Introduction and strategy

At Clarivate, sustainability isn’t something we do; it’s everything we do. Our vision is to improve the way the world creates, protects and advances progress, working together with our customers, colleagues and partners.

Jerre Stead
Clarivate, Executive Chair and CEO

Our solutions and deep domain expertise help our customers solve some of the world’s most complex challenges, including the development and launch of life-changing drugs and treatments, helping leading academic institutions educate the next generation of pioneers, helping companies innovate world-changing technologies and advancing sustainable resource use.

We believe that the path to achieving our vision relies on a steady commitment to our core values: aim for greatness, value every voice and own our actions. This includes acting with care, operating ethically and efficiently, and partnering with others to accelerate progress across all three pillars of Environment, Social and Governance (ESG).

In 2021, we made excellent progress having published our first annual sustainability report. We are proud to be part of the global community of business leaders, as signatories to the United Nations Global Compact, United Nations Women’s Empowerment Principles, CEO Action on Diversity and Inclusion and the Stonewall Transgender Rights are Human Rights campaign. We captured and reported out for the first time on our environmental metrics and impact of our global operations and business travel, and published comprehensive social metrics as we continue to better understand and advance a diverse workforce and a culture of belonging. Clarivate colleagues volunteered more than 14,000 hours in our communities globally and we continue to provide 40 hours of paid time off for all colleagues to make a positive impact in their communities. I could not be prouder of how our Clarivate colleagues continue to progress our efforts towards responsible business practices and customer impact, to advance a more sustainable and healthy world.

In 2022, we are focused on continuing our efforts to address climate change, committing to set a science-based target and achieving carbon-neutrality by 2024 on our journey to a net-zero future. We are working to increase the visibility of ESG throughout our value chain, connecting all we do – in how we operate and how we innovate – to the UN Sustainable Development Goals (SDGs). We know that partnering with others is key to achieving our vision of helping our customers innovate to address the world’s greatest challenges and opportunities. We are proud to have donated 100,000 USD to support humanitarian efforts in Ukraine, allocating funds to two vital organizations, Nova Ukraine and International Medical Corps. We are also committed to aligning executive pay to performance against ESG goals by the beginning of 2024, to ensure we maintain the highest level of performance in all areas. We are making great progress towards our ambitious goals to become one of the top companies to work for and to be listed on both the Dow Jones Sustainability Index and FTSE4GOOD Index based on our 2023 performance. With 46% of our 2021 revenue aligned with the Sustainable Development Goals, we are proud of our progress in helping our customers innovate in solving some of the most pressing global issues, from climate change to disease management to sustainable resource use.

It is our pleasure to share with you our progress and way forward in our second annual sustainability report. We thank you for your interest in our progress and welcome your feedback, and partnership, in our efforts to build a sustainable company that is set up for long-term success.

With deep appreciation,
About Clarivate

As a global leader in providing trusted insights and analytics to accelerate the pace of progress, our vision at Clarivate is to improve the way the world creates, protects and advances progress.

We do this by partnering with our customers to deliver critical data, information, workflow solutions and deep domain expertise – continuously supporting the world’s pioneers, risk-takers and trailblazers.

Our customers are some of the world’s leading researchers and problem solvers. More than 45,000 universities, non-profits, funding organizations, libraries, corporations, law firms, government organizations and independent researchers trust us to help them reduce risk and accelerate the pace of discovering, protecting, and commercializing new ideas.

When it comes to sustainability, it is not just something we do. It is everything we do. We have woven it into the fabric of our corporate culture worldwide, making it fundamental to every decision we make whether it involves our global footprint or supplier relationship. We have created an interconnected, shared purpose and a strong operating philosophy that guides the actions of our leadership and colleagues worldwide.

All these elements are built on the foundation of our clear purpose, vision and mission, underpinned by our values to guide our colleagues in everything they do – so our collective focus is growth for the greater good.

Our core values are cultural cornerstones that guide our actions from the day-to-day decisions we make to how we interact with each other to how we prioritize building trusted partnerships with each and every customer, worldwide.

---

When it comes to sustainability, it is not just something we do. It is everything we do.

Our Purpose, Vision and Mission

- **Our Purpose:** We believe human ingenuity can transform the world and improve our future.

- **Our vision:** We will improve the way the world creates, protects and advances innovation.

- **Our mission:** We are a trusted indispensable partner to innovators everywhere delivering critical data information, workflow solutions and deep domain expertise.

- **Aim for greatness:** We challenge the status quo, pursuing continuous performance improvements and aiming for greatness and Customer Delight in all we do.

- **Value every voice:** We work together in respectful partnership with our colleagues and customers which is our evergreen source of sustainability and success. The best results come from a diverse, collaborative and inclusive environment.

- **Own your actions:** We act with integrity and are accountable to ourselves, our colleagues, our customers and our communities.
Shareholder engagement

Proactive, transparent engagement with our shareholders is essential to our success, especially when it comes to our commitments to protecting the environment, diversity and corporate governance. We have designed our disclosures to be as open and clear as possible in order to fuel insightful discussions and gain valuable input and feedback for our programs.

We have openly discussed our executive compensation and corporate governance practices with our shareholders. We will continue to reach out on these types of issues, enabling our shareholders to help focus on meaningful priorities, drive accountability and shape our future programs. By the beginning of 2024, we will align executive pay to performance against ESG goals.

We focus on helping professionals in the fields of:

- Academia
- Corporate
- Government
- Professional services
- Life sciences and healthcare
- Consumer
- Manufacturing
- Technology

This includes caring for our colleagues and customers, operating ethically and efficiently, and partnering wherever possible to create the world we want today, and to ensure its sustainability for future generations to come.
Governance to support focus, progress and accountability

Nominating, Governance and Sustainability Committee

Sustainability is a topic of every Board meeting with dedicated oversight from the Nominating, Governance and Sustainability Committee which reports into the Board. The Committee consists of three directors satisfying the independence requirements of the New York Stock Exchange (NYSE).

The Committee assesses Board composition, identifies Board skills needed and determines Board training required to address ESG issues. The Committee also oversees our leadership’s development of analyses and metrics to understand the impact of ESG and stakeholder interests on our company in addition to overseeing the integration and balancing of these interests to promote long-term success at Clarivate.

Sustainability Steering Committee

The Sustainability Steering Committee was created to ensure our sustainability initiatives remain top of mind across Clarivate and to strategically advance our commitments to action across all functions, groups and teams globally. Committee members identify strategic priorities to fulfill our organizational purpose and create long-term stakeholder value.

The Committee meets monthly and reports progress to our Executive Chair and CEO, Jerre Stead, as well as our Executive Leadership Team (ELT) and our Board of Directors’ Nominating, Governance and Sustainability Committee.

Key objectives

• Lead, support and execute strategic priorities within key areas of responsibility based on agreed scope and budget
• Provide consistent stewardship and visibility around our sustainability commitments worldwide
• Provide necessary updates, information and metrics to drive comprehensive, transparent reporting and communication of our ongoing sustainability efforts

Global leadership commitments

• United Nations Global Compact
• United Nations Women’s Empowerment Principles (WEPs)
• CEO Action on Diversity & Inclusion
• U.K. Stonewall Trans Rights are Human Rights initiative
• Science-Based Target initiative

Our methodology

Our annual sustainability report is aligned with the following reporting frameworks: UN Sustainable Development Goals, Global Reporting Initiative (GRI) and SASB.

Resource: Nominating, Governance and Sustainability Committee Charter

Board of directors
Endorses ESG vision as part of annual strategy review

Sustainability Steering Committee
Facilitates ESG strategy and oversight, guides and enables category owners

Our vision statements
Advancing customer innovation, market growth and company brand by aligning and building sustainability into Clarivate solutions.
Implementing world-class responsible business practices strengthening ESG throughout our supply chain.
Developing and implementing a comprehensive climate transition plan towards carbon neutrality and eco-efficiency across our operations.
Facilitating and strengthening strategic business and community partnerships across the value chain, in support of advancing the sustainable development goals.
Prioritizing diversity and inclusion throughout our colleague journey, creating a culture of belonging.

Board Committees

• Nominating, Governance and Sustainability Committee
• Human Resources and Compensation Committee
• Risk Committee
• Audit Committee
Our bold commitments towards recognized leadership in sustainability

As we continue to integrate sustainability and ESG into everything we do at Clarivate, all of our actions and commitments roll up into two overarching goals.

