

ScholarOne Abstracts Release Notes

# Release v4.17.2

September 2020

# Overview

The *ScholarOne* Product Team is actively engaged in ongoing upgrades to security, performance, and user experience. The following items represent notable improvements made to the platform and tools in this release, as well as key defect fixes and optimizations.

This document also provides information about default configuration values and instructions for configuring each feature. Please note that some features must be activated by an administrator or *ScholarOne* representative for your users to benefit from the new functionality; contact your publisher team or ScholarOne for questions around permission or configurations.

We encourage you to communicate workflow changes to all affected users.

*If you have questions about any of the items included in this release, please reach out to ScholarOne Product Support at [s1abstractshelp@clarivate.com](mailto:s1abstractshelp@clarivate.com).*

## Contents

1. [Payment Bypass](#)
2. [Exporting Files Based on Date](#)
3. [Exporting Specific Files](#)
4. [Title Case in XML and API](#)
5. [Session ID added to Invitation & Email Grid](#)
6. [Host Email added to Admin Search](#)
7. [Withdrawn Status](#)

*Note: This release contains no DTD changes and no ISO changes.*

---

# Release 4.17.2 Updates

## 1. Payment Bypass for Authors

Users

Author
Admin

**Action Required**

This feature will be disabled by default. To activate, please discuss with your Client Implementation Manager.

### Details

Added the ability to flag individual abstracts which would allow them to bypass the required payment for submission.

- This will only appear for abstracts linked to a submission role that requires payment.
- This will also bypass payments if configured for resubmission or open editing.
- This will only be editable from search results if the abstract is in draft, returned to draft, or open edit draft status. For all other statuses, it will be disabled (grayed out).

### Search Results

Abstract Search Results (1 Abstracts Found)

ID	TITLE	CONTACT	STATUS
3468142 <a href="#">Edit</a> <input type="checkbox"/> Bypass Payment	none (Paid Submission)	Forgrave, Kevin	Draft <a href="#">Delete Abstract</a>

Upon checking the box, the admin will receive the pop-up below to confirm the action:

**Allow Submitter to Bypass Payment?** ✕

Are you sure you want to allow the submitter to bypass the payment required for submission?

< No, Close
Yes >

The Date/Time and user who took this action each time the box was either checked/unchecked will be added to the Event Log

**CONTROL ID:** 3468142

**TITLE:** [Title](#)

**SUBMITTER (NAME ONLY):** [Kevin Forgrave](#)

**ABSTRACT STATUS:** Draft [\[Delete Abstract\]](#)

**EVENT LOG:** Abstract Created: created on September 11, 2020, 8:25 AM by Kevin Forgrave

Abstract Modified: Payment Bypass Enabled on September 11, 2020, 8:43 AM by Kevin Forgrave

## 2. Exporting Files from the Export Tool Based on Date

Added the ability to export files based on a specific date range

Users

Admin

### Action Required

This feature is available by default.

### Details

Detail files can now be exported based on a specific date range of when they were uploaded. If the **from** and **to** fields are left blank it will export all files regardless of the date they were uploaded.

Export Speaker Management Files for Sessions XML

From: 09/10/2020  To: 09/30/2020

### 3. Exporting Specific Files from the Export Tool

Added the ability to export specific files from the export tool so you can choose which files you need rather than downloading all files every time.

*Users*

Admin

#### Action Required

This feature is available by default.

**Details**

Export Speaker Management Files for Sessions XML

Select which detail files to export

All  
Manuscript Upload  
Video Upload  
ePoster Upload

---

### 4. Title Case Rules Enforced in XML and API

Added the ability to display Title Case when exporting data from the export tool or through the API. These rules were based on the APA style guide.

*Users*

Admin

#### Action Required

This feature will be disabled by default. To activate, please discuss with your Client Implementation Manager.

### Details

- Capitalize the first word of the title/heading
- Capitalize all “major” words (nouns, verbs, adjectives, adverbs, and pronouns) in the title/heading, including the second part of hyphenated major words (e.g., *Self-Report* not *Self-report*)
- Capitalize all words of four letters or more.
- Enforce lowercase only for “minor” words of three letters or fewer, namely, for conjunctions (words like *and*, *or*, *nor*, and *but*), articles (the words *a*, *an*, and *the*), and prepositions (words like *as*, *at*, *by*, *for*, *in*, *of*, *on*, *per*, and *to*), as long as they aren’t the first word in a title.

We also added the ability to input a list of words that would ignore the Title Case rules listed above. This list can be accessed under Client **Configuration > General Configuration**.

Title Case Override List [Edit](#)

## 5. Session ID added to Invitation & Email Grid

We added a column to display the session ID in the Invitation & Email Grid

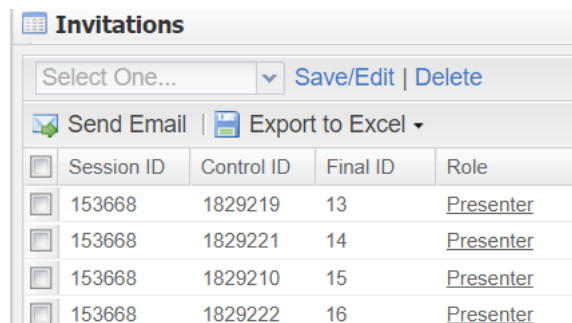

Users

**Admin**

**Action Required**  
This feature is available by default.

### Details

Session ID can now be added as a display column in the Invitation & Email grid.

Invitations				
Select One...		Save/Edit   Delete		
Send Email		Export to Excel		
<input type="checkbox"/>	Session ID	Control ID	Final ID	Role
<input type="checkbox"/>	153668	1829219	13	<a href="#">Presenter</a>
<input type="checkbox"/>	153668	1829221	14	<a href="#">Presenter</a>
<input type="checkbox"/>	153668	1829210	15	<a href="#">Presenter</a>
<input type="checkbox"/>	153668	1829222	16	<a href="#">Presenter</a>

---

## 6. Host Email added to Admin Search

Session Host emails have been added as a display item to **Admin Search**.

*Users*

**Admin**

### Action Required

This feature is available by default.

### Details

Select Display Items ⓘ [Edit](#)

session | host email

+ Add

**SESSION HOST EMAIL**

---

## 7. Withdrawn Abstracts

Withdrawn abstracts that are removed from its session will keep the status of withdrawn.

*Users*

**Sessioner**

**Admin**

### Action Required

This feature is available by default.

### Details

- This will only account for a true withdrawal and not to an abstract where the session withdraw was used.
- If the abstract is unwithdrawn it will go back to the status it was before it was put into the session.

## Notable Defect Fixes & Functionality Optimizations

---

### Note

ScholarOne deploys several patches and hotfixes between releases, ensuring that our users experience constant improvements to the platform. Many of these are driven by internal teams to optimize processes and therefore do not affect workflows. If you have questions about any of these changes, however, please reach out to Support.

- **Topic Owners**
  - Fixed an issue where topic owners couldn't edit sessions assigned to their topic.
- **Event Log**
  - Fixed an issue where the event log showed entries saying the admin edited an abstract, even though they hadn't.
- **Export Tool**
  - Fixed an issue where some zip files were running into a 504-gateway time-out error when attempting to download.
- **Session XML**
  - Fixed an issue where only details linked to the most recent message templates are included in the sessions XML even when the detail was answered.
