

PRODUCT / SERVICE TERMS

These Product/Service terms apply to certain products and services that you access through our platform(s), website(s) or are otherwise identified in your order form, statement of work or other ordering document (collectively “order form”). If you have ordered or are accessing a product or service that is not listed below, then this document does not apply to your order. “We”, “our” and “Clarivate” means the Clarivate entity that is providing the product(s) or service(s) concerned and, where applicable, its affiliates.

Web of Science & InCites APIs

- 1. Applicability.** The following terms apply to your use of Web of Science API-Expanded, Web of Science API-Lite, Web of Science API-Article Match Retrieval or InCites, as applicable.
- 2. Access.** You may request access to the API through the Clarivate Developer Portal available at <https://developer.clarivate.com/>, your Sales Representative or Sales Support. You are responsible for requesting access. The data available through the API is limited to the data available through your subscription license and may only be accessed by the same users who are permitted access by your subscription. The API will close upon exceeding the number of queries and records permitted by your subscription. If your subscription license to the data delivered via the API terminates or expires, your rights to the API simultaneously terminate and any data you downloaded must be deleted unless we provide written authorization or mutually agree in writing otherwise.
- 3. Service.** API refers to the application programming interface connecting you with the data fields set out below which may be updated by us from time to time. To the extent the licensed data includes data from third parties, you must ensure you have all required approvals for such use. For the duration of your license and for 3 years thereafter, you must maintain adequate records relating to your use of our data and the API, including the number of users, locations, and any associated charges. If reasonably requested, you must provide us with this information.
- 4. License.** You may use the API to access the Data Fields in accordance with the applicable License Level, in each case as permitted by your subscription and set forth below, for the following uses:
 - (a)** to view, use, download and print such data fields for individual academic use;
 - (b)** to perform specific research or numerical or statistical analyses to produce reports in support of scientific endeavors;
 - (c)** to extract, maintain and display data in an institutional repository on websites owned, maintained and controlled by you, including your intranet and your own publicly-accessible websites. Such institutional repository may only include data regarding materials authored by your faculty, students or affiliated researchers and, where such institutional repository is publicly-accessible, may only include the Data Fields that may be publicly displayed as set forth below;
 - (d)** on an infrequent, irregular and ad hoc basis to distribute limited extracts of our data that have no independent commercial value and to share data and reports across academic collaborations, in each case in the ordinary course of your academic research and provided our data may not be further distributed or used for any other purpose, including as a substitute for any service (or a substantial part of it) provided by us, our affiliates or third party providers; and
 - (e)** to publicly display certain Data Fields, as set out below.

License Level

The volume of data that you may pull through the API for each product is set forth below. Your license level for Web of Science API – Expanded defaults to Basic unless stated otherwise on your order form.

	Web of Science API – Expanded				Web of Science API - Lite	Web of Science API - Article Match Retrieval	InCites -API
	Basic	Intermediate	Advanced	Premium

5. Approved Third Party Solutions. You may use the API with the Clarivate-approved third party solutions listed below which may be updated by us from time to time. No other third party commercial solutions are permitted to be used without obtaining our prior written consent.

- | | |
|-------------------------------|---------------------------------------|
| - Cosmotron | - ProQuest 360 Search |
| - Interfolio (Data180) | - ReadCube (formerlyMekentosj Papers) |
| - Deep Web | - Suweco |
| - Digital Measures | - Symplectic |
| - EBSCOhost Integrated Search | - Third Street Software Sente |
| - Elsevier Pure | - VIVO |
| - ExLibris MetaLib | |
| - inno360 | |

As applicable, each document record in an approved third party solution that contains our data must link back to the applicable record, and any citation count must link back to the cited-by list for the respective document.

6. Attribution. For Web of Science data, you must provide us with attribution as described below:___

Notices

The following copyright notice must appear at the bottom of every page or table that shows Web of Science content:

© [insert year] Clarivate

All usage of our data including in reports must include the following notice:

“Certain data included herein are derived from the © [specified product name] (date) of Clarivate. All rights reserved. You may not copy or re-distribute this material in whole or in part without the prior written consent of Clarivate.”

How to display links to Web of Science in Third Party Software

When linking to the Web of Science from third party software, the text that should appear on the user interface is dependent on link type (see table below). The text should be hyperlinked, redirecting the user to the appropriate page in Web of Science. The product name must be italicized.

Link type	Text to display
Full Record Link	View record in <i>Web of Science</i>
Citing Articles Link (if not anchored to the Times Cited Count)	View citing articles in <i>Web of Science</i>

How to display Web of Science Times Cited Count and related Citing Articles Link in Third Party Software

When displaying the Web of Science Times Cited Count or a Citing Articles Link anchored to the Web of Science Times Cited Count, the third party software should identify that the Times Cited Count is from the Web of Science, pre-pending display of the count with the text “Web of Science Times Cited” as set out in the example below. If the third party software provider so chooses, the third party software provider may hyperlink the number presented to redirect the user to the citing articles page in the Web of Science.

Example: *Web of Science* Times Cited: 35

7. Definitions.

Query: A constructed search run against the API intended to return a set of records.

Record: Full-record metadata as returned by the API (up to a maximum of 100 items per request based on the actual response not including unique records).

Request: A request is a call to any of the operations/endpoints which may or may not be considered a query.

User Token: A credential issued by Clarivate for the purpose of accessing the API.