01
To achieve leadership in driving sustainability by providing tangible solutions that help our customers advance SDGs worldwide.

02
To implement responsible business practices across our entire business and expect everyone we do business with to do the same.

Some of the bold, ambitious commitments we have made to support these goals include being listed on the Dow Jones Sustainability Index (DJSI) and being carbon neutral by 2024. Currently, 46% of our revenue at Clarivate is aligned with SDGs. We expect this number to climb over the next couple of years as we swiftly move forward with executing our climate transition plan, setting a Science-Based Target and remaining laser focused on attaining a net-zero future. We plan to announce specific net-zero timelines by the end of 2022.

Our ESG strategy

Our ESG strategy continues to evolve as we shape and refine it through materiality mapping to address the needs of our key stakeholders and focus on the issues and priorities that matter most.

We are boldly integrating sustainability into everything we do, ensuring our strategic priorities are focused on advancing a more sustainable world through our customer impact and by operating sustainably through responsible business practices. We recognize our unique role in advancing innovation to drive ESG and have mapped our products and services to the UN Sustainable Development Goals, directly impacting all 17.

"One of our most valuable milestones when it comes to driving responsible business practices at Clarivate is our framework for quantifying our contribution towards the 17 United Nations Sustainable Development Goals. This highlights our product portfolio’s contribution to SDGs, helps us focus on where we can drive maximum impact now and enables us to further accelerate our contributions by embedding sustainability into our culture and long-term business strategy."

Tiffani Shaw, Chief of Staff

2021 Clarivate sustainability report
Mapping our solutions to UN Sustainable Development Goals

46% of Clarivate revenue is aligned with UN Sustainable Development Goals

51% of companies ranked in the Dow Jones Sustainability World Index work in partnership with us

Our impact spans all 17 UN Sustainable Development Goals (SDGs)³

Our team mapped the breadth and depth of coverage within Clarivate solutions against all the SDGs to identify where we have an impact. We then ranked our impact across each of the 17 SDGs, determining those that are most important based on our current SDG alignment as well as our potential to increase SDG alignment. We used the chart below to prioritize four SDGs for maximum impact.

---

³There is currently no industry standard methodology for reporting individual sustainable development goals and reporting frameworks may vary. Clarivate has scored its performance against the United Nations Sustainable Development Goals based solely on data available at this time and the output and scoring can alter over time due to future Clarivate activities or an obligation to update or revise these statements, except as otherwise required by applicable law.
Our focus on the four SDGs where we can make the strongest impact

By mapping our solutions to the 17 UN Sustainable Development Goals, we gained a clear view of our current state, identified 4 key focus areas where we can make the biggest impact and uncovered opportunities where we can continue to embed sustainability into our business strategy to broaden our impact worldwide.

Ensure healthy lives and promote wellbeing for all at all ages

- 80M+ patients supported through chronic diseases by improving understanding of their medicines

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

- 130M+ students use our solutions to enhance their learning and research experience

Build resilient infrastructure, promote sustainable industrialization and foster innovation

- 48/50 of the top R&D companies work with us to accelerate innovation

Ensure sustainable consumption and production patterns

- 26K+ public and academic libraries rely on our solutions

Combating COVID-19 with human ingenuity

- 2.5M+ inventions in the Derwent World Patent Index™ relate to green energy technologies

Clarivate helps customers develop sustainable innovations and establish, protect and promote sustainability-focused brands to help consumers make sustainable consumption choices

Ensure healthy lives and promote wellbeing for all at all ages

- 2021 Clarivate sustainability report

"At Clarivate we are committed to integrating our portfolio of data, software and insights to help our customers deliver better, more impactful solutions that advance global sustainability and improve the quality of people’s lives."

Gordon Samson, Chief Product Officer

Gordon Samson, Chief Product Officer
Materiality and our commitment to stakeholder engagement

When it comes to driving long-term sustainability, we know that early stakeholder engagement provides opportunities to further align our actions with the key Environmental, Social and Governance needs and expectations across our company.

In short, we’re improving our chances of success. To do this, we leveraged our Enterprise Risk Management (ERM) program to engage stakeholders in our Sustainability dialogue and identify wider issues to consider, improving clarity, decision-making and accountability. Below are some highlights of our process.

- To assess the importance to our business, we reviewed and synthesized 12 material issues and mapped them to our three sustainability pillars based on our assessment results, making sure to consider any top risks we identified.
- To assess the importance to our stakeholders, we engaged four stakeholder groups to help us establish our material ESG issues based on importance. We analyzed investor ESG ratings (S&P CSA, Bloomberg ESG, MSCI, Sustainalytics, ISS ESG), customer ESG survey (EcoVadis), regulatory frameworks (TCFD, EU Taxonomy, SASB) and colleague feedback to identify the level of importance for our 12 topics.
- Finally, we added the values from the first two exercises to our materiality map and came up with the most relevant, impactful topics for our business. Please see the map to the right for more details.

We strive to be a leader in all material priorities by continuously improving our results and corresponding ratings and expanding our performance disclosure on ESG targets as we advance our strategy and plan. In addition, we have identified new targets and will add them to our external disclosures for full accountability and transparency moving forward.

"With the increasing global focus on sustainability, we are actively engaging with our shareholders to identify key topics we should address as part of our long-term ESG strategy. We are determined to be a leading sustainable company, which will help to attract new shareholders aligned with our ESG goals."

Mark Donohue, Vice President, Investor Relations

2021 milestones and 2022 goals

By advancing our sustainability mission across our entire company and beyond, we made significant progress with our Environmental, Social and Governance programs in 2021.

As we engage more deeply with our stakeholders, lean into our values and adopt an aggressive roadmap for our journey forward to sustainability leadership, our 2022 goals are possible because of the solid foundation we are building based on our commitments to our people, communities and the environment.

Environment

Become carbon neutral by 2024, towards a net-zero future

2021 milestones
Published environmental metrics for 100% of our 43 workplaces and air travel emissions excluding ProQuest and 3rd party locations

2022 goals
Publish environmental metrics for 100% of our workplaces and air travel emissions including ProQuest, excluding 3rd party locations

2021 milestones
Signed up with Task Force on Climate Related Disclosure (TCFD) as supporter

2022 goals
Align with Task Force on Climate Related Disclosure (TCFD) requirements

2021 milestones
Informed Science-Based Target initiative (SBTi) of our intention to set a 1.5°C Science based target

2022 goals
Commit to setting a Science Based Target (SBT)

Supply chain sustainability and diversity

2021 milestones
Evaluated ESG performance of over 100 suppliers, representing nearly 38% of supplier spend

2022 goals
Increase ESG evaluation of total supplier spend from 27% to 30% with a stretch goal of 33%

*2022 goals reflect 2021 acquisition spend
### Social

**Increase engagement score from 75% to 77% by the end of 2022**

<table>

</tbody>
</table>

### Ethics and integrity

**2021 milestones**
- Elevated accountability of Sustainability, now part of the Board Nominating, Governance, and Sustainability Committee

**2022 goals**
- The Nominating, Governance and Sustainability Committee will assess board composition, identify board skills needed and determine board training required to address ESG issues

### Strong corporate governance

**2021 milestones**
- Published the Board diversity statement and updated the modern slavery statement

**2022 goals**
- Achieved ISO 27001 in recognition of the critical importance of information security, in addition to maintaining a robust privacy center

### Data security and privacy

**2021 milestones**
- Achieved ISO 27001 in recognition of the critical importance of information security, in addition to maintaining a robust privacy center

**2022 goals**
- Normalize Security tooling across acquired environments
Customers

Our commitment to surpass customer expectations

At Clarivate, we believe that the best results come from strong, authentic partnerships between our colleagues and customers. Our commitments to Customer Delight include aiming to surpass expectations, anticipate needs and continuously ask for feedback to build a long-term, positive experience.

Delighting our customers with passion and purpose

In 2021, more than 30,000 customers shared their feedback specific to five critical questions in our global Customer Delight survey.

