

# Epidemiology Data Slicer

Quick Start Guide

July 2021

## What is the Epidemiology Data Slicer?

A new interactive tool within Epidemiology that allows you to easily manipulate patient-level data across countries, markets, and patient sub-groups and visualize only the data you need.

You can now access the beta version of the Epidemiology Data Slicer for a select group of indications.

This tool will help you:

- ✓ Visualize your epidemiological content by geography
- ✓ Easily create custom visuals for presentations
- ✓ Quickly access the right cuts of data in a few clicks
- ✓ Save time by saving your favorite views

**Epidemiology**

Understand the complete disease landscape and size global markets with real world data

**Geographic Coverage:** Varies by indication, up to global coverage (171 countries)

**Forecast:** 20-year, annualized patient-level forecasts that use transparent and validated bottom-up methods with proprietary models

**Key Features:**

- Interactive dashboards with heat maps and patient flow diagrams
- Global coverage using epidemiological transition and geographical extrapolation models
- Real time access to epidemiology experts

On the Biopharma Home Page, click on the **Browse Diseases and Topics** button on the Epidemiology Learn More pop-up to navigate to the Content Directory

# Get started with the Epidemiology Data Slicer

On the Content Directory page, update the **Product type** filter selection to show only topics with an Epidemiology Data Slicer. Then click on a topic of interest from the list of available diseases.

- Epidemiology Data Slicer** is currently available for the following diseases:
1. NSCLC
  2. Non-Hodgkin's Lymphoma
  3. Dermatitis/Eczema
  4. Chronic Heart Failure
  5. Psoriasis
  6. Rheumatoid Arthritis
  7. Ulcerative Colitis
  8. Type 2 Diabetes
  9. Multiple Sclerosis

# Get started with the Epidemiology Data Slicer

The screenshot shows the Clarivate DRG Epidemiology Data Slicer interface for Non-Small-Cell Lung Cancer. The interface is divided into several sections:

- Header:** Clarivate™ | DRG, Biopharma, Search within Biopharma, Browse All, and notification icons.
- Breadcrumbs:** Home / Diseases / Non-Small-Cell Lung Cancer (Notifications Off).
- Navigation Menu:** At a Glance, Landscape & Forecast, Epidemiology (selected), Current Treatment, Unmet Need, Access & Reimbursement, Geographic Focus: China, Meet The Team.
- Table of contents:** Overview, Epidemiology Data Slicer (selected), Non-Small-Cell Lung Cancer, Mature Markets, Emerging Markets, Americas, Europe, Middle East & Africa, Asia-Pacific.
- Main Content Area:**
  - Choose view:** Default View (dropdown), Save View As, Update View.
  - Visualizations (selected) / Data Query:**
    - GEOGRAPHY:** All (dropdown)
    - POPULATION GROUP:** Adenocarcinoma by Stage (dropdown)
    - POPULATION:** All (slider and dropdown)
  - CASES BY YEAR, 2020:** Map, Table, Year (dropdown).
  - Visualization:** EPI cases by country and population name, 2020. A horizontal bar chart shows cases for China and United States. Legend: Diagnose... (purple), Diagnose... (blue), Diagnos... (orange).

A blue callout box on the right side of the interface contains the text: "Select your countries/regions and populations of interest." This box points to the filter section of the main content area.
