

Identify Finished Dose companies with Company Selector Tool

Discover how to use the **Company Selector Tool**: a flexible way to find **Finished Dose Manufacturers** by capabilities, location and more

Example: Identify Finished Dose manufacturers with Head Quarters based in the US with the capability to produce injections.

- Once you log into Cortellis Product Intelligence, go to **Company Selector Tool** by clicking the 'Company Selector' icon.
- Ensure 'Finished Dose Manufacturer' is selected from **Company type**.

- Open the **Capabilities** menu, begin typing in your term (injection) and choose it from the list.

- Click 'Apply'.
- Open **Corporate Group Location** menu and select 'US', a green check mark will appear next to it.
- To exclude Big pharma or other type of companies from your results, open **Group type** and click 'Big Pharma' twice, a red X will appear next to it.

Corporate Group

☐ United Arab Emirates

☐ United Kingdom

☐ Uruguay

☒ USA

Filters menu can be hidden or displayed by clicking the chevron symbol at the top right.

Filters are available on the left to narrow down as you like, for example, filter to the date of their latest inspection by different agencies. You can exclude companies with FDA warning letters from this menu, too.

Check subscription details with your Clarivate Account manager or **LS Product Support**.