We asked our customers five critical questions specific to:

- Information and insights
- Quality of solutions
- Ease of doing business
- Value of solutions
- Positive interactions

Despite a multitude of challenges impacting customer satisfaction scores across many industries last year, Clarivate improved customer satisfaction three points overall. We don’t take this improvement for granted because we know it takes focus, hard work and continuous progress to delight our customers. ‘Make it easy’ became our mantra and top priority of our Customer Care team which resulted in consistent improvements across all solutions and geographic regions. We still have more work to do and will continue to focus on the following areas to improve Customer Delight year over year:

- Make our solutions more user-friendly
- Deliver our content to our customers faster
- Improve our responsiveness across all key customer touchpoints

Customer Delight survey satisfied respondents

2021 milestones

- 30,000+ customers responded to our Customer Delight survey in 2021
- 107 restricted stock units (RSUs) awarded to all eligible colleagues for hitting the 2021 stretch goal
- 100% of colleagues completed our Customer Delight Certification

2022 goals

- All colleagues have a Customer Delight performance goal
- Establish a new Customer Delight baseline score by adding in all 2021 acquisitions
- Increase from 75% to 77 measured in bi-annual Customer Delight survey

*We are using 75 as our new “baseline” score for 2021 after adding in customers from our ProQuest acquisition.*
Accessibility to our digital brand

Promoting a more accessible, inclusive user experience

The diverse needs of our colleagues and customers are the center of our digital communications strategy to reduce barriers to equality and create inclusive, engaging interactions aligned with our values.

Key focus areas

- **Customer Delight** – Our accessibility principles are closely related to general usability, and both aim to define and deliver simpler, more intuitive user experience of our brand.

- **Diversity, Equity, Inclusion and Belonging** – Considering users with disabilities is an essential aspect of diversity and inclusion planning. The non-discrimination or accessibility laws of many countries specifically refer to enabling web accessibility.

- **Sustainability** – The internet is responsible for roughly one billion tonnes of greenhouse gases a year. However, developing elegant digital first solutions, we can provide inclusive access to information and reduce our digital carbon footprint.

The four pillars of accessibility compliance according to Web Content Accessibility Guidelines (WCAG)

- **Perceivable** – Website information and the user interface must be available to view and understand by all users, regardless of disability.

- **Operable** – Users should be able to interact with web content using a variety of adaptive devices, including keyboard, mouse, screen readers, etc.

- **Understandable** – Interaction and content should be easy to understand for as many people as possible.

- **Robust** – Web content should work well across browsers and platforms, including assistive technologies.

**2021 milestones**

- WAVE accessibility rank for Clarivate.com increased from the 53rd percentile (WebAIM Million) to 66th percentile

**2022 goals**

- Continue our progress towards achieving "AA" compliance with our website
- Expand accessibility testing and assess solutions to improve pdf resources

"Considering accessibility allows us to pursue truly people-centric design, contributing to customer delight across our brand touchpoints”

Stuart Simpson, Design Director
Environment

At Clarivate, prioritizing environmental stewardship is not a new concept.

Over the last couple of years, we have amplified our actions and elevated our focus on protecting and preserving the environment. Through our products and services, we help customers develop sustainable innovations and establish, protect and promote sustainability-focused brands to help consumers make better sustainable consumption choices.
Climate change requires resolute and accelerated action. At Clarivate, we are committed to doing our part to create a better world today, and for future generations. Being carbon neutral means staying focused as a company to identify and deliver bold solutions as the world comes together to address climate change. We know that's not enough. We have committed to setting a science-based target and to achieving a net-zero future. We support these ambitious goals by being members of the Business Ambition for 1.5 campaign—an urgent call to action from a global coalition of UN agencies, business and industry leaders, in partnership with Race to Zero.

Our approach

Our approach to attaining carbon neutrality by 2024 is fundamental to being a responsible, sustainable company. We aim to operate eco-efficiently across everywhere we work, from our mailroom to our boardroom, our home offices, supply chain and beyond. Our carbon neutral journey began with obtaining accurate data, reliable measurement and a solid understanding of our current emissions output. We are partnering with JLL to build a comprehensive climate transition plan that includes setting an ambitious Science-Based Target.

"From my perspective, sustainability is cause and effect, where one thing leads to another, and everything is interconnected. Reducing our carbon footprint across our global real estate portfolio will reduce our consumption at the source, enabling us to achieve a more sustainable, long-term result versus implementing solutions after the fact."

Jason Nichols, Vice President, Real Estate and Facilities

2021 milestones

- Published environmental metrics for 100% of our 43 workplaces and air travel excluding ProQuest and 3rd party locations
- Carbon reporting is based on the AA1000 Assurance Standard (AA1000AS v3) and the AA1000 Accountability Principles
- Developed comprehensive plan and drove positive momentum to meet our goal to be carbon neutral by 2024
- Launched global environment and climate change focused Colleague Resource Group, Element

2022 goals

- Publish environmental metrics for 100% of our workplaces and air travel emissions including ProQuest, excluding 3rd party locations
- Align with Task Force on Climate Related Disclosure (TCFD) requirements
- Commit to setting a Science Based Target (SBT)
- Participate in 6-month UN Global Compact Climate Ambition Accelerator

Guiding environmental sustainability with data driven insights

At Clarivate, one of our guiding principles is, “facts are our friends.” We believe data are the foundation for truth and transparency and are using it to understand why strong environmental stewardship is essential and where we can make the greatest impact now and in the future. Through our materiality mapping, we ensure stakeholder alignment in becoming carbon neutral and operating eco-efficiently in all we do.

Our approach

As part of our commitment to carbon neutrality by 2024, Clarivate is working with JLL, a leading global real estate services company, to establish a baseline for our carbon footprint and to implement a comprehensive carbon transition plan towards a net-zero future. Since we maintain a fully leased real estate portfolio, with energy primarily procured through our various landlords around the world, our current carbon emissions are predominantly categorized as Scope 3, meaning indirect emissions that occur in our value chain. We are continuing to track and report consumption by fuel source wherever data is available.

Of the 43 workplaces cited in the report, covering 1,012,242 square feet, we have received specific data (directly metered or sub-metered) for 61% of the square footage. For an additional 28% of the square footage, a landlord calculates our usage based on the space we occupy because they do not have submetering capability. This leaves 11% of space unaccounted for, so we have instead used benchmarks for these areas. In these instances, we used location-based carbon emissions from either country-specific sources (e.g. U.K. Greenhouse Gas Protocol) or the factors given by the International Energy Agency (IEA).

Important to note, we’re using the 2019 calendar year to develop our realistic carbon footprint baseline since 2020 operations were severely disrupted by the global pandemic. In 2021, we made great improvement and have expanded our overall visibility and data collection. The data is key to truly understanding our impacts and to further implement effective reduction and mitigation efforts.

### Electricity consumption

Our growing list of sustainability certifications

We know sustainability credentials such as green building and sustainability certifications matter. As a company that leases our workplaces around the world, we choose to work with organizations who are also committed to sustainability, as evidenced through their actions, such as the use of renewables, eco-efficient business practices, and seeking third-party certification such as LEED, Energy Star and NABERS.

12 out of our 43 worksites have green building certifications

2021 Clarivate sustainability report 18
Advancing our ethical, sustainable supply chain

When it comes to sustainability, we know we cannot go it alone. To impact global change, we are making a conscious choice to engage with suppliers who align with our sustainability goals – whose solutions and services are produced in a way that treat people and the environment ethically and responsibly.

Our approach

With the help of EcoVadis, a supply chain sustainability ratings platform, we are evaluating our suppliers for their sustainability policies, ratings, implementation measures and more. Our goal is to have better insights into all aspects of supplier responsibility and diversity. We are using data to make more responsible, impactful decisions about who we partner with and to build a resilient and sustainable supply chain.

"Sustainability is not possible without embedding it throughout our entire global supply chain. Where we purchase, what we purchase, how we purchase and from whom we purchase all matter in advancing a better world for tomorrow."

Peter Frein, Vice President, Procurement

</tbody>
</table>

Metrics to help us better understand and advance supplier diversity

- Track number and percent of suppliers against our spend, completing a comprehensive sustainability assessment, using EcoVadis analysis of 78 management indicators, across 21 sustainability criteria
- Understand the performance of suppliers in all aspects of Environmental, Social and Governance criteria
- Ongoing review of Clarivate suppliers to positively impact and drive a more sustainable supply chain

38% of supplier spend has gone through ESG assessment (2021 target was 35%)⁶

All suppliers are required to agree to our Supply Chain Code of Conduct which is included in Clarivate standard agreements and our PO Terms and Conditions.

