

Find drugs that have reached specific milestones

Cortellis Drug Discovery Intelligence

Identify drugs that have reached a specific milestone, for instance those that have received an Orphan Drug Designation by using the Milestone area within Advanced Search.

1. Go to **Drugs & Biologics** under Advanced Search and select **Milestone**.
2. Use the available fields to define the milestone by name, date, condition, and region, among others. In the example below, we are looking for drugs that have received an FDA Orphan Drug Designation this year for retinitis pigment
