Patent Office Details

The Swedish Patent and Registration Office (PRV)
Box 5055
102 42 Stockholm
Sweden

Web: <https://www.prv.se/>

Official gazette: *Bilaga till Svensk Patenttidning* (Status A); *Svensk Patenttidning* (Status B)

Kinds of Protection

Patents of Invention	Granted for a term of 20 years from submission date
Supplementary Protection Certificates	Extension of up to 5 years possible for medicinal and plant protection patents
Industrial Designs and Models	May be registered

Convention & Treaty Membership

Patent Cooperation Treaty	17.05.1978
European Patent Convention	01.05.1978
Signatory of:	Paris Convention (Stockholm wording) Budapest Treaty World Intellectual Property Organization International Convention for the Protection of New Varieties of Plants

Filing for Patents

Inventions which are new in relation to what was known before the filing of the application are patentable. Applications may be made, in Swedish, Norwegian and Danish by the inventor or his legal successor. Inventors not resident in Sweden must appoint a local agent.

Under the International Convention applications claiming priority must be filed within 12 months of the earliest filing date in a Convention country. Priority may be claimed within three months of filing in Sweden. A certified copy and any translation must be filed within 16 months of the priority date. As a member of the European Patent Convention, Swedish translation of the European patent must be made and filed with the patent office together with a fee within three months from the grant of the European patent to enjoy protection in Sweden. Under the Patent Cooperation Treaty, international patents designating Sweden have the same effect as a national application, provided the relevant documentation is filed with the patent office within 20 months of the international filing, or priority, date.

After formal examination, the patent office will examine the application as to novelty and substance. If the application is complete and meets all requirements, the patent office will notify the applicant that the patent can be granted.

From the day of grant, the patent specification is available at the patent office. After a period of 18 months from the date of filing, or if priority has been claimed, from the priority date the documents will be made available to the public. The applicant can request the documents to be made available earlier. The applicant is granted rights once the application has been laid open to the public.

Opposition to the grant of a patent may be made within nine months from the date on which the patent was granted.

DWPI Coverage

Kind	DWPI Start Dates
A OPI application	2 January 1974
A1 OPI application	26 February 2010
A2 Republished OPI application	N/A
B Examined accepted specification	21 August 1980
C Granted patent	18 September 1995
C1 First level patent specification	6 June 1995
C2 Granted patent (New Law)	16 October 1995

DWPI Data elements	Notes
✓ Bibliographic data	
✓ English value-add title and abstract	
✓ Manual Codes	Chemical (CPI) and Electrical (EPI)
✓ Chemical Indexing	DCR, Chemical Fragmentation, Polymer and Markush