2021 target was 100%.

Resources: Supply Chain Code of Conduct, Anti-Bribery and Anti-Corruption Policy

⁶2021 Milestones are based on 2020 spend from NetSuite
Our approach

As we advance towards achieving our sustainability milestones, we’re looking across our entire supply chain for ways to integrate sustainability principles. One area where we’re focusing these efforts targets the promotional merchandise we source and whom we source from. We strive to ensure that everything that carries our brand is selected and sourced in accordance with one or more of the following eight guiding sustainability principles.

- **Recycled**: Using recycled materials with post-consumer recycled content greater than 10%
- **Locally sourced**: Purchasing closest to delivery location to minimize carbon footprint
- **Non-hazardous**: Does not contain known hazardous materials such as Bisphenol A (BPA)
- **Durable and reusable**: Selecting durable versus one-time use disposable products such as reusable cups, mugs and water bottles
- **FSC certified**: Ensuring Forest Stewardship Council (FSC) certification (paper products only)
- **Renewable**: Consisting of rapidly renewable materials of greater than 50%
- **Waste reducing**: Choosing items that have an identifiable waste reducing impact such as being made from biodegradable or compostable materials that can be recycled
- **Sustainable suppliers**: Using suppliers that are recognized sustainability leaders, through their policies and/or certifications.

Rapidly renewable materials are natural, non-petroleum-based materials that have forest cycles under 10 years.
Social

Our commitment to social sustainability

At Clarivate, we are committed to proactively identifying and continuously improving the experience of colleagues, customers, suppliers and the impact we have in our communities. We recognize and respect the significance of every relationship we engage in and have made it one of our core values – value every voice.
Prioritizing people and our social responsibility

Our approach

At Clarivate, our people are our greatest competitive advantage. We are proud to be a tapestry of diverse backgrounds, cultures and experiences focused on delivering peerless progress, trust and Customer Delight.

We have made creating a connected, rewarding colleague experience a top priority, where every colleague can find purpose in their work and enjoy a true sense of belonging. To achieve our goal of being recognized as one of the best companies in the world to work for, means we must continuously invest time and resources into developing and implementing world class programs to attract, retain and engage a talented and diverse workforce. Our success is only possible through the great work, commitment and creativity of our people.

"Our strategic commitment to addressing diversity and inclusion and building a culture focused on social responsibility continues to be a high priority in order to drive real, lasting change. Our goal is to enable our colleagues around the world to thrive with opportunities to learn, engage and grow – all positively impacting our overall success in the long-term."

Julie Wilson, Chief People Officer and Executive Sponsor of Spectrum Colleague Resource Group

---

We did not reach our target engagement score in 2021 due to the post-acquisition integration of CPA Global into our larger colleague population. Going forward based on our learnings, we have enhanced our colleague onboarding and integration process to create a more understanding of our culture of inclusion and belonging.
Human rights – a shared imperative for sustainable development

Our approach

One of our core company values at Clarivate is ‘value every voice.’ As we work together to bring this concept to life, we believe in treating everyone the same, no matter the person’s background, culture or situation in life. We strive to treat everyone with dignity and respect, and we’re committed to doing what’s right to lift people and communities up wherever we can. We take a stand against modern slavery and human trafficking across our business and hold our partners and our supply chain accountable to do the same. Our goal is to provide a work environment that is safe, diverse and inspiring, while striving for equality for all colleagues, wherever they live.

By adhering to the 10 principles of the UN Global Compact and the United Kingdom Modern Slavery Act, we promise to conduct business in a manner that respects the rights and dignity of all people. We strongly support the principles contained in the United Nations Universal Declaration of Human Rights.

We require our suppliers to treat their employees fairly and in accordance with applicable laws and regulations regarding labor, employment and the following principles:

- Freely chosen employment
- Respect for freedom of association and the right to collective bargaining
- Safe, healthy and hygienic working conditions
- No child labor
- Fair and equitable wages and benefits
- No excessive working hours
- No discrimination is practiced
- No harsh or inhumane treatment
- Promotion of supplier diversity

2021 milestones

- Became signatory of UN Global Compact
- 6.6% of colleagues are represented by Collective bargaining agreements

2022 goals

- Initiate an assessment of potential human rights issues across our business activities
- Complete manager training on prevention of discrimination and harassment
- Submit first UNGC Communication on Progress

"We are values-driven and purpose-led demonstrating respect for one another and embracing what we each contribute to the whole. Our people are the most important, sustainable advantage we have."

Stephanie Roberts, Vice President, Employment Practices

Diversity, equity, inclusion and belonging

Our commitment to diversity, equity, inclusion and belonging

We believe that companies that practice and embrace diversity, equity, inclusion and belonging as a cultural shift outperform those that hang onto the status quo. The benefits – from higher productivity, better colleague retention and a boost in morale to increased innovation and creativity from a variety of perspectives – are significant and have become embedded in our business strategy. Our commitment to diversity, equity, inclusion and belonging is about impacting real, lasting change – so we can look back and feel proud of the actions we’re taking together, at this moment.

Number of colleagues based in U.S. is 3,185 which is 28% of our total workforce. All indicators related to race/ethnicity in our reporting include only our U.S. based colleagues.

Our approach

Treating one another with fairness, dignity and respect sounds like a simple concept. Yet we know it takes prioritizing and focusing on the issues and challenges around diversity, equity, inclusion and belonging to impact real cultural change. We believe that our colleagues are our most important competitive advantage and see people coming together from different cultures and backgrounds, with different life experiences, as key to sparking new ideas and accelerating our progress. We know that colleagues who feel engaged and included will be the most proactive and productive.

Our goal is to weave these principles into the fabric of our culture to become a recognized global employer of choice. Throughout our organization, we are accelerating progress and action in support of a more diverse and inclusive workforce.

**2021 milestones**

- **73%** of colleagues completed anti-bias training which is required corporate training for newly hired colleagues.
- Continued participation in the CEO Action for Racial Equality fellowship focused on addressing racism, social injustice and improving society.
- Achieved a score of 75 in our first year participating the Human Rights Campaign Corporate Equality Index (CEI) baselining our work to achieve LGBT+ equality.
- Launched a Diversity, Equity, Inclusion and Belonging Steering Committee with active participation from cross-functional colleagues.
- Participated in the Women’s Empowerment Principles (WEPs) as part of our drive to improve women’s equality.

**2022 goals**

- Launch robust supplier diversity program.
- Increase Human Rights Campaign Corporate Equality Index (CEI) score from 75 in 2021 to 85 in 2022.
- Participate and submit the Global Workplace Equality Index assessment addressing LGBT+ globally.
- Continue participation in the Women’s Empowerment Principles (WEPs) evaluation to further inform and drive strategy.

“When it comes to Diversity, Equity, Inclusion and Belonging at Clarivate, our goal is to amplify our actions to impact authentic, lasting change. I’m proud of the progress we have made around the world and want to ensure this becomes more than a prioritized initiative and instead, becomes a vital part of our corporate culture.”

Michael Hagdorn, Senior HR Business Partner and Spectrum Colleague Resource Group co-lead.
Attracting, hiring and retaining the best talent

Our approach

At Clarivate, we have a growing myriad of opportunities for colleagues to thrive and advance their careers as well as welcoming new hires to our organization. We have a dedicated Talent Acquisition team whose priority is to attract the best, most suitable candidates using a broad variety of channels such as proactive sourcing, connecting through universities, ad campaigns and referrals. Their goal is to identify a diverse, qualified candidate pool and to provide a great candidate experience throughout the interview and hiring process.

People analytics drivers at Clarivate

- We establish performance and development goals with colleagues at the beginning of each year and evaluate individual performance annually. We request 100% of our colleagues to participate as achievement of goals and objectives impacts their performance rating, bonus attainment and annual compensation increases based on eligibility.

- Business teams including HR Business Partners and Finance Partners work together to assess the market opportunity to develop financial, operational and hiring plans designed to successfully achieve the company’s goals and objectives. A specific example is the partnership between the Technology leadership team and the HR/Talent Acquisition team focused on the technology organizational design initiative which has a worldwide scope and established set of deliverables.

- We implement a job architecture process and global roles framework to align roles, responsibilities, skills and competencies with our business requirements.

