

Global Patents

Date revised: March 16, 2026

Clarivate provides access to the complete text of patents issued by 33 countries and patenting authorities around the world, and the bibliographic data of 72 additional patenting authorities. The patents are organized in separate databases by country/authority, such as Denmark Patents and WIPO PCT Patents. Each patent document contains, when available:

- Front-page information, including title, inventor(s), assignee(s), related applications, classification data, cited references, abstract and front-page drawing,
- The full specification of the original patent or published application,
- Claims,
- Original language plus English machine translations,
- Drawing sheets and inline images,
- Citing patents,
- Legal status information, which includes the gazette date announcing the action, the legal status code, the equivalent text description, and any additional details.
- Designated states for European and PCT patents,
- The EPO Simple Family ID for each patent document¹, and
- Legal status information for each member of the patent family¹.

Geographical Coverage

The 32 single country patents databases including the following:

Database name	Date coverage starts
Argentina Patents	1963

PCT Patent Number : WO2006048584A1

« Support de bouteille de boisson en matière plastique » Domaine de l'invention

La présente invention concerne un support de bouteille de boisson en matière plastique souple dont le corps de forme cylindrique standard comporte au moins une zone locale annelée formant au moins une gorge périphérique, comprenant un organe d'accrochage en forme de pince pour se fixer à la ceinture ou à une pièce de vêtement (poche) et un anneau relié à la pince pour recevoir la bouteille. Etat de la technique II existe déjà différents dispositifs pour accrocher des objets à une ceinture ou un vêtement. Ainsi, le document FR 01 09 364 décrit une attache pour fixer une paire de lunettes. Cette attache en forme de pince s'accroche à la ceinture ou à une poche et comporte un orifice pour le passage d'une branche de lunettes ainsi qu'un logement pour recevoir les deux branches repliée de la lunette de manière à tenir celle-ci.

•

•

SPEC, TX, FT

English (machine translation):

Field of the invention

The present invention relates to a support of flexible plastic drink bottle whose body of standard cylindrical form comprises at least a ringed local zone forming at least a peripheral throat, including/understanding a body of fixing in the shape of grip to fix itself at the belt or a part of clothing (pocket) and a ring connected to the grip to receive the bottle.

State of the art

There exist already various devices to hang objects with a belt or a clothing. Thus, the document

FR 01 09.364

described a fastener to fix a pair of glasses. This fastener in the shape of grip clings to the belt or a pocket and comprises an opening for the passage of a branch of glasses as well as a housing to receive the two branches folded up of the glasses so as to hold this one.

Claims	CLM	clm((bottle OR bouteille) AND support)	Claims are the legal text describing the patent.
Classification – CPC ¹¹	CPC	cpc(A45F 2200/0583) cpc(A45F 2200) cpc(A45F) cpc(A45) cpc(A)	The Cooperative Patent Classification (CPC) is available for searching from March 2013 forward.
Classification – ECLA	ECLA	ecla(K45F 200:05 R) ecla(K45F 200:05) ecla(K45F 200) ecla(K45F) ecla(K45) ecla(K)	European Class codes.
Classification – IPC ¹²	IPC	ipc(A45F 5/02) ipc(A45F 5) ipc(A45F) ipc(A45) ipc(A)	International Patent Class codes. IPC Version 7 and earlier is used prior to 2006. The IPC Version 8 is used from 2006 forward.
Company information	CO	co(Chekroune Philippe)	The as-published patent assignee.
Designated states	DS	ds(ES) ds(CH)	Designated states are only available for EP and WO patents.
Document text	TX	tx("plastic drink bottle") tx(boisson AND support) tx(cylin* NEAR/10 plastic)	Abstract, claims, and specification. Use adjacency and/or Boolean operators to narrow search results. May also search using FT.

¹¹ The Cooperative Patent Classification (CPC) was introduced in January 2013. It is structurally like the International Patent Classification (IPC), so CPC classes are searched the same way using the CPC field code. CPC attributes are the same as the IPC attributes except for the Value attribute (I - Inventive, A - Additional).

¹² IPC Version 7 and earlier is used from 1970 through 2005. IPC Version 8 is used from 2006 forward. With the introduction of the Reformed International Patent Classification (IPCR/8) on January 1, 2006, the format of the IPC group increased in length from 3 to 4 digits. For comprehensive retrieval, both forms of the classification codes should be searched. Some records may contain IPCR/8 codes as well as earlier versions of IPC codes, indicating that an older patent has been reclassified. Each IPCR/8 classification code is also assigned a series of attributes. These include classification level (A - Advanced, C - Core, S - Subclass), value (I - Inventive, N - Non-inventive), position (F - First, L - Later), status (B - Basic, R - Reclassified, V - Various, D - Deleted), version date, action date, source (H - Human, M - Machine, G - Generated), and assigning office.

