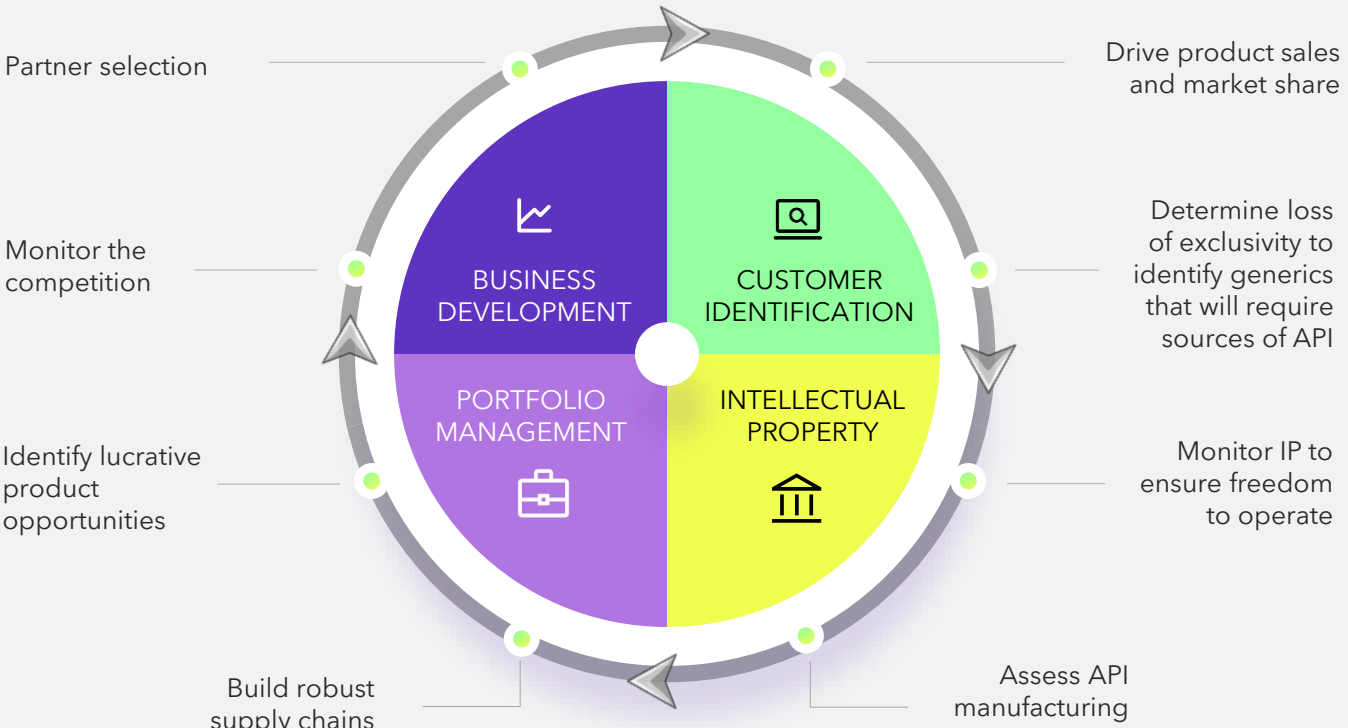
- Optimize pricing strategy for your API

Empower your teams with a single source of intel:



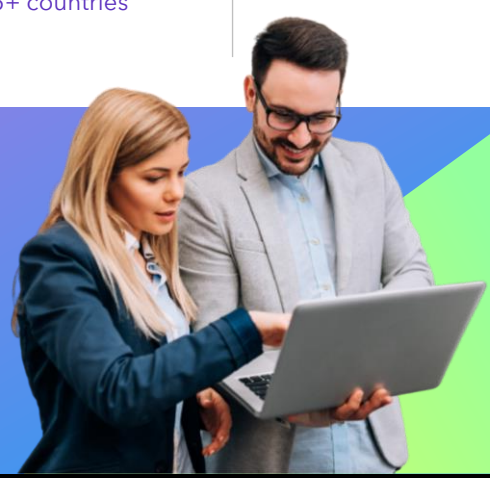
63K+
small molecules & biologics
Global sales and kg consumption data

85K
manufacturers & marketers

77
launch countries & pack price data

68K+
regulatory documents across 25+ countries

1.4M+
worldwide patents



"This platform is a one stop shop for commercial as well as competitive information. It saves considerable time, easy to navigate, easy to download and use information as desired and hence it is productive and progressive tool for an organization."

Amit Bansal, BD&L, Sanofi Aventis