- We make significant investments to build our internal recruiting capacity in addition to securing external partners worldwide which enables us to establish an agile, supply and demand model. We also invest in technology and tools to help us understand the marketplace and available talent in specific geographies for skillsets required.

- Clarivate has completed a talent assessment process and attrition analysis to identify key areas of focus for retention initiatives. Areas of focus include attrition hot spots, business continuity, as well as identifying key leaders, high performing talent and critical skills.

- Clarivate is using talent market data and services as well as compensation consulting services to support our workforce supply and demand planning.

Clarivate Futures is our new approach for targeted, proactive university recruitment. Our Talent Acquisition team is working to develop a global program for hiring directly via college campuses to fulfill our growing talent needs. As part of this initiative, we will:

• Develop and centralize best in class campus recruiting efforts
• Build long term relationships and plans with universities to help fulfill our talent needs
• Enhance our brand awareness across colleges and universities
• Be accountable to deliver a clear, end-to-end process and positive candidate experience

2021 milestones

12% of open positions filled by internal candidates
$4.2K Average hiring cost per colleague
Median tenure by gender:
Women: 3.6 years
Men: 4 year

2022 goals

18,000 hours (1,500 hires @ 12 hours each) new hire onboarding for all colleagues joining Clarivate in 2022
Launch Clarivate Futures hiring program for interns, graduates and early career candidates in Americas, EMEA and India, growing our diverse candidate pipeline

"A key driver for accelerated sustainability action and competitive advantage is our people. Our priority is to continue to attract, hire and retain the best colleagues around the world for whom we must foster ongoing development of competencies and skills to achieve optimum performance, engagement and our long-term strategic objectives."

Troy Teague, Sr. Director, Talent Acquisition Strategy and Delivery
Learning and development as a catalyst for change

Our approach

Our learning and development (L&D) philosophy is about bringing our values, our diverse culture and a world of opportunities to life. It’s about empowering each colleague to bring their best self to work every day and providing a wide range of opportunities to develop the knowledge and skills that are applicable now and into the future. Some of our guiding principles include:

- We develop our L&D plans and programs in alignment with our key business functions to help further our mutual success and avoid creating silos.
- We believe in empowering individual colleagues with their own L&D milestones. With ownership comes commitment, responsibility and greater chances of success for ongoing personal and career growth.
- Our L&D commitments are performance related and designed to improve corporate, functional, team and individual accountability.

- We believe that every colleague across our entire business should be provided with equal opportunities to learn, develop and grow.
- We continuously focus on outcomes and business impact when it comes to evaluating L&D programs. We always ask the question, “How will you apply what you have learned in your day-to-day job?”

Colleague development programs

The Leadership Contract Program

This program, for experienced managers, consists of three virtual sessions for a total of six hours, plus a follow-up session after 45 days, designed to move leaders to action planning, support personal reflection and drive accountability to enhance performance at all levels.

Colleague participants learn:

- Greater clarity about what it means to be a leader and the four key terms and conditions required of all leaders
- The environmental drivers impacting leaders today
- The “Big D” decisions that have shaped them in the past and the “small d” decisions that require clarity and daily commitment
- The stakeholder obligations that exist in dynamic tension
- The Hard Rule of Leadership and the ten ways managers can make it even harder on themselves
- An understanding of a leadership community and the ways to build it in our organization
- How to create and live their own personal Leadership Contract

Ongoing business benefits:

With 31% of eligible managers attending, participants create a Personal Action Plan with a check-in during a follow-up session. The continued contact with the leadership community created during the session provides a positive, mentoring experience and our ability to shape future leaders of Clarivate and beyond.
Clarivate First Mile Program

This program, focused on new leaders, is a 12-week program offered in conjunction with Harvard Business Publishing for new first line leaders.

Colleague participants learn:

- How to use the learning methodology of: Learn, Apply and Reflect, leveraging content from Harvard ManageMentor®, Harvard Business Review articles, cases, and videos
- How to complete a real-life leadership exercise based on a real work experience
- Reflective exercises designed for participants to review outcomes and share their actions and approach with peers to identify best practices

The following areas foundational to management capabilities:

- Making the transition to developing a leader mindset
- Developing personal adaptability
- Accelerating talent development
- Developing high performing teams focused on driving execution

Ongoing business benefits:

This program is available by nomination and 15% of those eligible were nominated and graduated. Participants gained accelerated leadership knowledge and practical, on-the-job activities to help them improve their day-to-day leadership performance.

2021 milestones

- The Leadership Contract program for experience managers consists of a daylong session, plus follow-up session after 45 days, designed to move leaders to action, supporting personal reflection and action planning that drives accountability and enhances performance at all levels.

- 8,211 courses targeting soft skills, technical skills and product knowledge
- 10,012 hours of virtual instructor led sessions offered across the globe
- 25,849 e-courses completed

2022 goals

- Enhance programs to grow our learning culture and reward high-performing talent such as inclusive interviewing training, high performing pool, adopting a learning governance model and piloting a mentor program tied to diversity and inclusion initiatives.
- Support sustainability and diversity by continuing to provide diversity education, supporting our colleague engagement survey and increasing colleague resource group activities and participation.

"Behind every successful organization is always a dedicated, skilled team of colleagues who work together for the benefit of the company. At Clarivate, our internal learning and development programs are an essential way to support our colleague development, elevate their skills and help propel our organization to be successful and future-proof."

Marguerite Harris, Head of Talent and Development

Empowering colleagues to take charge of their health and well-being

Our approach

At Clarivate, health and good living is part of our DNA – a fundamental aspect of our culture and important for colleagues and family members alike. We are on a continual journey to make positive and lasting changes to support our overall health. We prioritize and reinforce the need for work/life balance for our colleagues around the world, and offer a robust, proven health and well-being strategy to foster a healthier, happier and more productive workforce. We’re committed to providing colleagues with meaningful resources to support their personal, family and community needs using a holistic approach that focuses on four key pillars of wellbeing: Physical, Financial, Social and Emotional.

Support during the COVID-19 pandemic:

• Maintained an informative, empathetic communications cadence with colleagues to help them ensure they remained safe and informed, including bi-weekly live Q&A sessions with the CEO and executive leadership team

• Increased focus on mental health and well-being in response to the disruptive impact of the global pandemic

• Prioritized and promoted our global Employee Assistance Program (EAP) to provide all colleagues with the support they need

• Enhanced existing programs, such as increased paid time off, expanded child/elder care benefits, allowed rollovers and mid-year election changes to pre-tax spending accounts in the United States, adopted several CARES Act provisions in our 401(k) Plan and more

• Launched a financial hardship assistance program in response to COVID-19 which delivered funding to help colleagues and their families

• Continued to provide additional COVID time off

2021 milestones

Launched “Be Well” worldwide – a comprehensive online well-being platform offering colleagues a health assessment, tracking daily health habits, health and fitness challenges, sync mobile and fitness devices and more — all while earning rewards along their personalized journey

• Total colleague steps from April through December 2021 were 451,410,764 with members averaging 7,161 steps/day.

• Colleagues enrolled in U.S. medical plans earned a total of $62,600 in cash rewards to use toward medical expenses, purchase of activewear or equipment, charitable donations and more.

• Colleagues completed 59,265 minutes of mindfulness training.

• 100% of colleagues who rated sessions reported that our mindfulness tool helped them to reduce stress and anxiety, be happier and thrive at work.

2022 goals

Introduce a worldwide trained mental health crisis response team

Create a streamlined approach to sharing targeted, monthly well-being information with colleagues, including an annual calendar of events aligned with themes that matter most to help colleagues thrive at work and at home

Integrate sustainability into our well-being rewards system, giving colleagues the ability to contribute to the global community through such endeavours as microlending and charitable giving

Boost financial fitness by offering access to tools and resources which help colleagues learn to save, invest and manage personal finances

Improved our global Employee Assistance Program (EAP) to provide all colleagues with the support they need

Integrated our well-being program with colleague resource groups and our career development system to ensure more impactful participation

Absente rate(1) (% of total days scheduled): 4.9%

1 The calculation took all of the hours submitted that fell into these COVID-19 time off, personal time off, and sick time off over the number of scheduled hours for the year. For the scheduled hours, we took those with an termination date and calculated the number of weeks worked times their scheduled hours. For those active, we took their scheduled hours at year end times 52.
Advancing our flexible, Connected Workplace model

Our Connected Workplace model is about creating a more flexible, productive and healthier workplace where we can continue to delight our customers while increasing colleague engagement. As a result, this approach positively impacts our global sustainability commitments.

