Items per page: 25 1 - 25 of 486

- Enhanced visual analysis
- Simplified alerts and filters
- More intuitive navigation
- Expanded filtering capabilities
- Flexible customization options
- Column personalization (show/hide)
- Compact, space-efficient layout
- Ongoing enhancements exclusive to the New View

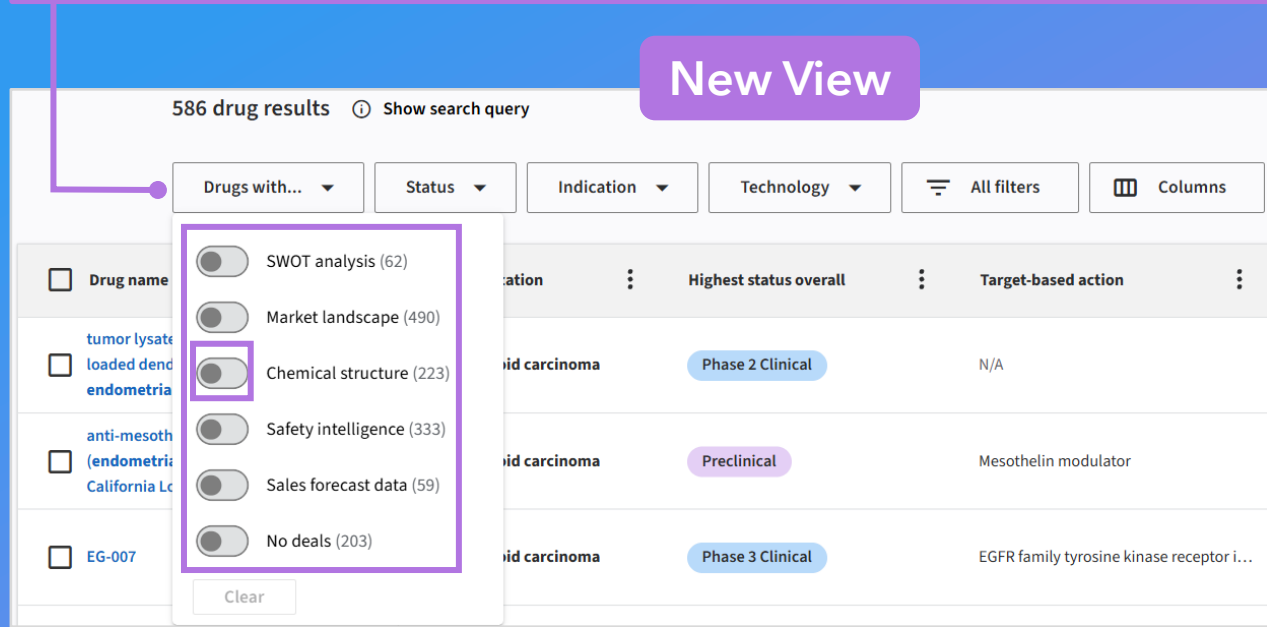

More intuitive filters

Classic View

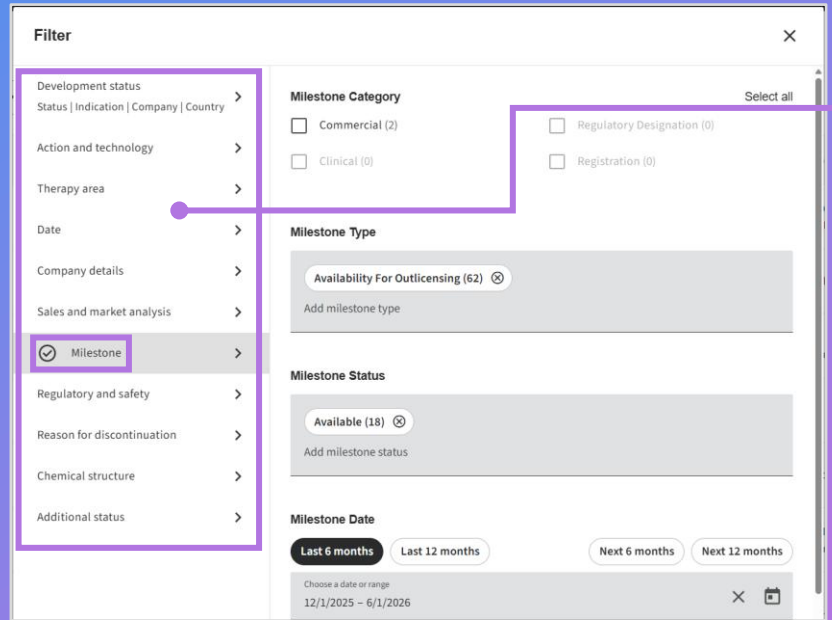

Quick access to most frequently used filters + new options to narrow down results faster (e.g. drugs with chemical structure)

New View

New View

NEW Milestone filter - You can now find drugs recently announced as available for licensing or expected to file INDs within the next few months

Filters window has been reorganized by topic with 30 options grouped into 11 categories

Simplified process to set up alerts
