

Fact sheet | IP Lifecycle Management™

Three ways to elevate your IP practice by partnering with us

When choosing a partner to help manage your intellectual property (IP) assets, consider the unique combination of advantages that Clarivate™ offers.

1. Streamline IP management with modern cloud technology

FoundationIP is a market leader in IP management software. Here's why:

- **The first cloud-based platform**
Powered by Amazon Web Services, FoundationIP is easy to implement, highly secure, flexible and scalable. Always stay up to date with the latest features, without costly time-consuming upgrade rollouts.

- **Industry-leading IP Laws**
FoundationIP is powered by an extensive country laws engine, with automatic updates and date recalculations for complete peace of mind.
- **Powerful dashboards and reporting**
for internal capacity management, task oversight, docket report automation and sharing valuable insights with your clients.
- **Automated task management**
including IDS management and client communications, reduces manual work and helps IP teams spend more time on billable tasks.

70%

of attorneys and paralegals spend more than 20% of their billable time on non-billable tasks¹

2. Gain a competitive edge with powerful data

Automatically verify your clients' portfolios in minutes. Clarivate IP data, with market-leading quality, breadth and depth, verifies and enriches patent and trademark data, reducing the risk of errors and providing powerful insights.

- **Comprehensive patent data verification**
across 270+ jurisdictions, covering 94% of all global patents, to ensure maximum accuracy
- **Automated trademark data verification**
over 84 million word marks and global coverage of 188 trademark databases
- **Provide strategic insights to clients**
analyze your client's portfolio alongside global, public patent data to make better-informed decisions

3. Leverage industry leading expertise to grow your practice

Rely on our services and expertise to help reduce your cost of operating and optimize your IP operations and maintenance.

- **Industry-leading services**
Seamlessly integrate Clarivate services with FoundationIP and your firm's internal systems. Capture easy integration with patent and trademark maintenance services, our IP Support Services team, ordering CompuMark™ watches and more.
- **The largest team of IP experts**
in the industry – more than 2,000 IP services professionals enabled by our 10 operations centres around the globe.
- **Customer-centric software development**
Partner with Clarivate at Software Innovation Boards to help shape the direction of your product.
- **Experience gained through 50+ years**
our business predates other leading providers, giving us unparalleled IP industry knowledge and experience.