Field Name	Field Code	Search examples ¹⁰	Description and Notes
Document type	DTYPE	dtype(patent)	The only document type in the patents full text databases is "patent".
EPO Simple Family ID	FID	fid(35735254)	The EPO simple family ID is a type of accession number assigned to any patents that share an identical priority application numbers.
First available	FAV	fav(2012-04-06) fav(20120406) fav(2012)	Indicates the first time a document was loaded in a database. It will not change however many times the record is subsequently reloaded.
From database ¹³	FDB	(cylin* NEAR/10 plastic) AND fdb(1008367)	Useful in multi-database searches to isolate records from a single database. FDB cannot be searched on its own; specify at least one search term then AND it with FDB.
Full text	FT	ft("plastic drink bottle") ft(boisson AND support) ft(cylin* NEAR/10 plastic)	Abstract, claims, and specification. May also search using TX.
Full text present	FTANY	"plastic drink bottle" AND ftany(yes)	Add: <i>AND FTANY(YES)</i> to a query to limit your search to documents with full text (i.e., Specification)
Image present	IMGANY	"plastic drink bottle" AND imgany(yes)	Add: <i>AND IMGANY(YES)</i> to a query to limit your search to documents with an image.
Inventor	INV	inv(CHEKROUNE PHILIPPE)	May also search inventor names using the AU field code.
Inventor country	ICO	ico(FR)	
Language	LA	la(French) la(fre)	Language in which the document was originally published.
Language of abstract	SL	sl(English)	
Legal representative	LRP	lrp(HERRBURGER)	The legal representative, attorney, agent, or firm who represents the patent assignee.
Legal representative location	LRL	lrl(Paris)	The mailing address if available.
Legal status	LS	ls(NON-PAYMENT) ls(EP PG25) ls(2013-06-28) ls(lapse)	Legal status Gazette date, code, code description, and notes.
Legal status code	LSC	lsc(EP PG25) lsc(EP PG25) LNK ld(201306)	Legal status code and code description. Use the LNK operator to retrieve related legal status data from a specific legal status entry.
Legal status date	LD	ld(20130628) ld(2013)	Includes the Gazette date and any other legal status date.
Number of cited literature references	NR	nr(10) nr(>=10)	NR is a numeric field so using "greater than" (>) and "less than" (<) symbols, for example, is possible.
Number of cited patents	NCP	ncp(5) ncp(5 OR 6)	NCP is a non-numeric field; using symbols such as "greater than" (>), "less than" (<) is not possible.
Number of citing patents	NCBP	ncbp(4) ncbp(25 or 26)	NCBP is a non-numeric field.
Number of claims	NOC	noc(8) noc(1-10)	NOC is a numeric field.
Number of legal status entries	NLS	nls(98) nls(<=100)	NLS is a numeric field.
Patent assignee	PA	pa(CHEKROUNE PHILIPPE)	The as-published applicant or patent assignee names.

¹³ FDB searches the database ID code. Click the "Help" hyperlink then click "Search syntax and field codes", and then click "FDB command" for a list of database names and codes that can be searched with FDB. FDB cannot be searched on its own; specify at least one search term then AND it with FDB.

Field Name	Field Code	Search examples ¹⁰	Description and Notes
Patent assignee country	ACO	aco(fr)	The mailing address country for the patent assignee consisting of the ISO-standard 2-letter country code.
Patent publication country	PBC	pbw(wo) pbw(ep)	The 2-letter ISO standard country code for the main and related patent publication countries.
Patent publication country and kind code	KC	kc(EP B1) kc(EP)	The kind code indicates the publication level of a patent document. KC searches main publication country and kind code, or the country only.

Search tools

Field codes are used to search document fields, as shown in the sample document. Field codes may also be used in searches entered on the **Basic Search**, **Advanced Search**, **Command Line** and **Look Up Patent** search pages. **Limit options**, **Look up lists**, **Patent families option**, **“Narrow results by” filters**, and **Look up patent** tools are available for searching. Some data can be searched using more than one tool.

Limit options

Limit options are quick and easy ways of searching certain common concepts. Check boxes are available for **Full text** and **Images included**.

The Advanced search page also contains a short list of choices for **Patent publication country**, **Language** and dates. **Date limiters** are available in which you can select single dates or ranges for date of **publication**, **priority**, **application**, and **updated**.

Look up lists

Browse the contents of certain fields by using Look up lists on the Advanced Search page. These are particularly useful for validating spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search boxes. Look up lists are available in the Advanced Search drop-down fields for: **Inventor**, **Patent assignee**, **Publication kind code**, **Classification (CPC)**, **Classification (ECLA)**, **Classification (IPC)**, and **Legal status code (LSC)**.

Individual Look Up lists are also available on the Advanced search options page for: **Patent assignee**, **Inventor**, **Classification (IPC)**, and **Publication kind code**

Sort

Search results can be sorted by **Relevance**, **Publication date (oldest first)** and **Publication date (most recent first)**.

Patent family option

Condense your results to one patent per family by using the patent families search tool on the right-hand panel of the results page. Click “Show one member per family” to reduce the list of results to 1 publication for each patent family. Click “Show all results” to reinstate the full list of results.

“Narrow results by” filters

The results page is accompanied by a list of “Narrow results by” options shown on the right-hand panel. Click on any of these filters to see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. Narrow results by filters include:

Full text, **Patent assignee**, **Patent assignee country**, **Inventor**, **Patent publication country**, **Publication kind code**, **Classification (IPC)**, **Classification (CPC)**, **Classification (ECLA)**, **Legal status**, **Database** (appears when searching multiple databases), and **Publication date**.

Look up patent

If you need help finding a patent, use the Look Up Patent page to enter any known patent details including: Number, Patent title, Assignee, Inventor, any free-text search terms, Publication date, and Application date.

Document formats

Pre-defined document formats are available for viewing and download. Search results can be downloaded with the Download all results, Email, Print and Export/Save options, and when creating an alert.

Each patent document contains the bibliographic data, patent specification, images, claims and legal status, when available. In addition, the complete patent family plus legal status data is provided for each family member related to the main patent of the document.

Document format	Description	Online	Export/Download ¹⁴
