## Efficient, connected IP lifecycle management and decision support

### Maximize operational efficiency

Save time and money by eliminating manual tasks and repetitive steps with intelligent workflow and process automation. Keep pace with increasing volumes of data and filings, while freeing your IP team to focus on higher-level activities.

### Improve collaboration

Collaborate and interact seamlessly with inventors, outside counsel, and other stakeholders from any device in a connected IP ecosystem.

### Access connected services and data

Unmatched service integration offers instant access to a range of tools and data for all your IP assets. IPfolio integrates with the tools you use every day for enterprise legal management (ELM), eSignature and more.

### Reduce risk with reliable data

Easy access to industry-leading Clarivate IP data reduces the risk associated with data errors and helps ensure deadlines are not missed. Automated data verification and enrichment helps ensure accuracy and allows seamless auto-docketing.

### Get actionable insights

Plan and act strategically with analytical insights based on clean, reliable IP data that enable more informed IP decisions.
