

## Derwent Innovation

# Find and analyze the most relevant patents to inform IP and business decisions

Powering the innovation lifecycle from idea to commercialization

The pace of technology change is unprecedented with new sectors emerging and others converging, while rapidly-growing emerging economies provide tremendous opportunities. At the same time, companies waste billions filing for patents that are not granted, and mistakes in freedom to operate (FTO) result in costly litigation and product changes.

*Derwent Innovation* provides trusted patent data and tools to monitor technology trends and competitive landscapes, inform FTO opinions, prosecute patents, monetize and license assets and support litigation activities.

### Patent Litigation

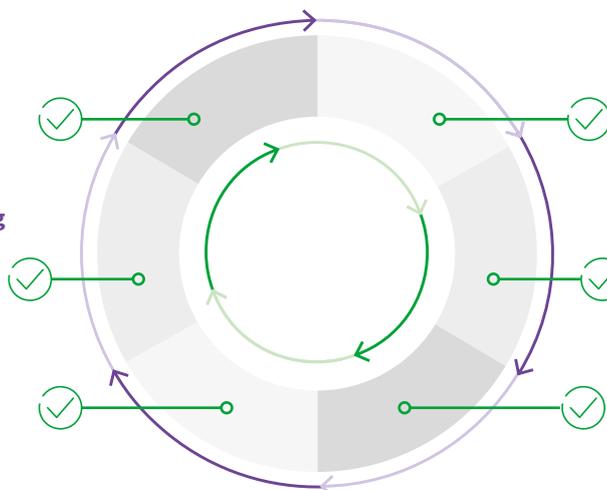

Quickly find the insights you need when defending against infringement suits

### Monetization and Licensing

Leverage citation analytics to identify new opportunities for existing IP

### Patent Prosecution

Reduce costs and improve patent grant rates

### Innovation Landscape

Inform R&D spend with a comprehensive view of the innovation landscape

### Competitive Intelligence

Identify new entrants that present a threat

### Freedom to Operate

Undertake FTO searches with confidence, in less time
