

## Indonesia (ID) Coverage

### Patent Office Details

DJHKI (Directorate General of Intellectual Property Rights)  
Jalan Daan Mogot KM 24  
Tangerang 15119 - Banten  
Indonesia

Web: <https://dgip.go.id/>

### Kinds of Protection

Patents of Invention	Granted for an unextendable term of 20 years from the filing date
Simple Patent	Granted for an unextendable term of 10 years from the filing date

### Convention & Treaty Membership

Patent Cooperation Treaty	5 September 1997
Signatory of:	Paris Convention (Stockholm wording) World Intellectual Property Organization

### Filing for Patents

Patents are granted to inventions which are novel, involve an inventive step and are capable of industrial application.

A patent shall not be granted to an invention regarding:

- any process or product of which the announcement and use or implementation contravenes the prevailing rules and regulations, religious morality, public order or ethics;
- any method of examination, treatment, medication, and/or surgery applied to humans and/or animals;
- any theory and method in the field of science and mathematics;
- any living creature, except micro-organisms
- any biological process which is essential in producing plants or animals, except non-biological or microbiological processes

Applications should be filed in the Indonesian Language. If filed in English, it must be translated into Indonesian at the latest 30 days from the filing date otherwise the application shall be deemed withdrawn.

Applications may be filed by the applicant or through a proxy, which is defined as a consultant of intellectual property rights registered at the Directorate General. Applications filed by an inventor/applicant who does not reside in or does not have a fixed domicile in the territory of the Republic of Indonesia must be filed through his Proxy in Indonesia.

Applications filed with a priority right as regulated by the Paris Convention must be filed within 12 months commencing on the date on which the first application was received by any country that also participates in the Paris Convention or is a member country of the World Trade Organization.

Applications may be amended by revising the description and/or the claims, provided that such amendments do not expand the scope of invention. Applicants may also request that an application be divided if the application contains a number of inventions that do not constitute a unity of invention.

The Directorate General announces applications for patents 18 months after the filing or priority date of the application, or for simple patents no more than 3 months after the filing date. The announcement may be made earlier on request from the applicant with the payment of a fee.

The announcement is carried out in the Official Patent Gazette and/or by placement on a special announcement board provided exclusively for this purpose by the Directorate General which can be easily and clearly seen by the public. A request for examination must be filed at the latest 36 months from the filing date otherwise the application shall be deemed withdrawn. The Directorate General makes the decision to approve or refuse an application for a patent at the latest 36 months from the date of receipt examination request or from the end of the announcement period. For simple patents, the decision is made no more than 4 months from the filing date.

## DWPI Coverage

Kind	DWPI Start Dates
A Application (National or PCT)	7 January 2010
A1 Patent invention	3 January 2020
S Simple patent	7 January 2010
U1 Short term patent	3 January 2020

DWPI Data elements	Chemical	Electrical	Engineering
Bibliographic data, value-add title and abstract	Basics	Basics	Basics
Bibliographic data	Equivalents	Equivalents	Equivalents
Original title and abstract			
Manual Codes	Basics	Basics	-
DCR, Fragmentation, Polymer and Markush Indexing	Basics	-	-

**Inclusion in DWPI** From update 201309

### First publication dates

Chemical	CPI ( <i>sections A-M</i> )	Jan 2010
Electrical	EPI ( <i>sections S-X</i> )	Jan 2010
Engineering	EngPI ( <i>sections P-Q</i> )	Jan 2010
