

Ketan Patel

Vice President, Cortellis Product Platform

Ketan Patel heads up the Clinical, Regulatory and Competitive Intelligence product development team for Cortellis™, a Clarivate solution. He has fifteen years of experience in the pharmaceutical industry having begun his career in early discovery research for Eli Lilly and Company before moving to a more translational research role at Pfizer. Most recently, before joining Clarivate, Ketan worked for AstraZeneca in the health informatics domain. He has also worked in the technology space for the likes of Oracle and Teradata.
