Patents of Invention	Granted for a term of 20 years from date of filing of application
Utility Models	Referred to as Utility Solutions. Granted for 10 years from filing date of application
Industrial Designs and Models	May be registered

Convention & Treaty Membership

Patent Cooperation Treaty	10.03.1993
---------------------------	------------

Signatory of:	Paris Convention (Stockholm wording) World Intellectual Property Organization World Trade Organization
---------------	--

Filing for Patents

Patents are granted for any invention that is new, involves an inventive step and has industrial application. Utility solutions are granted for less complex inventions.

Applications may be made, in Vietnamese, by the inventor or his successor. If the application is filed in a language other than Vietnamese, the applicant has to submit a Vietnamese translation to the Patent Office within 3 months from the date of filing. Applications by non-Vietnamese residents must be filed via recognised Vietnamese patent agents.

Under the *Patent Cooperation Treaty*, applications claiming priority must be filed within 3 months of the earliest filing date. If priority is not claimed, the application may be filed directly, within 18 months from the earliest filing date. A Vietnamese translation of the basic foreign application is also required.

Applications are examined as to form, inventive step, patentability and novelty.

The application is laid open to public inspection after the 18th month from the earliest priority date. Request for substantive examination must be filed within 42 months of the earliest priority date for patents of invention and within 36 months of the earliest priority date for utility solutions. If the invention is found to be patent-worthy after examination, it will be accepted for grant. The patent will be published in the *Industrial Property Gazette*.

Opposition may be filed during the substantive examination phase and will be considered alongside the examination process.

DWPI Coverage

Coverage commenced with the first publications in 2010

Kind	DWPI Start Dates
A Application	25 January 2010
B Granted patent	25 January 2010

DWPI Data elements	Notes
✓ Bibliographic data	
✓ English value-add title and abstract	
✓ Original title and abstract	
✓ Claims	Main claim (Granted patents)
✓ Manual Codes	Chemical (CPI) and Electrical (EPI)
✓ Chemical Indexing	DCR, Chemical Fragmentation, Polymer and Markush