Our approach
Clarivate has evolved our organization to be a Connected Workplace, where, since March 2020, most of our colleagues around the world work remotely. Based on feedback from colleagues, this flexibility is fostering more creative and inclusive ways of communicating, collaborating and advancing teamwork to improve work-life balance and long-term growth potential. We remain focused on safety as we plan to reopen our workplaces around the world. We aim for 100% of our colleagues to have access to a workplace 1-2 days per week as needed between our portfolio of Clarivate workplaces plus 3,500 third-party workplaces around the world by the end of May.

Our results
Our company and our team have thrived with our Connected Workplace model. We see that our business is resilient, our colleagues are focused and productive and we are beginning to experience unprecedented success. Our global colleague engagement survey revealed that 74% enjoyed and appreciated the new model of working from home. Based on this data and our diverse colleague feedback, we are continuing our Connected Workplace journey to ensure our business stays relevant, profitable and sustainable for years to come.

2021 milestones

85% reduction in business travel by for safety reasons from February 2020 through the end of the year

1,640 colleagues reimbursed for furniture and other necessary workstation items purchased to support work from home

88 virtual social activities conducted to enable colleagues to improve connections, focus on wellbeing and work-life balance and have fun together

2022 goals

90 virtual and onsite social activities and events by the end of the year

50 regional colleague roundtables globally by the end of the year to listen to our colleagues and take meaningful actions by site

100% of our workplaces open and implement our Connected Workplace model for ProQuest colleagues by the end of April

Maintain and monitor safety protocols and achieve 100% compliance in opening workplaces around the world

"Connected Workplace is all about our people – keeping both colleagues and customers safe, engaged and happy globally. Our flexible model allows our colleagues to effectively and on their own terms deliver on our customer commitments. We are continuously listening to our colleagues and turning their feedback into meaningful actions to make Clarivate a great place to work."

Kelley Montoya, Vice President, Change Management
Our roadmap to enrich and expand our Connected Workplace

Health and well-being

• Rolled out flexible working model where every colleague can go into a workplace 1-2 days a week for team meetings, collaboration, training, or choose to work from home

• Promote work-life balance, health and well-being via Ways of Working content

• Use of Everbridge (contact tracing app) and Booking System to monitor workplace usage and COVID cases

Working conditions

• Open new London Headquarters to serve as modern, state of the art collaboration workplace

• Conduct 50 colleague round tables in 2022 to get feedback on what is working and what is not

• Provide access to over 50+ Clarivate workplaces and 3,500 3rd party sites globally to enable better team collaboration

• Publish remote working guidelines by end of March 2022
Colleague Resource Groups

One of our five key visions is to create a fair and equitable workplace that fosters gender and diversity balance as well as a culture of belonging. Continuously engaging colleagues is key to strengthening our ESG focus at Clarivate, increasing our impact and enabling colleague-led initiatives.

Our approach

Clarivate supports colleagues around the world in the pursuit of meaningful connections and impact through participating in one or many of our Colleague Resource Groups, to learn, listen, lead and make a measurable impact. We welcome all colleagues to engage in areas of greatest personal interest at global, regional, and local levels to share information, have open conversations, debate new ideas and improve work practices.

2021 milestones

22% colleague engagement from the Global Engagement Network – our global structure and coordination of all colleague resource groups, aligning strategy and action

80 global and local teams in the network, including sustainability teams and across our six Colleague Resource Groups

2022 goals

30% colleague engagement in the Global Engagement Network

Each Colleague Resource Group will have at least one key NGO strategic partnership for impact and advancing the SDGs with measurable outcomes

Our Clarivate Colleague Resource Groups include:

Clarivate Volunteer Network:
Volunteering is so important to Clarivate, that every colleague has 40 hours of paid time off to volunteer. Volunteering provides a tremendous opportunity to engage, grow, learn, develop new skills, network and connect with others – while learning more about ourselves and the world we live in. Our volunteer network is designed to engage colleagues and facilitate impact in the community through volunteering, where actions, big or small, can have a big impact and transform our communities.

Element:
Our environment and climate change group is an internal network focused on specific environmental initiatives at Clarivate around the world. We aim to raise awareness of environmental concerns and advance our impact to promote activities and drive change. We work together to leverage our industry position to make an impact at scale through innovation and support of our customers environmental initiatives.

SPECTRUM:
Clarivate’s LGBTQ+ and Allies resource group works to drive continuous improvement in company policies and our work environment, provide support and networking opportunities for our members, and promote activities within Clarivate that raise awareness about our LGBTQ+ community - to make Clarivate an employer of choice for LGBTQ+ talent.

Military Veterans at Clarivate:
Supporting members with military backgrounds, including military family members and care givers with challenges such as adjusting to post-military life is vital. Our goal is to set up programs to foster career growth, establish support networks for new colleagues to assimilate into the corporate culture, and building relationships in the community with volunteer outreach.

Vibrant:
Focused on racial and ethnic diversity, inclusion and equity, colleagues are helping establish diversity commensurate with the markets we serve and the communities in which we operate. Embracing diversity will be our strength to make Clarivate a more creative, innovative and competitive company while uniting a multi-faceted workforce through cultural awareness, representation, and community engagement.

Women@Clarivate:
By cultivating an environment in which women flourish through the creation of opportunities for social interaction, networking, community engagement and professional development, we lift up all colleagues and enable them to better contribute to sustainable growth and profitability.
Community impact and engagement

Advancing our community impact around the world

Our approach

We champion community partnerships and diverse, innovative contributions to our shared future because we believe there is no better way to support giving back and social impact initiatives worldwide than to motivate and mobilize our colleagues and their communities. In 2021 we built the foundational elements to encourage our colleagues to share their time, talent and resources wherever possible to make a measurable difference. Every Clarivate colleague is provided five days of paid volunteer time off every year.

We’ve made volunteering easier and more inspiring by collaborating with the Clarivate Volunteering Network (CVN) which supports organizing and communicating various events and initiatives. The CVN is aligned with the UN Sustainable Development Goals, with a focus on quality education, gender equality, decent work and economic growth, industry innovation and infrastructure, reduced inequalities and sustainable cities and communities.

We’re reinvigorating volunteerism at Clarivate with the use of YourCause, a centralized platform for collaboration, event support and reporting where colleagues can find events, or search organizations to volunteer with or donate to.

2021 milestones

5 days of paid time off to volunteer for all colleagues

14K hours of global volunteering in support of the SDGs

9% of colleagues participated in volunteering activities in 2021

2022 goals

17K hours Clarivate colleagues to share volunteering

Grow our impact and participation in mentorship with the Global Mentorship Initiative as a key partner

"The volunteer network at Clarivate is a happy hub that truly empowers each and every colleague to do good, give back, learn and grow while having fun. Every one of us, whether we realise it or not, has the ability to make a difference to the lives of others and a meaningful impact in the world"

Aman Gata-Aura, Strategy manager and Co-lead of Clarivate volunteer network
Community impact and engagement

Our commitment to volunteering, partnerships and donations

Our Corporate citizenship strategy

Global mentorship initiative (GMI)

As an information and insights company, research, analysis and data are key to driving progress. Education and enabling full, meaningful career growth and opportunities for all, are fundamental to our core values and how we drive progress within our company, with our customers and in our communities.

Clarivate is one of GMI’s top five corporate partners, where, in 2021 we sponsored 100 students who successfully completed the GMI 14-week program, through a $5,000 donation and sharing over 2,000 hours in volunteer time. This enriching, global initiative, brings together mentees who reside all over the world, with our Clarivate mentors in many countries/regions, including the U.S., India, England, Spain, Canada, Serbia, Mainland China, Germany, Australia, Singapore and South Africa. This includes 99 first time mentors in 2021, for a total of 137 mentee relationships with some colleagues mentoring multiple students.

Since the inception of the partnership in 2020, Clarivate mentors have completed 180 mentorships, with 55 Clarivate mentors choosing to mentor multiple students. This partnership supports SDG 4, SDG 5, SDG 8, SDG 10 and SDG 9.

