (i) If the prefix is first it is ignored, unless the surname is hyphenated. See the rule governing multiple-word surnames above.

For example:

DE WINTER-SCAILTEUR N
DA SILVA CAMARGO G R

DWIN/
CARM/

- (ii) If the prefix is the penultimate word, it is included as part of the code.

For example:

RIBERIO DE MOURA A N DMOU/

- (iii) Where a prefix is incorporated in the surname the first four letters, including the full prefix are included.

For example:

MACMILLAN I A	MACM/
DUPON J G	DUPO/
DEPALMA M S	DEPA/

- **Chinese Names**

Chinese names appearing on Chinese patents are quoted in full. The first name quoted is taken to be the family name by Derwent and is used to create the code.

For example:

SHEN HUCHENG	SHEN/
ZHU KEMING	ZHUK/
LI ZHONG	LIZH/

- **Short Names**

When the surname contains less than four characters, the code is completed by taking the initials of the forenames. If there are still less than four characters, the first initial is repeated.

For example:

ELY G	ELYG/
MO O	MOOO/
SI S T	SIST/

- **Umlauts**

As for companies, to represent the use of an umlaut, an E is added to the name, after the appropriate letter. The E is also carried over into the code, where appropriate.

This applies particularly to German, Austrian and Scandinavian names.

For example:

is output as: ANTON KÜPELLIS
KUEPELLIS A KUEP/

APPENDICES

APPENDIX 1 : COMMON DESCRIPTORS

The following words or phrases are to be ignored when creating non-standard company codes.

&

A/S	BETEILIGUNGSGESELLSCHAFT MIT BESCHRANKTER HAFTUNG	COMMISSARIAT
AB	BET-GES	COMMISSION
ACADEMY	BET-GMBH	COMPAGNIA

#1 Also other language versions, e.g. Spanish.

In earlier years of the Derwent files, the following words were also ignored when determining non-standard company codes:

- BAU DAI-
- FABRIEK
- FABRIK
- FABRIQUE
- INSTITUT(E)
- LABORATORIUM SHIN
- VERK(EN)
- WERKE
- WORKS

#2 TE does not cover
Technology....

#3 UY is placed first in the code.
See **APPENDIX 3**

APPENDIX 3 : ABBREVIATED WORD LIST

The following lists alphabetically the recommended abbreviations used by Derwent for commonly occurring words in patentee names.

It should be noted that where the patentee name is short and it only contains words in this abbreviation list (for example GENERAL CORP), the name may be input without reference to this list, to ensure that the output name is as meaningful as possible.

Where a name is exceptionally long, for example in French and Soviet names other words in the name may be abbreviated, to fit a meaningful name into the 30 characters available.

&	ET				CERC	CENTRUM
AB	UND					CERCETARE

#1 UNIV is placed first in the name

APPENDIX 4 : SOVIET & RUSSIAN PATENTEEES

Names other than private individuals are first translated and then rendered in the following word order: a

- a. The name of the town, republic or region is abbreviated with reference to the lists below, and preceded by AS if the body forms part of one of the Academies of Sciences. For example: AS USSR, AS BELO, LENG D, etc. The Soviet Academy of Medical Science is abbreviated to A MED, which is placed first in the name.
- b. The nature of the work carried out, for example FORESTRY, LIGHT IND, CHEM, CERAMICS, PHARMACOLOGY, etc.
- c. The kind of body, for example RES INST, DES BUREAU, PRODN ASSOC, POLY, WKS. Note that if the body is a University UNIV is placed first in the name.
- d. If space allows, and if given, the person after whom the body is named.

The following words and phrases, describing the kind of body, are commonly found in 'Soviet' patentee names:

TRANSLITERATION	TRANSLATION
BYURO	BUREAU
EKSPERIMENTALNOI	EXPERIMENTAL
FILIAL	BRANCH
GLAVNOI	MAIN
GOLOVNOI	HEAD
GOSUDARSTVENNYI	STATE
IMENI	NAMED AFTER
INSTITUT	INSTITUTE
INZHENERNO	ENGINEERING
ISSLEDOVATELSKII	RESEARCH
KHOZYAISTVO	ECONOMY
KOMBAINA	COMBINE
KONSTRUKTORSKII	DESIGN
NAUCHNO	SCIENTIFIC
OBEDINENIE	ASSOCIATION

UNIVERSITET	UNIVERSITY
VOSTOCHNOI	EASTERN
VSESOYUZNYI	ALL-UNION
ZAVODSKII	WORKS

Applying Non-Standard Codes

Non-standard codes for 'Soviet' Patentees are created according to the rules laid down in **Section 3**. Additional words to be code abbreviated are A MED (AM), AS (AS), and the Soviet towns, republics and regions listed below. Soviet non-standard companies are denoted by an equals sign (=) after the code.

Towns and Republics of the former Soviet Union

The following towns, republics and regions are abbreviated to a standard format and are given one or two letter codes. The towns, republic and regions are given in their adjectival form, and the ending SKII may be replaced by SKAYA, SKOE, SKUYU, SKOGO, SKOI, SKOMU, SKIM or SKOM.

