

Identify undisclosed structures via related patents

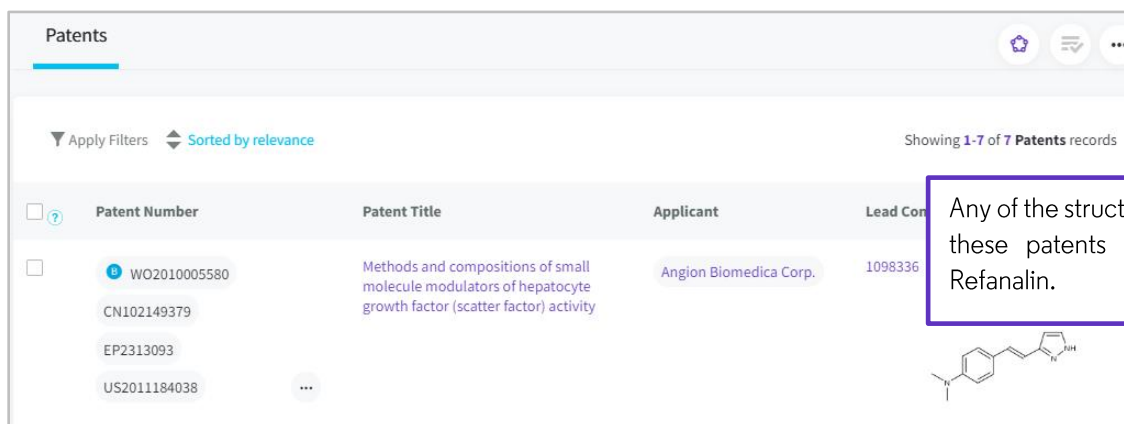

Cortellis Drug Discovery Intelligence

Sometimes drug structures are not disclosed by their Organization. Cortellis Drug Discovery Intelligence offers you a quick way to identify potential structures for those drugs.

1. When a drug's structure is not yet disclosed, it will be stated within the drug record under **Product Properties**, like in the case of Refanalin.

2. Click on **View Patents** to retrieve a list of Patents potentially associated to your drug via Mechanism of Action and Organization, in this case Hepatocyte Growth Factor (HGF) Mimetics and Angion Biomedica Corp.

Patent Number	Patent Title	Applicant	Lead Compound
WO2010005580	Methods and compositions of small molecule modulators of hepatocyte growth factor (scatter factor) activity	Angion Biomedica Corp.	1098336
CN102149379			
EP2313093			
US2011184038