Racial equity fellows

As a global company, we are committed to growing and nurturing a diverse workplace. We believe that advancing a more equitable world, is the foundation to advancing a more sustainable world. We are signatories to the CEO Action for Diversity and Inclusion and enabled two full time colleagues to serve as Racial Equity Fellows to support the work of addressing systemic racism in the US and beyond. We have two additional colleagues who will serve as a racial equity fellows in 2022. This work supports SDG 5, SDG 10 and SDG 8.

Number of Racial Equity Fellows: 2

Kiva Microlending

As a global company working to advance innovation and investment in a more equitable world, we value entrepreneurship at all levels. As a way for our company and colleagues to help small business owners be self-sufficient, run their business and earn a living despite lack of access to traditional funding, we are partnered with Kiva to provide access to funding and meaningful, personal ways for colleagues to engage and provide support. Clarivate donated $5,000 to Kiva in 2021. This work supports many SDGs, particularly SDG 8, SDG 10, SDG 5.

Governance

Conducting business with trust, honesty and integrity is one of our most important commitments.

Adopting ethical governance is fundamental to how we operate, from our Board governance to our code of conduct, cybersecurity policies, human rights stand and Customer Delight commitments. By maintaining robust corporate governance, we create a roadmap for long-term success and shareholder value, facilitated by our purposeful strategies which include sustainability and corporate responsibility.
Strong corporate governance

Ethical leadership

Our approach

At Clarivate, our Board of Directors plays an essential role in prioritizing Environmental, Social and Governance (ESG) issues across our organization. With growing awareness, attention and action from investors, customers and other stakeholders, our Board and Committees provide our leadership with much more than oversight and guidance. They keep us focused on driving real accountability to continually ‘do what is right’ when it comes to advancing ESG. ESG issues have an expanding impact on our business strategy, risk management and overall performance so we’re committed to being ‘all in’ across all regions, every role and every way we do business at Clarivate. One of our key goals is to align executive pay to performance against ESG goals by the beginning of 2024.

Board meetings

The Board meets at least four times a year, and special meetings may be called from time to time as determined by the needs of our business. Our directors take their roles seriously as well as their responsibility to prepare for, attend and participate in meetings and in all committees which they serve. Directors who are unable to attend a Board or committee meeting are expected to notify the Chairman of the Board or appropriate committee in advance of the meeting and participate via teleconference if possible. Sustainability is a key topic at every Board meeting with dedicated oversight from the Nominating, Governance and Sustainability Committee which reports into the Board at each meeting.

Over

75%

Average Board meeting attendance (of the 8 held in 2021)

Board independence statement

Our Board is composed of a majority of directors who qualify as independent directors as required under NYSE rules and our committees are composed exclusively of independent directors. Our Audit Committee and Human Resources and Compensation Committee each satisfy the applicable enhanced independence criteria set out by NYSE and the SEC.

14/15

Number of independent out of total Board members

In 2021, we were proud to be named in Inc.’s first annual Best-Led Companies list, their data-driven list of the strongest U.S. firms with revenue of $50 million to $2 billion that looks at a 12-point measure of management excellence across the middle market.

1 Each director attended at least 75% of the total regularly scheduled and special meetings of the Board and the committees on which they served.

Chairperson ☑️ Lead Independent Director ☐ Member ☐

2021 milestones

Our Board continued to focus on diversity in 2021. We published Board of Directors Diversity, equity, inclusion, and belonging Policy. Below are our Board’s composition and related metrics:

- 13% of board members are non-U.S.
- 27% of board members are female
- 57 median age of board members
- 1yr average tenure of board members

2022 goals

The Nominating, Governance and Sustainability Committee will assess board composition, identify board skills needed and determine board training required to address ESG issues.

- Increase transparency of our progress toward achieving ESG goals at all levels of the business by setting a Science-Based Target (SBT) and supporting the Task Force on Climate-Related Financial Disclosures (TCFD)
- 30% increase the percentage of female Board members (up from 27%)
- 90% of independent Directors on the board

"The Board is committed to ensuring Clarivate adheres to the highest levels of ethical leadership in order to drive sustainable, long-term value for all stakeholders. We recognize the importance of ESG and embrace our responsibility to address some of the greatest climate challenges and opportunities of our time. Clarivate is ideally positioned to give customers the information and insights they need to change the future."

Sheryl von Blucher, Board member and Chair of the Nominating, Governance and Sustainability Committee
At Clarivate, our Code of Conduct is foundational for establishing global leadership as a sustainable company. We have embedded it into our corporate culture as our guide for behaving with trust, respect and ethics — and we bring it to life with our actions. Throughout our global organization, it’s the cornerstone of our compliance program and provides guidance on how we represent our brand in everything we say and do. It reflects our mission, vision and values, especially when it comes to fostering trust, respect, integrity and sustainability.

Our Code of Conduct covers a broad spectrum of guidelines including proper use of assets, confidentiality, health and safety, gift giving, conflicts of interest, anti-fraud and more. We supplement it with targeted training, best practices and continual leadership guidance. Our commitment is to have all colleagues worldwide complete our online Code of Conduct training course and acknowledge our Code of Conduct annually. All new colleagues must complete and acknowledge this training shortly after joining with progress monitored by our Compliance team.

"Our colleagues live the values embodied in our Code of Conduct and we make adherence to our Code an integral part of our culture, supported by continual guidance and training from our experienced and engaged Compliance team. Our colleagues live our values every day, reflecting the strong sense of ethics that permeates and defines our organization."

Julio Martin, Chief Governance & Compliance Officer

100% of colleagues completed Code of Conduct training
100% of colleagues got Code of Conduct acknowledgement
Organizational resilience

Managing risks to accelerate sustainability

By taking a strategic approach to risk management, we are better equipped to anticipate the direction and impact of change across our business. It also helps us connect our long-term vision and our sustainability principles so we can avoid barriers to success and actively pursue opportunities to achieve and maintain our sustainability goals.

Our approach

In 2020, we took several key steps to advance our risk management program, starting with establishing our governance framework, creating a Management Risk Committee (MRC) to provide effective reporting to the Board and benchmarking our approach with other companies that have a similar risk profile. To gain valuable feedback and better understand our critical success factors, we developed an extensive, holistic approach to assessing strategic, operational, financial, legal, regulatory and compliance risks across our global business.

We initiated regular risk reporting to better identify issues as they arise or better yet - before they arise.

In 2021, we maintained the risk assessment process, completing a comprehensive assessment including review and rationalization of existing risks, identifying new risks and expanding risk definitions. We implemented Operational Risk Boards for major solution groups to facilitate review and track management of operational-level risks.

Enterprise risk management governance

Risk Management is the responsibility of every colleague in the company. Different stakeholders have different objectives and levels of accountability with respect to risk management.

• The Risk Committee was created by the Board of Directors to discharge the responsibilities set forth in the Risk Committee Charter. The governing charter can be found at Clarivate Risk Committee Charter.

• The Management Risk Committee (MRC) is an integral part of the Governance Framework for Enterprise Risk Management and has been established to serve as an internal forum for identifying, communicating, assessing, responding to and monitoring risk and issues that could impact Clarivate.

• Enterprise Risk Management

• Business Unit and Functional Leaders are responsible for maintaining a sustainable risk management program following the company-wide ERM framework.

• The Chief Risk Officer (CRO) is responsible for the establishment of the enterprise risk management process within the organization. ERM understands the relationship between risks across different categories (risk interdependencies). The CRO will facilitate the process to define risk oversight and accountability for managing risks at all levels of the company by presenting best practice, common risk management techniques and driving a consistent risk appetite.
2021 milestones

30+ enterprise risk interviews conducted
100+ risks assessed
10 top risks identified with related response strategies
17 distinct risk assessments covering functional areas and business units, including workshops with MRC members, functional and business line leaders
10+ Enterprise Risk Management (ERM) workshops conducted
Higher priority/focused risks identified determined by likelihood of occurrence and impact to the organization

2022 goals

Continue to monitor and prioritize emerging risks
Advance our risk-aware culture by providing awareness and training
Ensure consistent ERM framework across business lines/functions supporting our risk assessment and business continuity efforts by leveraging a central repository of risks, ERM guidelines and documentation, consistent methodology and approach for existing and newly integrated businesses
Continuing to focus on organizational resilience, as we establish our Business Continuity governance framework

"We’re embracing Enterprise Risk Management as part of our core management philosophy and business strategy, so we can not only proactively focus on potential threats and opportunities but consider the environmental and social impacts tied to each of them."