TOWN / REPUBLIC	DERWENT ABBREVIATION	CODE
ARMYANSKII (ARMENIA)	ARMN	A
AZERBAIDZHANSKII	AZERB	AZ
BELORUSSKII	BELO	B
CHELYABINSKII	CHELY	CH
CHERPOVETSKII	CHERP	CE

VILNYUSSKII	VILN	VI
VOLGOGRADSKII	VOLG	VL
VORONEZHSKII	VORON	VO

#1 New Code and Abbreviation from 1992

The following towns and republics of the former Soviet Union are abbreviated to a standard form, but are coded using the first four letters. Again the towns and republics are given in adjectival form, and the ending SKII may be replaced as above.

TOWN / REPUBLIC ABBREVIATION	DERWENT
ALMA ATAISKII	ALMA-ATA
ALTAISKII	ALTAI
ARKHANGELSKII	ARKHAN
BARNAULSKII	BARNAUL
BEREZNIKOVSKII	BEREZ
BRYANSKII	BRYAN
DONETSKII	DON
GOMELSKII	GOMEL #1
GRODSKII	GRODNO
GROZNENSKII	GROZN
IVANO FRANKOVSKII	IVANO FRANK
IZHEVSKII	IZHEV
KIROVSKII	KIROVSK #1

TAGANROGSKII	TAGANROG #1
TBILISSKII	TBILISI
ULYANOVSKII	ULYAN
VITEBSKII	VITEB
VOROSHILOVGRADSKII	VOROSH
YAROSLAVSKII	YAROSL
ZAPORozHskii	ZAPORO

#1 New Abbreviation from 1992

Towns not in the above lists are output in full, translated form.

APPENDIX 5 : COMMON JAPANESE COMPANY NAME DESCRIPTORS

Introduction

The aim of this appendix is to assist patent searchers in tracing probable synonyms of Japanese companies.

Japanese company names appear on patents in a number of different forms. In Japanese Kokai and Kokoku they may be written in Kanji, e.g. Mitsubishi, Mitsui, or in Katakana, e.g. Sony, TDK. When these are translated into English for non-Japanese patent filings a number of versions of the same company name may result.

For example Toa Kasei Kogyo KK can also appear as Toa Kasei Ind Co Ltd., Toa Chem Ind Co Ltd or East Asia Chem Ind Co Ltd.

Some companies adopt for western purposes an English name which is not a direct translation of the Japanese one, for example Honda Giken Kogyo KK and Honda Motor Corp. Long Japanese names may also be shortened by deleting alternate syllables. For example Tokyo University (Tokyo Daigaku) can become Todai, and Osaka University (Osaka Daigaku) can be abbreviated to Handai.

For Japanese companies with Derwent standard codes all such variations in the name that can be identified, are included under the relevant standard code. For other companies, non-standard codes based on **Rules A** and **B** outlined in **Section 3** are assigned.

When transliterating Japanese to English Derwent normally uses the Hepburn system. Accents or long or short vowels are, however, not indicated.

Japanese may also be transliterated using other systems, some of the main syllable differences between these systems and the Hepburn system are:

Hepburn	Others	Hepburn	Others	Hepburn	Others
cha	tya	ji	di, zi	sha	sya
chi	ti		jo	dyo, zyo	shi si
cho	tyo	ju	dyu, zyu	sho	syo
chu	tyu	jya	dya, zya	shu	syu
fu	hu	mb	nb	tsu	tu

Note that where the syllable is long the transliteration may indicate this by adding an extra h or u. For example Tokyo may be written as Toukyou or Tohkyou.

Japanese company names are often structured with a proper name first, indicating ownership or geographical location, followed by a description of the nature of the business, then by a description of its legal status. Japanese also contains a great many homophones, i.e. words which are transliterated the same but have two or more different meanings. For example KOGAKU can mean INDUSTRY or OPTICAL. Hence two company names which appear the same, may in reality, refer to two distinct companies.

1. JAPANESE COMPANY TYPES

TRANSLITERATION	ABB.	LEGAL STATUS
GAKKO HOJIN GAKKO HOUJIN	GH	Private educational foundation
GOMEI KAISHA GOMEI GAISHA	GK	All company members share unlimited liability
GOSHI KAISHA GOUSHI KAISHA	GK	Jointly-owned by limited and unlimited liability companies
KABUSHIKI KAISHA KABUSHIKI GAISHA	KK	Unlimited liability company, owned by shareholders and run by a team appointed by them
KIGYO KUMIAI	–	Legal association of small companies
KOSHA KOTSU KOSHA SENBAI KOSHA	–	Publicly owned company (All are now privatised)
KYODO KUMIAI	–	Consumer/Producer union
KYOGYO KUMIAI	–	Workers Co-operative
SHADAN HOJIN	SH	Incorporated society, a company formed by a group of individuals with certain aims
YUGEN GAISHA YUGEN KAISHA YUUGEN KAISHA	YG	Limited liability company
ZAIDAN HOJIN ZAIDAN HOUJIN	ZH	Foundation (legal entity) Foundation (juristic person)
