

# Identify products according to sales data

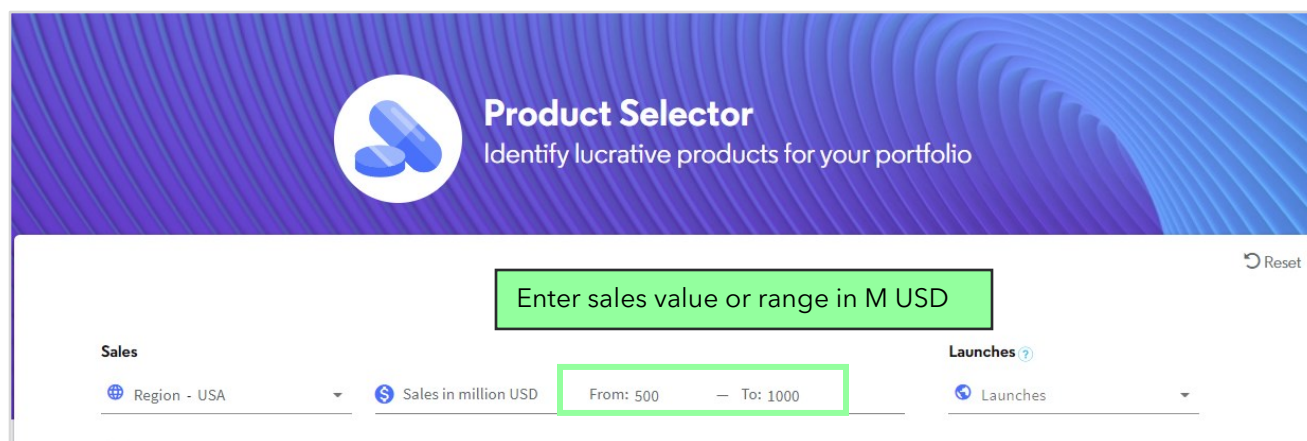

Cortellis Product Intelligence provides 24 months of finished product sales data in 5 regions around the world. This information can be included in Product Selector Tool allowing you to target products with a minimum or maximum sales value.

Example

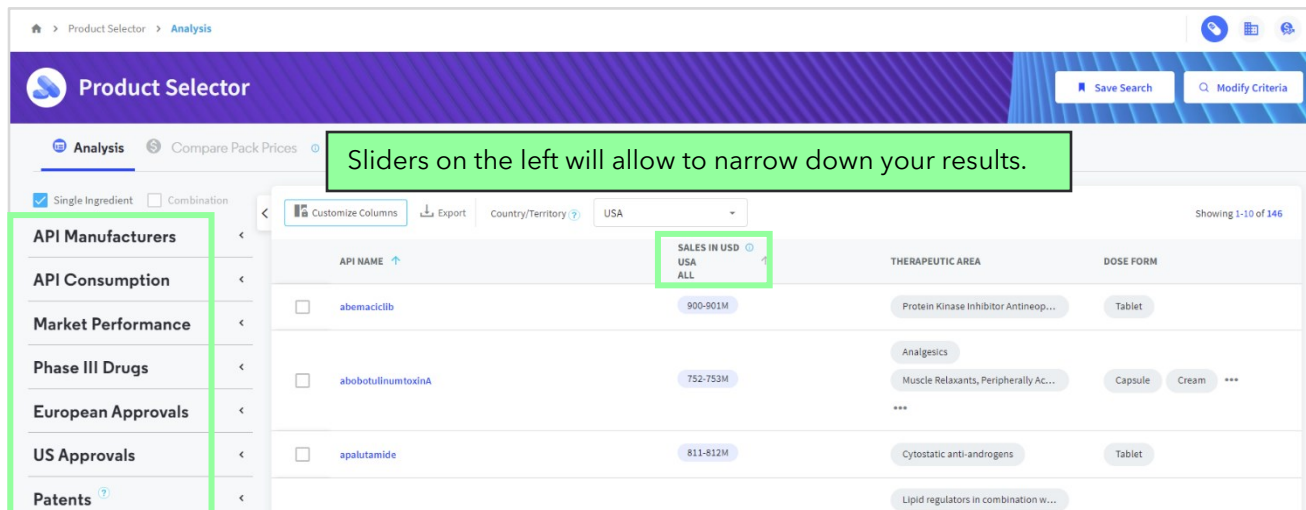

1. Go to **Product Selector Tool**.

2. Select **region**, enter **sales value(s)** and complete your criteria with other fields if desired. **Click Search**.

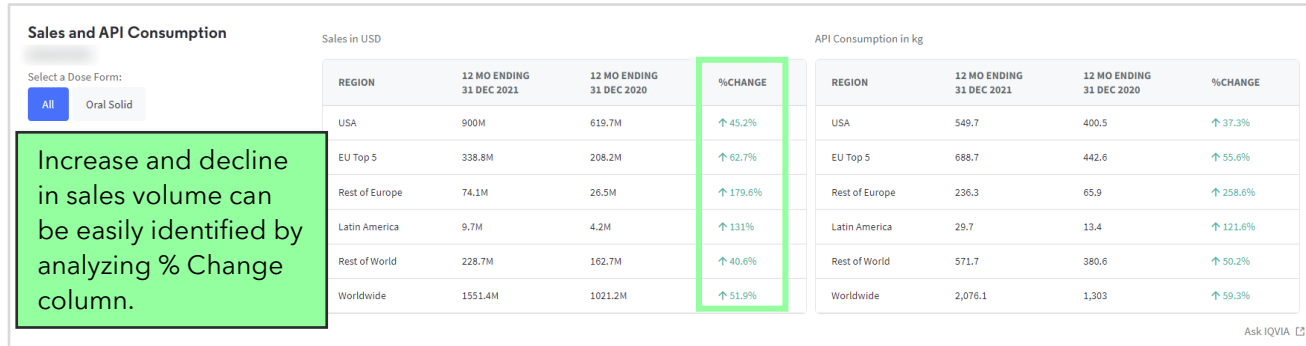

- Once in the **results table**, sales values for the region of interest are displayed in the first column. Scroll to the right to find out technology, pack prices, route of administration and more product details.

Sliders on the left will allow to narrow down your results.
