How we can help you with your application

Which nice classes should you include in your availability searches?

Use our product similarity statistics to validate your intuition on what classes are relevant and / or risky

Find the products and classes that are most likely to be a source of conflict to the product for which you are registering your trademark.

Enhance your availability search results

Use our party name search to evaluate the aggressiveness of a found mark's owner

- Is the owner of a found mark aggressively defending its mark?
- Against what other trademark?
- What is their success rate?

Minimize refusal risk

Use our points of law to find grounds for refusal of comparable marks

Evaluate the absolute grounds refusal risk of a mark by analyzing the recent decisions of your local IP office based on the characteristics of the mark you are trying to register.

Register successfully and stay within budget

Offer the highest quality advice, faster

Using Darts-ip in your applications will help you avoid certain pitfalls and have better communication with your clients and stakeholders.

How we can help you with your enforcement

Get statistics on the likelihood of confusion

Use similarity assessment tools to get statistics on the similarity between conflicting marks

The points of law make it easy for you to get an aggregated view of how a certain legal topic is viewed in specific circumstances.

Prepare your cases faster

Use our goods and services comparison to gain a lot of time in finding relevant arguments

Find cases involving the exact goods and services related to your matter. Search using complete nice classes or select a specific product or service.

Know your case law search is complete

Use our trademark search to find the full case history of the opposing mark

Instantly find the case law related to a mark in just seconds and get the peace of mind knowing you have done a complete case law research.

Evaluate your chances in appeal

Find out if your case stands a chance in appeal based on the decision history of a certain court

Search for decisions from an appeal court to see how that court has previously reacted to the argument you are planning to use.

How we can help you with your Trademark litigation

Find all of your opponents' cases

Instantly find all the cases involving a mark or a certain party as plaintiff or defendant, from anywhere in the world

Follow your opponent's behavior in litigation. Are they likely to settle? Have they been successful? What other opponents have they been up against?

Follow your clients and prospects globally

Be aware of your clients' IP cases worldwide and get the bigger picture

Set up alerts and follow the judicial activities of your prospects and clients anywhere in the world.

Find where you have the best chances of winning

Use our statistics to find the court most in favor of your case

Forum shopping has never been more factual than by reviewing and comparing the outcomes, and specific arguments by jurisdiction.

Find arguments the other party will not find

Combine our search tools and find the killer argument hidden in the haystack of cases

Our search tools can be used to get complete overviews but also to find exactly the argument you are looking for.

Value at every stage

Forum shopping

Build your litigation strategy based on comparisons among criteria such as win rates, reversal rate in appeal, or procedural duration in your technical domain and across different jurisdictions.

Claim construction

Find decisions where a term (example: "effective amount" or "consisting essentially of") has been defined by a judge or an examiner, exclusively in your specific industry.

Find the killer argument

Find the UK cases where a given judge, Mr. Justice Arnold, discussed the definition of the knowledge of the skilled person, relevant for assessing sufficiency of disclosure.

What makes us different?

Global insights

The largest collection of global IP cases available anywhere in the world.

Expert analysis

Decisions are analyzed by local experts with legal outcomes and summaries in English.

Specialized IP search tools

A unique set of search tools for finding cases based on criteria such as: points of law, goods / services, verbal characteristics, active ingredient, and more.

Three ways to access the data

01. Search interface

Find the cases that matters

Darts-ip's Image Search tool allows users to run a global, comprehensive trademark case law search in a matter of seconds from their own computer.

Our AI tech is developed in close cooperation with our legal content managers and trademark analysts.

Therefore the underlying algorithm has been refined by practitioners, for practitioners. The results filter is further enhanced through constant training, with the AI processing millions of cases assessing trademark similarity.

This means that practitioners obtain actionable relevant results nearly instantly and process more searches.

02. Reports

When you need to see the forest through the trees

With Darts-ip reports, you can assess the facts and gain new insights to generate local and global strategies without drilling into each individual case in the Darts-ip databases.

Our reports are custom made and can virtually take any form (chart, table,...). Simply tell us what your question is and how you would like to see the data.

03. Case law search services

Gain deep insights into IP case data, on-demand. Request custom IP case law data searches from our litigation services experts to rapidly answer your most complex questions.

Global case law search results are exported and consolidated into PDF format and accompanied by an easy summary document delivered right to your inbox.
