Notes

The purpose of the Product Conformance Report is to assist Federal contracting officials and other buyers in making preliminary assessments regarding the availability of commercial “Electronic and Information Technology” products and services with features that support accessibility. Both automated and manual site audits were conducted.

Clarivate remains dedicated to developing products that are usable for everyone, including those with physical challenges and disabilities. Our products are designed to adhere to the United States Government Section 508 accessibility standards.

Evaluation Methods Used

Our most recent accessibility audit was performed using a variety of tools to ensure adherence to WCAG (Web Content Accessibility Guidelines) 2.2 AA standards.

To inform the latest accessibility updates (released in March 2024), an initial audit was conducted by [Deque Systems](#). The audit covered the Author and Admin tabs, as well as the header and footer. Tools included:

- WAVE browser tool
- Axe DevTools

- JAWS
- Color Contrast Analyzer
- Browser text size adjustment

To guide and test the resulting remediation roadmap and changes, an internal audit was conducted, using:

- Deque aXe Accessibility Testing (Chrome Plug-in)
- WebAim's WAVE Evaluation Tool
- WCAG Contrast Checker
- High Contrast (Chrome Plugin)
- VoiceOver
- NVDA
- Manual Keyboard Testing
