

Dialog® provides the most flexible pricing framework in the industry

Clarivate™

No matter the size of your business, we can create a tailored pricing package based on your budget and the content you need, using a combination of our pricing models.

Transactional

Our 'pay-as-you-go' pricing model

Designed for occasional searches, it has an annual service charge and content is charged at the standard retail price. If you're able to commit to an annual spend of at least \$2,500, we are able to offer discounts on document access and will waive the service charge.

Subscription

The unlimited usage plan

When you need unlimited access to specific databases, this plan provides the most cost effective approach, with an annual fixed fee, no service charge and free search alerts and RSS feeds.

Mix and Match

Tailored combined packages

We can create custom pricing packages that match your specific requirements by combining our transactional and subscription models. For example, we can provide cost-effective subscription access to biomedical databases MEDLINE and Embase, together with transactional access to all of the other databases on Dialog.

Plan costs

Transactional

Service fee

\$360 every 6 months*

*Service fee waived for customers able to commit to annual spend of at least \$2,500

Cost of accessing content

Full retail price**

**Discounts available for customers able to commit to annual spend of at least \$2,500

Alerting Service

Pricing for alerts and RSS feeds calculated according to usage

Subscription

Service fee

Varies according to database subscription

Cost of accessing content

Included in plan cost

Alerting Service

Included in plan cost

Plan features

Search and Discovery

Create search sets, filter, refine and expand queries across all databases, and browse search results.

Search and Alert Service

Our dedicated team can work with you to create and maintain your search strategies and alerts, and run searches for any topic, delivering the most relevant results.

Alerts

Schedule alerts to receive new content exactly when you need it: every 4 hours, daily, weekly, monthly, quarterly, or 1 to 2 times per year.

Saved Searches

Save and edit search queries.

Shared Alerts and Searches

Let other users subscribe to your saved alerts and searches and receive the search results.

Content

View and export documents in a variety of formats including MS Word, Excel, PDF, XML, and other common file types.

Full Text Integration with Reprints Desk

Cost-effective access to rent or purchase full-text articles.

Administrator Module (PAM)

Control branding and organisation-level settings.

Service Fee

Allows for the creation of unlimited user IDs, and provides complete access to Dialog's customer services and training resources.

Which one is right for me?

"I need access to a large range of content and don't want to be tied down to a single database"

"I have a fixed annual budget but need a lot of content for different projects"

"I want unlimited access to a specific set of databases through Dialog's search interface"

"I need complete access to a specific database, but occasionally need to search a wider range of literature"

Transactional

Subscription