Liliana Hinderman, Chief Risk Officer
Data security and privacy

Fortifying our commitment to Cybersecurity

At Clarivate, Cybersecurity remains a top priority across our organization. We know the best way for our company to protect itself from cyber threats is to have a solid Information Security Risk Management program in place to safeguard colleague and customer data and build trust and loyalty across our platforms. We continue to stay proactive, informed and committed to continually reviewing, testing and strengthening our Information Security Risk Management program.

Our approach

We use a risk-based approach to address compliance requirements by establishing continual, lock-step alignment with business priorities and customer needs. We make sure our standards, policies and security controls are defined, managed and tracked across all our products and solutions. To accomplish this, we have assembled a talented team of certified security subject matter experts located around the world who are highly focused on reinforcing our cyber security standards at all levels.

In 2021, we completed our ISO 27001 certification audit, meeting the global standard for managing information security. ISO 27001 is the only auditable global benchmark that defines the requirements of an information security management system (ISMS) which includes a set of policies, procedures, processes and systems that manage information risks, such as cyber-attacks, hacks, data leaks or theft.

2021 milestones

- Completed our first ISO 27001 certification audit
- 92% Awareness training completion

2022 goals

- Deploy Security Champions Program across the Organization
- Normalize Security tooling across acquired environments

"As we continue the shift towards a digital workplace and blur the perimeter line, we are working hard to remain nimble and vigilant. We’ve assembled an expert team to proactively monitor, identify and secure areas of potential exposure to keep our information and systems safe."

Christian Wagner, Chief Information Security Officer

Resources: Information Security Program | Information Security Standards
At Clarivate, we believe that collaboration drives sustainability.

We know that successful, sustainable community partnerships can do great things. Today’s nonprofits, B Corporations and other mission-driven organizations face unique challenges on the internet. From cyber security threats targeting an organization’s digital assets to fraud aimed at donation intake and philanthropic giving channels, every minute and every dollar spent addressing these challenges takes away from the focus and success of their mission.

This is where MarkMonitor Domains for Good is uniquely positioned to help, with more than 20 years of domain industry leadership and cybersecurity expertise. In 2020, inspired by sustainability at Clarivate, our MarkMonitor team began inviting qualifying organizations to join our Domains for Good collaborative ecosystem. We continue to welcome mission-driven organizations, such as B Corps, and non-profit organizations whose primary purpose is philanthropic, benevolent or other for-good activity focused on at least one of the UN Sustainable Development Goals.

Key participation benefits to help drive success

- Engage with like-minded peers and MarkMonitor experts on best practices for cybersecurity, domain management and online brand protection through various live and online events
- Invitations to MarkMonitor events with priority registration like ‘mastermind’ webinars, forums, and other relevant events like Org Impact Awards, and access to relevant thought leadership content
- Receive a complimentary Domain Watch service from CompuMark™, helping to quickly identify newly registered domain names which may infringe on their brand or serve as cyberattack vectors
- Special pricing for domain related services, which reflects our recognition of participating organizations’ efforts toward their positive, world-changing missions

"Clarivate is inspired, eager and uniquely positioned to support nonprofit, mission-driven organizations through our MarkMonitor™ Domains for Good program. Tightly aligned with our corporate sustainability initiatives, Domains for Good helps these organizations navigate online complexities, gain best practices and mitigate cybersecurity risks so they can focus on contributing to a better world."

Brian King, Head Government Strategy & Industry Relations
Our commitment to safeguarding personal data

Incorporating sustainability into the Clarivate Privacy Program ensures company and colleagues alignment with not only data protection, but also best practices for lean, responsible collection, usage and storage of data. This collaborative approach will ensure our solutions and corporate functions adopt the data minimization principle by only collecting the data needed or required.

Our approach

At Clarivate, data is our business. We believe in trust and transparency, especially when it comes to protecting personal data. Our ongoing commitment to promoting responsible data use will help drive a more sustainable society. We’ve created a robust and effective data protection program with policies and procedures that reflect internationally accepted principles of transparency, accountability and individual rights.

To be effective, data protection policies must be managed as an evolving program that is continually reviewed, advanced and tested to make sure our actions reflect our promises. In addition to investing in data protection technology, we’ve built a team of full-time, dedicated privacy professionals led by our Chief Privacy Officer. They are diligent guardians of our privacy policies and practices, helping us adhere to our guiding principles and stay ahead of evolving privacy and data protection laws.

Our guiding principles

- Transparency and choice – help individuals understand how their personal data is used, what their rights are and how they’re empowered to control their data
- Accountability – remain accountable for our practices by reporting how we’re complying with data privacy legislation
- Security – reinforce processes that define policies and procedures to manage risk and reduce vulnerabilities for our ongoing commitment to security and privacy

Our 2021 focus areas

- Increase third-party privacy oversight
- Improve record-keeping maturation and automation
- Enhance privacy incident response readiness and testing
- Conduct exhaustive reviews and implementation of new privacy and security law requirements including Mainland China PIPL, Japan’s APPI, the New Transatlantic Principle, etc.
- Continue to increase awareness, implement and strengthen additional safeguards in cross-border transfers

Our 2022 goals

- Continue to enhance and strengthen third-party privacy oversight
- Enhance the data minimization principle across the company to promote a focus on lean data
- Create a team of privacy connectors for channelling privacy notifications and initiatives across the company
- Conduct the 2022 product privacy impact assessments to measure current state of data minimization principle and privacy by design effectiveness

"We believe in giving individuals control over their data which starts by giving them access and options – easy access for making data subject requests and options for accepting or rejecting data collection. Our goals continue to focus on achieving world-class innovation while respecting the right to privacy and managing personal data entrusted to us with fairness, transparency and rigorous legal compliance."

Lisa Smith, Chief Privacy Officer

"We believe in giving individuals control over their data which starts by giving them access and options – easy access for making data subject requests and options for accepting or rejecting data collection. Our goals continue to focus on achieving world-class innovation while respecting the right to privacy and managing personal data entrusted to us with fairness, transparency and rigorous legal compliance."

United Nations Global Compact Communication on Progress

We are committed to making the United Nations Global Compact (UNGC) and its principles part of the strategy, culture and day-to-day operations of our company and to communicate our progress according to UNGC requirements. We submitted our UN Global Compact letter of commitment in December 2020 and have been a member since February 2021. We pledge to align our business practices to the 10 UNGC principles in the areas of human rights, labour, environment and anti-corruption. This report serves as our annual UNGC Communication on Progress. The table below shows the reference location of our disclosures against each UNGC Principle.

<table>
<thead>
<tr>

Alignment with sustainability standards

At Clarivate, we have worked to better align our sustainability initiatives and disclosures to satisfy investor and stakeholder expectations for sustainability performance data. We are focused on highlighting how we are accelerating our purpose in addition to driving long-term profits by aligning with accepted, standard reporting frameworks for disclosing impacts on the environment, society and the economy.

GRI content index: This report has been prepared in accordance with the GRI Standards: Core option.

Statement of the Board of Directors

The Board of Directors have reviewed, discussed and approved the sustainability report of Clarivate for 2021.

In our opinion, the sustainability report for 2021 provides a fair presentation of Clarivate sustainability activities and results as well as a balanced presentation of Clarivate Environmental, Social and Governance performance in the reporting period.

About this report

This sustainability report includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements." These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "seeks," "projects," "intends," "plans," "strives," "forecast," "outlook," "may," "will," "should" or similar expressions or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, anticipated Environmental, Social or Governance impacts, goals, targets and strategies.

The forward-looking statements contained in this report are based on our current expectations, beliefs and forecasts concerning future events, trends and developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks and uncertainties (many of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. Should one or more of these risks or uncertainties materialize, or should any of the assumptions prove incorrect, our actual results or performance may vary in material respects from those expressed or implied in this document or any of our prior communications. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
About Clarivate

Clarivate™ is a global leader in providing solutions to accelerate the pace of innovation. Our bold mission is to help customers solve some of the world’s most complex problems by providing actionable information and insights that reduce the time from new ideas to life-changing inventions in the areas of Academia & Government, Life Sciences & Healthcare, Professional Services and Consumer Goods, Manufacturing & Technology. We help customers discover, protect and commercialize their inventions using our trusted subscription and technology-based solutions coupled with deep domain expertise.
